INK THAT NEVER DRIES.

Care Used In Handling Fine Etchings and Engravings.
"One of the first things we have to

impress upon newcomers in this business." remarked a dealer in fine prints "is to take the utmost care in handling prints for the simple reason that the ink used in printing engravings and etchings practically never dries. Of all the men whose works in this line we handle it can be safely said that on the prints of only two of them— Rembrandt and Durer-has the ink really dried. And you know it is long time since they were alive. has been our frequent experience to have prints fully 200 years old show signs that the ink still had some moisture in it, as we have learned to our cost in seeing them rubbed.

"An expert, whether he be a professional or amateur collector, can tell at a glance that a print has had another one pulled across it, for to his accus-tomed eyes the telltale marks of the ink having been drawn across a blank ce on the paper are as clear as day-That is why we keep all of our prints in boxes that just fit them so that they must be lifted out squarely with no chance of their being dragged cross the one below. It seems like s trifle. But it is just such trifles that make or mar the sale of a really fine worth thousands of dollars."-New York Press.

A CORDIAL NATURE.

If It Is Not Yours, Do Your Best to

The cultivation of cordiality and popularity early in life will have a great deal to do with ene's advancement,

comfort and happiness. It is a mortifying thing to have a kindly feeling in the depths of one's heart and yet not be able to express it, to repel people when one has just the site feeling toward them. To be incased in an icy exterior with a really warm heart is a most unfortunate

Some people have a repelling expres sion in their faces and manner which but they do not seem able to overcome This is largely due to a lack of early training or to the fact that sometimes these people have been reared in the country, away from the great centers of civilization, where they do not have the advantages of social incourse, and in consequence become cold and appear unsympathetic when

they are really the opposite. It is a very difficult thing to overcome these handicaps, but the cultivation of good will, of a helpful spirit and kindly feeling toward everybody will go far to open up the hard exterior so that the soul can express itself.—Success Magazine.

The Horse's Ancestors.

Lovers of horses may be delighted with the distinguished genealogy which geologists have completed for that favored animal. At least the names of the horse's ancestors look very distin-guished. Here is the list, with the geo-logical eras in which each lived, as arranged by Professor W. N. Rice: The line of descent begins with Hyracotherium and Echippus of the lower eccene age. Then follow Protorchippus and Orchippus of the middle eccene; Epiof the upper eocene; Mesohippus of the oligocene; Anchitherium of the lower miocene; Parahippus, Protohippus and Pliohippus of the middle and upper miocene, and finally Equus pliocene and the quaternary from which the modern horse directly descends. Hipparion and Hippidium represented ancient side branches that

More Laughter, Less Sufcides. The physiological benefits of laughter rannot be overestimated. It shakes up the diaphragm, sets the pulses beating to a lively measure, stimulates the scles, enlivens the brain and sometimes produces dislocation of the jaw when indulged in too heartly by a man with a large mouth. Used with discretion, laughter is as inspir-

ton had among her pupils a colored boy named Ralph Waldo Emerson Longfellow. As he was absent one Sunday, she asked the class if any one knew the reason for his absence.

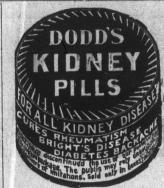

"I reckon I do," said one small, serious looking boy. "What is the reason, Johnnie?" "I guess he's home writing poetry," responded the boy, with a delighted chuckle.-Youth's Companion.

That's What Makes Him Mad. "Why are you always quarreling with your wife?"

"She is always arguing with me." "But you need not get angry; just explain to her in a calm, gentle tone of voice wherein she is wrong." "But she is never wrong."-Houston

Farming. Nothing will take the various social distempers which the city and artificial life breed out of a man like farming, like direct and loving contact with the soil. It draws out the poison.John Burroughs.

STEAMER DESTROYED BY FIRE Explosion of Lamp the Cause All the Crew Escaped.

Sault Ste. Marie, Ont., June 28.—
The steamer Batchewana of the Ganley Tug Line was totally destroyed Wednesday night at Coppermine Point, fity miles west of the Soo.

It was due, it is said, to the explosion of a lamp. The flames made rapid progress, compelling the engineers to make a hurried exit from the engineroom, leaving the machines in operation.

on. The vessel was turned to the shore one mile away and beached, the crew of fifteen men, under Capt. James Ganley, all being landed safely. The Batchewans carried a cargo of iron ore from the Helen Mine for the Algoma Iron Works, and was partly

That the roots of many plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked to work, so he wanted his squaw to get well as soon as possible, that sharmight do the work and let him hunt. Therefore he dug mm heart is a most unfortunate and let him hunt. Therefore he dug "papose root" for her, for that was been expendent to them, they do not seem able to overcome this is largely due to a lack of the training or to the fact that sometes these people have been reared the country, away from the great ters of civilization, where they do Many afflicted women have been avayed from the operating table and and let him hunt. Therefore he dug

saved from the operating table and the surgeon's knife by the timely use of Foctor Pierce's Favorite Prescription. Tenderness over the fow er region, with backache, spells of dizzinees, faintness, bearing down pains or distress should not go un-headed. A course of "Favorite Pre-scription" will work marvellous b nefit in all such cases, and generally effect a permanent cure if persist-ed in for a reasonable length of

time.
For constination, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild. harmless, yet sure.

