SHOULD BE CAREFUL.

During the past few days the people of Chatham have had dished out for them in the columns of our esteemed local contemporary, the Banner, a most contemptible and repulsive sample of journalism, which has by no means added to the prestige of that paper, and has, certainly, not had a tendency to elevate the fair reputation of the Canadian press.

The articles referred to were in reference to the private business affairs of the Chatham, Wallaceburg & Lake Erie Electric Railway Company. The first article was so clearly and completely a distortion of the facts and a misrepresentation of the true conditions, that, in justice to the company, and in the cause of fair play, an explanation should surely be forthcoming. The Banner has been looked to in vain for this explanation, and so far, they have failed to come out as they should have done, with a straightforward and manly retraction. The few, however, who have read, and believed, the article, should have it made clear to them that they have been misled by a silly dream.

Ever since this railway has been established in Chatham, the Banner has, apparently, assumed an antagonistic attitude towards it. For some unknown reason, it seems, they have undertaken to "fight the railway," and thereby endanger the interests of local investors and business men. It is hard to understand how a newspaper instead of booming its own town, and encouraging its new industries, can have the shortsightedness to take the stand which the Banner maintains in this instance.

The business arrangements now pending between the Council and the company in reference to the \$35,000 loan, and the fact that the company, having no more use for their steam construction engine, have disposed of it—receiving the amount they paid for it—were the grounds for a fearful and wonderful article in the Banner on Friday. In this article they took it upon themselves to say that it was "rumored"—most probably only in the Banner office—that the company "offered the Keystone Company all of their construction material, such as wheel barrows, shovels, pickaxes, etc., at a large discount of 50 per cent." They go on to "further understand" that the company will strengthen the bridge, get their loan, and "go no farther." The dreamer continues on to say that as the company has sold its steam engine, "they are through building themselves" and "will not build the extension to the lake." It then throws out the yellow insinuation that President Kipp "is in no hurry to get here" and "does not care if he never sees the city again."

The whole article is built upon the one fact—the company has sold its steam engine—the rest is the result of an overwrought and highly excited imagination.

Yes, the steam construction engine has been sold. Why? Because in building the extension to the lake, which the company undoubtedly intend to do, they will have no use for a steam engine. It was necessary to get that steam engine at first, because the company did not have the large electric power house which is theirs today. The construction cars on the Lake Erie extension will be run by electricity. When this is explained the Banner story falls to the ground and the dreamer wakes up.

This information could, and would have been supplied the Banner if they had taken the trouble to telephone General Manager Warburton. That gentleman assures the public that there is positively no truth in the article spoken of. He wrote a letter to this effect to the Banner-News, which they published, not on the front page, where the first article appeared, under a wild heading, but on one of the back pages. The letter is as follows:—

"Dear Sir:—In your issue of Friday, April 27th, an article appears that, in my opinion, is rather unjust to the company that I represent. "No official of the C. W. & L. E. has ever stated that the line would not be extended to Lake Erie, neither has this company offered for sale any of its material except that which we had no further use for. We sold

our steam locomotive because we have our own power for further construction and did not require it. There has never been any discussion by any official of this company affecting further extensions. The charter held by this company is a valuable one and the company are not likely to surrender it. We believe that the first portion of the loan is due the company, but there is no particular dispute between the company and the city.

"Chatham, April 28th, 1906."
The heading reads, "Says Article Was Unjust." There is no comment from the writer of the article, correcting his blunder, or explaining why he made it. Surely the Banner man would lose nothing by acting as any gentleman would under the circumstances. An article to the same effect as the one above referred to appeared in the London Free Press. Surely it is unwise to send out of town such untruthful despatches.

Even if the Banner is pressed for stuff with which to fill its reading columns, it should be very careful in selecting its subject before it resorts to the manufacturing business. There are some matters which, if unwittingly tampered with, invariably result in harm to everyone concerned.

BARGAINS IN MEDICINE.

