The World is the most extensively circulated and widely read newspaper published in Canada. It knows no party or personal allegiance in treating public measures.

The World aims to have the largest circulation by deserving it, and claims that it is unsurpassed in all the essentials of a metropolitan newspaper.

The World is offered at a price which places it within the reach of all: $3 per annum; $1 for four months; 25 cts. for one month.

REMOVE THE SHACKLES.

Our commercial freedom in Canada is by this time pretty firmly established, as witness our National Policy and the increase not long since in the duty on iron; but it seems that we have not yet been quite able to cut loose from the restrictions placed upon us in our infancy. During this latter period the affairs of state were under the care of the so-called Manchester school, and from time to time insane acts of folly on their part came to light.

General Laurie has just drawn attention to a matter in the House of Commons which infringes on our commercial independence, and must be dealt with for that reason, if for none other.

Away back in 1862 and 1865, treaties of commerce were entered into by Great Britain with Belgium and Germany, and, goodness only knows why, a clause was inserted in treaties which specifically precludes, not only Great Britain, but her colonies and dependencies as well, from breaking each others' commerce preferentially. Now this in plain English means, that if we wanted to make arrangements with Jamaica or Demerara to discriminate in favor of their sugar, molasses, etc., in return for which they would give a preference in their markets to our lumber and manufactures, these treaties, in the making of which we had not a word to say, stand in our road. We might any day want to make similar arrangements with Australia, but would be precluded from doing so.

When England enters into any treaties now-a-days she leaves it to the colonies to say whether they wish to come in or no; but we were not considered worth consulting in these days of old!

These treaties with Belgium and Germany must be amended. They are terminable on twelve months' notice, and when the promised correspondence is brought down in the House we hope that Canada will demand that these shackles be removed. More power to General Laurie!

It is not often we hear of sarcasm in a prayer, but an Ohio college professor, prior to lecture by Max O'Rell, prayed "that the Lord would so prepare their minds that they could appreciate Mr. O'Rell's subtle witticisms." That is equal to anything Max himself ever said.

The judge who tried the anarchists in Chicago and sentenced them to death has de[illegible] not [illegible] to call a man an anarchist. He holds that to be an anarchist is merely a state of the mind, for which a man cannot be punished if he commits no overt act. It is therefore no scandal to be an anarchist.

Evidently Mr. Clancy does not feel any alarm. He is in the confidence of Mr. Meredith. He knows the whole program of the party. He does not believe the separate schools will suffer any harm at Mr. Meredith's hands.—London Advertiser.

Why should they suffer harm? So long as they are guaranteed by the British North America Act they must remain and Mr. Meredith can be depended on to do no wanton harm to anyone. Proper regulation is not harmful.

The Hackmen's Union of Ottawa have formally endorsed the candidature of Mr. C. H. Mackintosh for the Commons. The chances are that every idiot in the country who does not say they have wheeled into line will remark that they will drive him on to victory.

ROSS'S RESIGNATION.

No reason is given for the resignation of Provincial Treasurer Ross. The Premier refuses to speak, and the organ of the Government merely speaks of the resignation in general terms as though it were an everyday occurrence. The World can hazard a guess that is not altogether a guess, that the resignation is not the voluntary act of the Treasurer, or that if it is so, it is because he sees the trend of events and endeavors to forestall a call for his resignation. It is no secret that he is not popular in the riding of West Huron, and that, though it is in the ordinary course of events to be depended on for a large Reform majority, it is exceedingly doubtful if Mr. Ross could carry it, even though he should succeed in gaining the nomination, and that also is problematical. Now, it is exceedingly probable that the Premier has been made fully aware of this state of feeling, and that it has been on a hint from him that the resignation has taken place. This will be found to be not far from the truth.

It would probably make no appreciable difference in the commerce of Toronto if the Salvation Army lassies were driven from selling The War Cry on the streets, but it would considerably curtail the scanty income of the girls. Why should anybody seek to interfere with them or tag them?

A Sunday observance law is so strictly enforced that a man cannot purchase a cigar on that day. This has led an enterprising dealer to place in front of his store a nickel-in-the-slot machine to furnish cigars. This cannot be stopped without a breach of the law—that is, by smashing the machine.

Bakers announce that the price of bread has been increased in Ottawa because of the additional taxation of twenty-five cents per barrel just imposed upon flour by the Dominion Government.—Ottawa Free Press.

Granting, for the sake of argument, that, which is not the fact, the consumer pays the duty in every case, the recent increase in the duty on flour would amount to about 75 cents a year for a family of five.

The American colony at Montreal will shortly disappear in all probability. A favorable district attorney is fast having the indictments against the boodlers quashed. This is literally having a friend at court.

