SHIPWRECK AND LOSS OF LIFE. SAN FRANCISCO, Nov. 27 .- The British iron bark Coya, of Liverpool, laden with coal from Sydney, was approaching this port under every sail, the captain supposing himself near the Farallones, the weather having been thick the two previous days, when she struck at 7 o'clock, on Pigeon Point, sixty miles south of this point. Walter Cooper, one of the three saved, arrived in this city last night. He describes the scene after she struck as terrible in the the scene after she struck as terrible in the extreme. An attempt was made to launch the long boat, but she was justantly swamped by the waves which were constantly breaking over her. The captain and officers did all in their power to save the passengers, but all to no purpose. No boat could live in such a sea. It was evident to all on board that the only hope of being saved was in clinging to pieces of the wreck as the ship dashed to pieces on the rocks Cooper had on only his undershirt, drawers and cravat, when he reached shore, and the 20th of October. others were equally as scantily clothed. They were nearly benumbed with cold, and great difficulty. In order to protect them-selves from the cold they dug a hole in the sand, and the three survivors crawled into it, covering themselves over with bushes, where they remained until morning, when they found their whereabouts a mile from the wreck. "M. and Madame S——, residing in the Rue du Faubourg Saint Honoré, engaged as governess for two young daughters, an orphan girl, Lucy B, a native of Liverpool. She was well acquainted with the gaging manners, she was greatly respected and beloved by M. and Madame Sant, for the defendant. Judgment for plain-tiff. When they went to their country seat, in the beginning of the summer, she went with them. There she became quite melancholy, and though every means were employed to divert her, she continued in this state and refused to give any reason for it. At length she attempted to commit suicide with the fumes of charcoal, but she was discovered in time to prevent the completion of her design. A physician was called in who directed that she should be carefully watched. This was done, but one day Lucy B suddenly disappeared, and no one was able to tell where she had gone. Fitteen days passed from the period of her disappearance. At the end of that time a disagreeable smell was noticed in the house, and it was traced to a room which was merely used as a lumber room, and was scarcely ever entered. A large chest resting on a box containing books was found ammunition and engines have been removed, and hopes are entertained of releasing her comparatively uninjured.