GAS WORKS WERE BURNED.

Dangerous Fire At Belleville Unat-tended By Casualties. Belleville, Ont., June 28.—Between the hours of 3 and 4 o'clock yesterday the hours of 3 and 4 o'clock yesterday morning the greater portion of the gas works owned by the city were completely gutted by fire, but fortunately there were no explosions, and no person was injured. The roof and framework was burned, and the machinery was damaged by water in consequence of the fire. There is much inconvenience throughout the city but it is thought that it will be much inconvenience throughout the city, but it is thought that it will be possible to manufacture gas by this evening. How the fire originated is not known, but there is every suspicion that it was incendiary. The loss will be at least \$5,000, and is covered by insurance in several companies.

Piles Cured At Home by New Absorption Method

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will With Fallieres. with discretion, laughter is as inspiring as a sea breeze, as refreshing as a sea breeze, as refreshing as an August shower. Its moral effect is beyond computation. It has killed more ridiculous superstitions by its rollicking roars of unbelief than any other agency. What can be more derisive than a laugh? The man who laughs never kills himself.—Exchange.

LOVING TRIAL NEAR END.

Judge Sustains the Defence in an Important Point.

Houston, Va., June 28.—Taking evidence in the trial of ex-Judge Loving in the Circuit Court of Halifax County for the murder of young Theodore Estes in Nelson County last April 22, was concluded late yesterday. The court then adjourned till this morninf, when the instructions to be given to the jury will be argued before Judge Barksdale.

before Judge Barksdale.
Yesterday saw one important turning point in the case Judge Barksdale rendered an opinion concerning the admissability of certain evidence, dealing a heavy blow to the plans of

the prosecution.

Attorney Daniel Harmon, for the prosecution, announced that he would have witnesses show that the story told by Miss Elizabeth Loving to her father, that she was drugged and assaulted by Estes, was a falsification.

The defence objected on the ground that such evidence had no bearing on the case, and had nothing to do with the question of Loving's mental state at the time of the tragedy. The judge sustained the defence, and among the cases he cited as authority was the cases he cited as authority was the Thaw case in New York.

TELLS STARTLING STORY.

Sensational Charges Made by the Cook of Steamer Crystal Stream.

St. John, N. B., June 28.—There is considerable excitement here regarding the burning of the steamer Crystal Stream, in which four men lost their lives. At the enquiry things took a sensational turn when the took a sensational turn when the cook, Mrs. Coleman, gave evidence pointing to Capt. Perry, of the steamer Aberdeen, as the incendiary. The two steamers are rivals in one section of the river and there has been bad feeling between the crews for some time. It was stated that the Crystal Stream people agreed not to compete with the Aberdeen this summer, and when the agreement was broken Capt. Perry, it is alleged, promised to get even.

At the enquiry Mrs. Coleman swore that Capt. Perry declared he would have revenge if it took ten years. She also swore that on running to the

also swore that on running to the deck, after discovering the fire, she saw Capt. Perry running across the wharf in his bare feet: This statement is wigorously denied by Capt. Perry.

CUT TO PIECES ON TRACK.

Young Englishman Run Down by Locomotive at Brockville.

Brockville, June 28.—A young Englishman named Witt, who came to Canada a few weeks ago, was killed directly in front of the station here directly in front of the station here on Wednesday night by a light engine. Witt was employed as fireman on the Grand Trunk between Brockville and Montreal. He was crossing the tracks in company with Car Inspector Hannah, and both men failed to notice the approach of the engine of No. 5 passenger train, which was backing towards her train. Witt was literally cut to pieces and death was instantaneous. His companion was picked up unconscious, but, aside from the shock, does not appear to have sustained injury. An inquest have sustained injury. An inquest will be held.

LAND FOR IRISH TENANTS.

Birrell Pleads That Commons Pass Evicted Tenants Bill. London, June 28.—Mr. Birrell, Chief

Secretary for Ireland, in introducing the evicted tenants bill in the House of Commons yesterday, said:
"Rain is falling pitilessly in the west of Ireland, the turf is rotting and the seaweed used as manure is as wet as when taken from the sea.

"Such a measure as this will be taken by that population as a token

taken by that population as a token of good feeling.
"It will do much to bind up many a well-nigh broken heart, and in some measure staunch bleeding wounds.
"There are two thousand tenants to be reinstated, and the Government wants to make a clean job of it and must acquire land compulsorily."

CRUEL BACKACHES

The Trouble Usually Due to Poor Blood-Dr. Williams' Pink Pills the Cure.