An exchange, speaking of the water the people of a neighboring city are compelled to drink, says: "No fish could live in such water, and yet people are compelled to drink it." Many people drink many fluids that fish could not live in, and they are not compelled to do so either.

Mr. Fresh Blush Kelso should turn his attention to the telephone girls. Why should they not wear a tag?

The Newcastle (Eng.) Chronicle refers to the Newfoundland sealing vessels as "a Canadian fleet." This is premature, to put it mildly.

TRESPASSERS ON RAILWAYS.

The World yesterday had a conversation with Mr. Edmund Wragge, local manager of the Grand Trunk Railway, Toronto, in regard to the recent arrest of persons found trespassing on the tracks of the company.

Mr. Wragge said he was surprised to hear that the constables entrusted with this duty had been resorting to handcuffs in cases where this was unnecessary, and said he would see that in future no one would be arrested who would give his name and agree to accept a summons.

"The number of people killed by railways in Canada in the year 1887," said Mr. Wragge, "was in the neighborhood of 90, and of these over 80 met their death through walking on the track. So many people have thus met their end by this kind of trespass, and the jurors in court have shown such a tendency to hold the railways responsible, that the companies are in self-defence bound to warn people off their tracks, and as a still further check to have them arrested if they refuse to abandon the practice."

The railway companies therefore have a perfect right to enforce the law and in self-interest are bound to do so, though there is no reason why the constables charged with this duty should go about it in the rough-shod manner that characterised the recent arrests at the Humber.

Jottings About Town.

Rev. Professor Clark will speak at St. Bartholomew's Church, River-street, on labor troubles.

The charges of intimidation against John Morrison and J. J. Spence, two moulders, were dismissed yesterday.

A number of persons charged with larceny were yesterday relegated to the adjudication of a jury at the next sessions.

CLOSE OF THE JUCH FESTIVAL.

Der Freischuetz and Carmen Crowned the Opera Queen—Now for Sol Smith Russell and Other Lights.

The sensitive and poetic mind of Karl von Weber found congenial material in the fanciful legendary and supernatural incidents presented in "Der Freischuetz," and the ever-fresh and beautiful melodies of that elevated and refined opera should have attracted a larger audience than that which assembled in the Grand yesterday afternoon. But, alas! perhaps it is in Toronto as in Gotham: society does not go to the opera to hear music. The performance was worthy of the opera. Georgine von Januschowsky, in that finely-drawn and beautiful piece of musical portraiture called in the bill of the play Agnes, displayed dramatic ability, allied with artistic skill and natural powers, of a high order. Miss Leonhardt as Annie, Hedmondt and Vetta as Rudolph and Caspar, fairly shared with her the honors. The weird scene in the wolf's glen was as bold and startling in its scenic as in its musical coloring.

The Emma Juch festival came to an end last night, when a vast audience greeted the presentation of "Carmen." Never did Emma Juch appear to better advantage and never in this city did she score a greater triumph. Nor can less be said of her chief support. Edward Scovel, Georgine von Januschowsky and Tagliapietra. At the end of every act a recall was insisted upon and at the close the enthusiastic audience brought Emma Juch and Scovel five times to the front. The students were present in full force and supplied the usual impromptu program between the acts.

Sol Smith Russell's Advent.

Fresh from his triumphs at Daly's Theatre in New York city, Sol Smith Russell, who has reached first place as a comedian, will play at the Grand Opera House, commencing to-night, producing his greatest success, "A Poor Relation." Little need be said in praise of Mr. Russell; his talents and magnetic powers on all theatre-goers are well known and appreciated, as is shown by the large and fashionable audiences that greet him on his annual visits to this city. "A Poor Relation" is a capital comedy and will be produced here with the entire cast as used by Mr. Russell during his recent successful run at Daly's Theatre in New York. Sale of seats is now open and going briskly.

To-morrow evening is Manager Sheppard's benefit.

Change of Bill at the Academy.

To-night at the Academy of Music the Hyers' Colored Comedy Company will present the "Blackville Twins," dramatised specially for this company by Scott Marble. The caricatures were in Harper's Magazine some time ago and were gotten up by Sol Etings. The company play this comedy for the rest of the week, with Saturday matinee.

The Emigrant.

The popular German comedian, Pete F. Baker, will be seen here next week at Jacobs & Sparrow's, in his new play, "The Emigrant," and the old favorite, "Chris and Lena." Baker is well remembered here as one of the most popular of dialect comedians. He is a genuine artist, whose work pleases all classes. "The Emigrant" is a rollicking German musical comedy of merit, rich in laughable situations, strong and startling scenes and a quantity of singing and dancing. Baker assumes the role of a Dutch emigrant with an unpronounceable name, and his excellent voice is heard to good advantage in such songs as "The Teasing Child," "Toboganing," "Sweet Christina," "Swim the Golden River," medleys, etc. Prominent in the company is Little Irene, a very remarkable child actor, who sings and dances her way into the hearts of the audience.