A woman once wrote us that she was not going to buy Scott's Emulsion any more because it cost too much. Said she could get some other emulsion for less money. Penny wise and pound foolish. Scott's Emulsion costs more because it is worth more—costs more to make. We could make Scott's Emulsion cost less by using less oil. Could take less care in making it, too. If we did, however, Scott's Emulsion wouldn't be the standard preparation of cod liver oil as it is today.

Paris Police Make Sensational Search of Royalists' Houses.

Paris, April 28.—The widespread labor agitation took a dramatic turn today when the police executed a series of wholesale searches, designed to unmask an extensive plot against public security. The searches included the offices of branches of the labor federation and the homes of labor leaders, prominent royal interests, Bonapartists and Anarchists.

The suspects among the Royalists and Bonapartists include the heads of several aristocratic families, while the laborists who were subjected to search include the conspicuous heads of the movement planned for May 1. The searches were operated simultaneously early in the morning. There is official authority for the statement that documents were recovered which proved that royalists and Bonapartists had intrigued with the labor leaders, and liberally financed the revolutionary and strike movements. The searches caused a sensation in labor and royalist circles.

A Hint For Health.

We're enthusiastic about Bu-Ju because it does help. People give verbal evidence every day. It isn't the talking that convinces—but the earnestness—and the cheery smiles of gratitude, which say more than any words. You can't help smiling when you get rid of pain and feel perfectly right. Health smiles—gratitude prompts it. If you must have something to right the kidneys, use Bu-Ju. But we hope you don't require it. You certainly shouldn't after giving Bu-Ju the trial we ask. Samples free. Get some. W. W. TURNER, Druggist. You can't muzzle a microbe.

'WAY DOWN EAST.

Manager Wm. A. Brady's press representative has coined the phrase "The play that never grows old," which he makes free to use anent "Way Down East."

The play is one that appeals not to a limited class, but to everybody with a spark of sympathy, a liking for an interesting story and a relish for good wholesome fun. There are many reasons for its popularity, its pathetic theme, its genial humor, its charming pictures of country life, its quaint characters and striking realism. But its more potent element undoubtedly is the strong human interest that permeates every scene. To this all classes and creeds must yield their sympathy. Mrs. Parker's work, so admirably produced under the skillful direction of Mr. Joseph Griemer will be interpreted

by a cast that has been especially selected for its individual capability. The celebrated rural play has already seen several seasons, and that length of time in things theatrical, brings a play to old age. But "Way Down East" has not even thought of outliving its usefulness. Three companies representing the play are booked solid for three years to come. Undoubtedly the majority of theatregoers have seen the play, but there is a certain fascination that brings them to the theatre for a second and even third visit.

Then again the local manager will tell you that "Way Down East" brings people to the theatre who will not be seen at any other play during the entire season. Manager Brady has wisely kept his companies and productions up to their original excellence of standing, and so long as he continues along the same lines, "Way Down East" will remain the mainstay of his growing bank account.

"Way Down East" plays at the Grand on Wednesday, May 2nd.

BOOKS AND MAGAZINES

The May number of Success opens with "The Genius of George Washington," by Arthur Warren, which is "the first of a series of intimate sketches of men who were not made by influence and money power."

"Fighting the Telephone Trust" is continued. "The Plays of the Season," which is profusely illustrated, will be enjoyed by theatre-goers. This number also contains many stories and poems, which, with the various departments, are all up to the usual high standard which marks this magazine.

The principal articles in the May Cosmopolitan are "The Treaties of the Senate," by David Graham Phillips, "Frozen Nightmares," "On the Trail of the Intangible," "In the Days of the Court," "Racial Traits in American Beauty," "Our Pampered Actors and their Condescension," "Polo Made Plain." These, with shorter stories and papers by such well known writers as W. W. Jacobs, Jno. Burroughs and Jerome K. Jerome, complete a magazine that is interesting from the first to the last page.

