ST. PIERRE BULLETIN.

PARIS, via St. Pierre, Feb. 12. Between the sea and the Somme ar titlery contests. South of Boiselle the enemy exploded a mine at the extremity of one of our trenches, but we held on. Bombardment by the enemy of Tracy le Mont, and our artillery busy in Rheims and Soissons sections. In Woevre rather sharp cannonading opposite Lambuscourt and Hazelle Wood. We bombarded Thiancourt and Arnville.

During an attack on Feb. 3rd, delivered by the Turkish army against the Suez Canal, two French ships contributed successfully in the defence o the Canal. The coastguard cutter Requin silenced the Turkish heavy guns, and the cruiser Entrecasteaux dispersed an important Turkish grouping. These ships were unscathed, and suffered no loss what-

and are completely broken, and the osses inflicted by the Russians on the enemy are 40,000. North of Pominor engagements. In the centre the situation is quiet for the present. The Germans had considerable losses in their attacks at Borzynow, Gymin, Wola, and Sydlowske.

In the Carpathian Mountains the Russians are strongly compressing the enemy in the Dukla, Lupkowet several thousand prisoners. In one day the Russians captured 89 officers. 5,220 men and 18 maxims. On the 7th the Germans crossed Tucholka Pass and delivered twenty-two attacks to take the Russian positions on Koziowa heights. An irresistable German advance in closely packed formation managed to reach the heights twice, but they were thrown back each time by a bayonet charge without precedent. On the front of one battalion, one thousand Germans were killed. On the 10th they renewed an attack, but were repulsed, and the Russians, pushing forward, took

NO ADVANCE YET POSSIBLE.

LONDON, Feb. 12.

The military correspondent of the London Times, in a survey of the conditions, says that there is little likelihood of any important advance movement by either side on the wes-Under the present conditions of weather and ground he argues that suc cessful offensive is next to impossible. The district in which the British army is operating is practically a swamp, he declares. Breastworks have been constructed by both armies on the top of the ground to meet the lifficulties of holding the flooded and other arrangements complete the positions. In the rear, masses of guns of all calibres are so well conelephones to all advanced trenches During all the months that the British have occupied this district only three direct hits have been made by Jerman shells upon British guns. An attack therefore has to deal with an intact artillery which knows every range to an inch. As for the flying corps, despite the weather it has nissed only six days in the air since August. Not easily can any hostile strategical surprise escape the notice of these armies.

Striking Letters Demonstrating the Value of OXO CUBES

in which he says :-

satisfaction we got for our efforts.

From a member of the London Scottish with the British Expeditionary Force.

And so after all these horrors here I am living in a cow byre some way away from the firing line to recuperate. Like manna, however, your glorious box has arrived, coffee and milk, butter, OXO - oh joy! Never was seen a more glorious box, and all my cow byre is interested in it. We start to-night on our feast, and I am to thank you both from all my section for being so generous.

Reprinted from the London "Globe," December 12th, 1914.

Follow the example of the men at the front, who have proved in emergencies that OXO CUBES give warmth and nourishment quickly and effectively. OXO CUBES build up strength to resist cold and disease; they increase nutrition; they remove fatigue. Added to stews and hashes they make food more nourishing and save expenditure on meat; they are handy for sleigh journeys and outdoor sports-with hot water they make a quick hot meal in a moment; in fact, they exactly meet the needs of all classes.
