Y., Aug. 24.—Sheriff Harrison Benson, who for some time had charge of Lizzie Halliday, the triple murderess, is suffering severe pain from a swollen hand, the result of a bite from that notorious prisoner. The teeth penetrated the glove and caused a slight abrasion of the skin, but nothing was thought of it at the time. Three or four weeks ago the scratch began to itch and burn. A few nights ago the sheriff was awakened by a severe pain in the injured member. Since then he has suffered acutely, and now the swelling is extending toward the elbow. Should the arm continue to swell it is thought it will have to be amputated.