The April number of the National Monthly and Canadian Home, which is now on sale, gives a bright little sketch of Japanese women. Current Events, at Home and Abroad touches on the leading topics of the day. Some changes have been made in the magazine which will all be commended by its readers as improvements.

Tom Watson's Magazine for May is now on the news stands. Mr. Watson in an editorial reviews Upton Sinclair's book, "The Jungle," and incidentally gives socialism some hard rap. "A Solution of the Railway Problem," "Common Sense," "Overcapitalization of Railroads," "Life Insurance and Buckshot Gambling" make up the special articles. Price 15 cents at all news stands.

The Metropolitan Magazine for May is a special fiction number, most of which is contributed by Canadians, who are as follows: Arthur Stringer, who is so well known in this country; Arthur Heming, Rex B. Beach, W. A. Fraser and Lloyd Roberts; who is the poet son of Charles G. D. Roberts, the well known Canadian poet.

These names alone will ensure a ready sale for this popular magazine through Canada, although there are many other contributors who are as great favorites as those whose names have been mentioned. For sale at all news stands, price 15 cents.

Keith's Magazine on Home Building for May is most attractive. This number contains designs for cot-

tages that are specially suitable for summer residences.

Interior decorations and furnishing receive special attention; this department being conducted by Eleanor Alcorn Cummins. Keith's Magazine should find a place in every home. Subscription price is \$1.50 a year.

Ulcer of the Stomach

Insidious Nature of the Disease—How to Recognize and Cure It.

Ulcer of the stomach may exist for years without very marked symptoms, excepting those caused by indigestion.

In good health, the stomach resists the action of the gastric juices, but when weakened, the membrane is badly nourished, and the digestive fluids act upon it as well as upon the food, keeping up until perforation of the stomach occurs. In advanced cases of ulcer of the stomach there is much discomfort after eating, with a constant gnawing sensation between meals, pain from the pit of the stomach back to the shoulder blade.

At the first symptoms of indigestion, treatment should at once be started with Mi-on. This is a scientific remedy adapted specifically to one purpose, the cure of stomach troubles.

Mi-on is not a patent or secret remedy, but is a combination of the purest and most reliable of remedies for strengthening the digestive organs and building up the whole system. It costs but 50c a box. Use it for a few days and there is no reason why you should not be able to eat any food you like at any time without fear or distress.

If you cannot obtain Mi-on of your druggist, it will be sent by mail, post-paid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

Mrs. Charles Williams has returned home after a few days visit in Northville, Mich.

The last meeting of the Polemic Club was held on Friday evening.

A RIGHT WAY and A WRONG WAY

Many people have many ways to bring about the same result. Most of them are mistaken ways, but this is not known until the test of time points plainly to the error. Practically there are but two ways to accomplish anything a right way and a wrong way. Take, for instance, a man with a bad back, there are lots of them, and of various kinds, some with stitches and twinges, others with cricks and aches; then there's the dull, heavy continuous kind that lasts all day and doesn't sleep at night. They're all bad enough, they're all hard enough to get rid of. Some people rub the back with liniment, others cover it with plaster, either or both means often bring relief, but the pain comes back—it's the wrong way to cure the trouble.

DOAN'S KIDNEY PILLS

have a way to cure backache, a way that's all their own—the right way. They're made for the kidneys only. When the kidneys fail in their work of filtering the blood the back aches because they are situated in the small of the back; backache is the kidney's warning of trouble, and every day you let the warning go it brings you nearer to urinary disorders, Diabetes, Bright's Disease, etc.

Doan's Kidney Pills cure every form of kidney ills and that's why they bring such quick relief from backache. Mr. Fred Gray, Good Corner, N.B., writes: "I was greatly troubled with pain across my back. I procured a box of Doan's Kidney Pills, and received so much benefit from them that I consider them the best remedy for kidney trouble there is. I would not be without them in my house."

Price 50 cents per box or three boxes for \$1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.
