

Whooping Cough.

Mr. Robert Wilks, 9374-103rd Ave., Edmonton, Alta., writes:— "I really believe we would have lost our two-year-old baby with whooping cough had it not been for Dr. Chase's Linseed and Turpentine. He would cough and cough until he would fall back in my arms white as death. We had a doctor for him, but his medicine did not do him any good. We ine and to our surprise it did wonders for him. After the second dose there was a difference in his condition, and we kept giving it to him until he was entirely well."

the relatives and a few intimate

friends were entertained at the home

of Mrs. Mundy, mother of the bride-

groom, where a delightfully informal

buffet luncheon was served, the maid

of honor pouring tea, and the Misses

Mundy serving the guests.—Toronto

Copper Prices

Advancing.

During the Great War from 1914 to 1919 Copper advanced in price to a figure never reached before in the history of metals, and at one time during the flerce battles of 1916-17 it became more valuable to the Germans than gold. At the ending of hostilities in 1919 prices in copper began to decline rapidly until last year at one time it reached the rock bottom figure of eleven cents. During the summer AFIT AND JEFF and autumn of the year just past an upward tendency in prices became apparent with a slow steady increase until the beginning of the New Year. so that to-day the future outlook in copper is not only promising but most assuring. The best English authorities on this subject predict an assured price of from 181/2 to 19 cents, and possibly 20 cents before the close of 1922, and with the reconstruction of the war-stricken countries of Europe, which is now at hand, copper will at tain a price equal to, if not greater, than that which prevailed during the Great War. Many of the mines of the Western States which have been idle for a year or more, are again assum ing their usual activities.
