GAGETOWN, JULY 2TH, 1897 E. G. Scovil, Agent Pelee Wine Co., Dear Sir:-My wife has been afficted Dear Sir:—My wife has been afficted with nervous prostration for several years, using every kind of medicine recommended, but obtaining no relief until I procured some of your Pelee Wine, which I am delighted to say, has had the desired effect. It is the greatest tonic of the age, I think too much cannot be said in its praise and no house should be without it. We have recommended it to several suffering from la grippe debility, with like good results.

I am, yours gratefully, JOHN C. CLOWS.

E. G. SCOVIL, Tea and Wine Merchant, 62 Union St., St. John, sole agent for Maritime Provinces. Telephone 523.

In a Burning Mine.

Poteau, I. T., Dec. 13.—An explosion in the Indianaola and Hiawatha mine, three miles from here, at a late hour last night, caused the death of at least five men. Twenty-five others are imprisoned men. Twenty-five others are imprisoned feared that few of them can be rescued. The disaster was caused by an explo-sion of gas following a blast.

Queer Divorce Laws

Although it is, happily, not possible in every country to dissolve the marriage tie because a husband has an aversion to active than her fingers, there is a ludicrous facility in many lands for getting

rid of an undesirable wife or husband. In Greece, a wife to maintain her position, must be the very "pink of propriety;" and if she goes to theatre or race used serum on 1,000 animals this year meeting, or even dines with a friend, without her husbands's sanction, he may send her back to her mother and bid her stay there.

appeared likely to add too many quivers er herds not treated 85 per cent died." to his bow; and in Russia, if husband and bureau of animal industry, and attracts wife wishes to part for any reason what- new attention to its noted chief, who ever, all they need do was to adjourn to was born in Morris county, N. J., July some public place, and in the presence of 28, 1850. He entered Cornell university some public place, and in the presence of onlookers tear a strip of muslin in two.

In Morocco it is not fashionable to be attached too long to any particular wife,

and a man's social position may be gaug- famous Alfort Veterinary school. ed by the number of wives he has divorced. It is quite common for a man to of \$10,000 for the investigation of anied. It is quite common for a man to have married and parted from a score of wives before he has reached the age at Salmon, who was called from the posi-

prudent to marry. In France, during the "time of terror,"
the daring experiment was tried of allowmonia, and Dr. Salmon was appointed ing divorces at will and without any assigned cause. The results were disastory to Professor Law. Here he did excellent will be sold at prices lower than former years—while the quality has been kept up to the regular standard—goods being made from pure wool; also new and atmacked to part in Paris alone and within a permanenttractive patterns added. I would ask reed to part in Paris alone, and within a

It is interesting to speculate how many so-called happy unions would be dissolved in England if such a sweeping change were introduced into our laws. The advantage of the system was that a man might remarry his wife if a penitent mood supervened; and the result was that many couples were married and divorced sever-

In Japan, if an oblique-eyed beauty she goes," to learn that a discreet retience is a virtue in a wife.

In Germany if the wife uses her husband purse too freely he can keep the purse to himself, and bid her go, while he looks out for a fraulein of simpler tastes. In Australia a man can divorce a wife who is too fond of her cups, or rather glasses; and no Chinaman is called upon

to tolerate a shrew.

process of telling her so.

in some countries almost as simple a matter as unitying a shoe lace.

From the oldest times divorce has been

In Bibical history, too, we learn that Abraham divorced a Hagar by providing her bread and a bottle of water and sending her away.

HOG CHOLERA REMEDY.

After experiments extending over a period of 20 years and the expenditure of Farming in the many thousands of dollars the United States government is at last combating

successfully those most pernicious diseases, hog cholera and swine plague. The results obtained by the bureau of animal industry of the agricultural de-partment, especially during the last year, have been highly satisfactory, and the scientists who have devoted so much time and labor to the work feel amply repaid for their efforts.

The discovery of a serum which renders hogs immune from the ravages of cholera and plague is an important one. It means a great deal to one of the foremost American industries, and the benefits arising from it are almost incalculable. The propagation of the serum requires the use of many animals. At the experiment station, where it is made, there are donkeys, cows, calves, mules and horses, all patiently submit-

pear, not a single hog is used in making the antitoxin fluid which is such a blessing to his family. Hogs have not been found well adapted to the purpose for which the government uses the other animals. Donkeys are the favorites with

miles from Washington, is a unique in-stitution. On the well kept farm there are dozens of horses and mules that are strangers to the plow and harnes There are cows whose days for giving milk are over, and whose lives, in the soap or because a wife has a tongue more eyes of the scientist, are devoted to higher objects. The farm is presided over by Dr. Ernest C. Schroeder, a man who, although still young, has made a name in the scientific world.

Dr. D. E. Salmon, chief of the bureau and have saved over 80 per cent of herds treated. While the treatment was going on observations were made of 1,100 hogs in other herds not treated for the lack of serum, and 80 per cent died. Time was, and not long ago, in Crete, when a man might divorce his wife if she