There is a common notion that backache is a sign of kidney disease, but this is absolutely wrong. Not one backache in a thousand has anything to do with the kidneys. Hundreds of people die of kidney disease who never had a backache—and hundreds who suffer continually from backache have nothing wrong with their kidneys. By far the most common cause of backache is muscular theumatism. Nearly all the rest of the backaches are due to weakness and poor, watery blood, or in the case of growing girls and women, to those secret ailments that make the lives of so many of that sex miserable. Don't let a backache frighten you into the belief that you have kidney trouble. What is really needed to cure the average backache is a tonic, blood-building medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood making medicine, and Dr. Williams' Pink Pills are the greatest blood with production and to the production of the product and tortured with headaches, backaches and dizzy spells. I doctored for a long time, but was no better than when I began. Then I began to take Dr. Williams' Pink Pills, and take Dr. Williams' Pink Pills, and they completely restored my health." Get the genuine pills with the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper around each box. Sold by all medicine dealers or by mail at 50 cents a box or six hoxes. for \$2.50 from the Dr.

A SNAKE IN A PADDLE-BOX.

for \$2.50 from the Dr.

A Fifteen-Foot Constrictor Was Killed by the Crew of the "Angler."

New York, June 27.—Captain "Al" Foster, of the steamer Angler, brought to shore Tuesday atternoon a huge snake that when alive had caused some annoyance to the crew by winding itself about the paddle box. The skipper said he knew something was wrong with the machinery, but was loathe to stop to make an investigation. When the Angler got to 18th street and North River the crew was ordered to look around.

"When the paddle box was opened," Captain Foster said, "we saw a
big snake of the constrictor variety.
I called the crew and we attacked it
with hooks. It fought furiously, but
we finally killed it, and there it is?"
With this the skipper threw on the
floor fifteen feet of snake. It is supposed the reptile escaped from a collection being brought into port by
some unidentified steamer.

The crowning glory of a "high ball," "fiz" or "rickey"—is

We read of Spring, Summer, of tussore and mousseline de sole. One utumn and Winter medicines. As the Stomacn, Liver, Kidneys, etc., underwent a dangerous period of transformation every three months. These three moath periods are mere-ly a human arrangement for couvariations during the year. When you feel well, leave well alone; you you feel well, leave well alone; you are well. If you feel sick, or have been exposed to contagion, take the Veteran's Sure Cure. Dose—three to five drops only once a day; three days medicine cost one cent. Price. \$,00 or 50 cents sent anywhere. If you can find a better constitutional cure, take it. We feel sure there is none sold. The V. S. C. Medicine Co., Limited, Scane Block, Chatham, Ont W. K. Merri ill. Manager.

CURTAIL THE LORDS.

Premier's Resolution Carried in British Commons by 432 to 147.

London, April 27.—The three days' sebate in the House of Commons ended at midnight, when Premier Campbell-Bannerman's resolution in favor of curtailing the power of the House of Lords in vetoing bills passed by the House of Commons was carried by 432 to 147, amid loud Ministerial cheers.

The amendment introduced by A The amendment introduced by A. Henderson (Laborite), Durham, for a total abolition of the House of Lords was previously rejected by 315 to 100, the minority being composed of Laborites, Nationalists and a few Radi-

cais.

In this division the Unionists as a body abstained from voting.

The Premier, on leaving the House,

Ill wind that blows nobody good.

PATERSON'S COUGH DROPS THEY WILL CURE

FRILLS AND FURBELOWS.

Ribbon Belts and Collars - Flowered Chiffon Scarfs Four-in-hands.

Two or three sets of ribbon belts and

HANDSOME PONGEE GOWN-5649, 8528. blue may have a hair line stripe of

Grays are decidedly out of the vogue at the present moment. Four-in-hand ties are approaching the extreme of narrowness. The most recent arrivals from abroad are an inch and a half in width and are of delicate solid colors. This vogue of narrow cravats means oblivion to the wing the and a revival of the fold variety with front edges almost meet-

The vogue of the Japanese sleeve is still pronounced. The sleeve and the bodice are cut in one piece. The front is surplice edged with a broad band of oriental embroidery. It is filled in with a little vest, usually of velvet, and the collar and cuffs are of the same.

The fetching costume shown in the cut is of pongee in the natural color ith banding, combining that

shade with brown.

JUDIC CHOLLET.

BRIEF AND PRACTICAL

Vogue of the Wide Japanese Sleeve Soft Materials Preferred.

Short boleros and bodices in general have wide Japanese sleeves over un-dersleeves of lace. This fashionable sleeve was recently created by a French dressmaker for Signora Duse and the celabrated actress favors no other. The "manches a la Duse" have drooping shoulders and will remain

popular for a long time.

Materials are still of the softest decription. Thin cloth, voile, grenadi crepe de chine, mousseline de soie and the most supple of taffetas lend them selves to endless combinations.

Some delightful frocks were seen re cently at a social function.

GRADUATION GOWN-5256, 5099. and jacket. The tussore formed a wide band and fancy strappings upon the round the neck, completed at the waist with large cut steel buttons. The bodice had a Japanese cachet in the way the tussore was sewed upon the mousseline de sole. A yoke in cream point lace gave a delightful finish. This handsome dress looks as effective in fawn as in dul' gray.

The pretty graduation gown shown herewith is of Persian lawn trimmed simply with valenciennes lace. Voile and marquisette are also suitable if wool dresses are desired. desired.
