People from up river report that great interest is centred in the approaching political battle in this County. The local situation overshadows the general one.

Some idea of the care and attention given to the packing of "VIM TEA" may be obtained when it is stated that no blend of this Tea is permitted to go through the packing machines, till it has first been tested by the firm's Tea Experts, grade for grade with Tea of the same quality and grade running back six months.

All creeds and classes in Chatham—and indeed, on the Miramichi—join in regretting that we are to lose one of our most respected clergymen and best citizens in the person of Rev. H. I. Joyner, who has, for about twenty years, been one of the Cathedral staff and acting rector of the parish. He goes about the 19th instant to take pastoral charge at Grand Falls. He will be greatly missed in many ways.—Advance.

The residents of Pt. La Gade would like to know something about a mysterious personage who lately came to their neighborhood. He has rapidly avoided divulging his name, but on one or two occasions has informed the eager interrogator that he is a detective. He has brass buttons all over him and makes his abode in a little hut on the outskirts of the forest primeval. A visitor to his premises says that he has a cellar dug the full size of his hut.—Events

Mr. James Patrick King, of Sussex, and Miss Susan Whittaker Nicol, were married in St. Luke's church, Chatham, Tuesday afternoon before a large audience. Rev. Jas. Stothard performed the ceremony. The bride was attended by her sister Miss Mamie Nicol, and Mr. Wm. King supported the groom. Mr. King was formerly a clerk for the Snowball Company but recently received an appointment to the office of the New York Life Insurance Company at Winnipeg. The bride and groom left for Winnipeg on the Ocean Limited after the ceremony.

The Harvest Thanksgiving services were held in St. Andrew's church last Sunday morning and evening. The beautiful interior of the church was decorated with the appropriate ornaments provided by nature at this season of the year, and a visitor to the church said that the decorations were the most beautiful she had seen. Those who had charge of the adorning of the church are indebted to Messrs. E. P. Williston, J. C. Kethro, Stanley W. Miller and Mrs. Armstrong for a supply of vegetables and fruits. The choir, assisted by Mr. J. P. Burchill deserve great credit for the splendid and hearty rendition of the musical part of the service. Large congregations were present morning and evening. Services appropriate to the occasion were preached by the rector.

Chatham still holds the Maritime record. The best time made by Plocheon W. on the Sussex track last week was 2:15. It is the opinion of horsemen that the Chatham mark will hold for some time.

In the course of an article on the Chatham exhibition the Advance very appropriately observes—"Secretary Fisher has great capacity for work and does an enormous amount of it. He should, however, not do so much entry making and other writing in the books, for that can be done quite well enough by men whose time is less valuable. More of his attention should be devoted to organizing, superintending and seeing that the many little things, which constantly come up as a big show progresses, are attended to promptly by persons assigned to such duties.

Election is all the talk just now. The liberals are in power now and the conservatives were a few years ago. This is not only the case with the liberals and conservatives, but in business. A few years ago some one else may have sold better clothing than us, but today our business platform is stronger than ever it was. It is based on the following: First—the best goods, that years of experience has taught us to buy; Second—good workmanship; Third—we don't believe in free trade, we believe every man should pay for what he gets and sorry every man don't think the same. Our men's and boys' suits and overcoats are the best on the market today.

A short time ago little Evelyn Williamson daughter of Mr. John Williamson was hit over the eye by a stone while playing in the recreation ground at the Harkins Academy. The missile is believed to have been thrown by a boy with the intention of hitting another boy. The wound inflicted by the stone was a serious one and Evelyn Williamson was confined to the house over two weeks. There is rather too much of this stone throwing by boys. It has got to be an intolerable nuisance and besides is a menace to public safety. Parents and teachers should charge children against it.