Notes.

Queen "Esther" must be a favorite with the west-enders. Two performances have been given and been well patronised, and now comes the announcement that two more are to be given on Thursday and Friday evenings in Murray Hall, corner Northcote and Queen-streets. The soloists are really good, the chorus is well selected and well trained, while the costumes have been specially made for these two performances.

The Academy offers a strong attraction in the American tragedian, Louis James. "Othello" will be presented on Monday night for Manager Greene's benefit. The orchestra will be increased to 14 and will give some fine selections. A number of other special attractions are promised. The sale of seats opens this morning at 9 o'clock and tickets can be secured for any one of the eight performances.

The box plan for the Choral Society's concert will be open at Nordheimers' this morning. Checks for choice of seats will be issued at the door in order of arrival.

The Toronto Vocal Society concert to-night at the Pavilion promises to be one of the most enjoyable concerts of the season. A very fine program has been prepared. Mrs. Caldwell, Mrs. J. F. Maurice Macfarlane and Mr. J. Churchill Arlidge are the soloists.

Books for Toronto University.

The loss of the collection of books which supplied the intellectdal wants of the students of Toronto is not to be irreparable. Canada cannot be expected, even if she were to ransack her best book shops, to replace the accumulatted treasurers of so many years, in science, art, literature, history, philosophy, archæology and theology. She must come to Europe for a fresh supply, and we are glad to be able to announce that a strong Restoration Committee has been formed, with the object of helping to put upon the shelves of the new university a library as valuable and extensive as that which has been lost. We have been asked to take charge of gifts of books which may be sent by readers who have a superfluity of their own. This we shall undertake to do, with the utmost pleasure; and they will be sent to their destination free of charge, owing to the kindness of the steamboat and railway companies. SOME UNIVERSITY ITEMS.

A Grist of Candidates for the Coming Examinations—More Donations.

The university examinations are coming on apace, and on Friday, May 2, the arts and legal men will commence their annual tussle with knotty questions, mathematical problems, etc. It is at this season of the year that the hitherto festive student retires to the quiet of his room, sits up all night, wastes the landlady's kerosene and reduces the size of his head by skilfully applied cold water cloths.

This year no less than 525 candidates will take the examination in arts, and of these there are 97 in the fourth year, 103 in the third, 144 in the second and 181 in the first. About 25 will take the examinations in law, and 31 will compete for first class "A" and "B" certificates.

The examinations in connection with the School of Science closed yesterday but it will be some weeks yet before the results are made known.

Sir Daniel Wilson has received a letter from G. B. Longstaff, England, who visited Toronto as a member of the British Association in 1885. He was so well pleased with the university that he has forwarded a number of books for the library and £25 sterling.

Prof. Baldwin has received a valuable set of philosophical works from Prof. Croom Robertson of University College, London, England. The lot includes all the numbers of the "Periodical Mind," which have been placed in the library.

TORONTO SCIENCE SCHOOL.

The New Order in Council—Appointment of Lecturer and Demonstrator—Two Distinguished Canadians.

An Order in Council has been passed appointing Mr. C. H. C. Wright of Boston, Mass., lecturer in architecture and Mr. T. R. Rosebrugh, B.A., of Paterson, New Jersey, demonstrator in engineering laboratory. These gentlemen are both Canadians and are distinguished graduates of the Ontario School of Practical Science.

Mr. Wright after graduating chose the profession of architecture and has been pursuing his studies under the direction of Professor Chandler, the head of the Department of Architecture in the Massachusetts Institute of Technology, from whom he has received a very satisfactory testimonial as to his qualifications for his present appointment. He has also been engaged for more than a year on the construction of the new Boston public library, which will be when finished one of the finest public buildings in America. He will probably remain on this work until he enters on his new duties next autumn.

Mr. Rosebrugh is an honor graduate in the Department of Physics of the university of Toronto. He obtained honors in mathematics and physics throughout his University course. After taking the degree of B.A. he entered the Engineering Department of the School of Practical Science and graduated a year ago, taking a very high stand. Mr. Rosebrugh has since been employed in the manufacturing establishment of Leslie Brothers, Paterson, New Jersey, gaining a practical knowledge of mechanical engineering. He has devoted special attention to the study of electricity. His duties will be to give a portion of the instruction in mechanical engineering and to take general charge of the testing machines, experimental engine, and other apparatus with which it is the intention of the Government to equip the school before the beginning of next session.

If the past record, both academical and practical, of these gentlemen may be taken as index of their future success, their appointment will contribute very materially to the strength of the school.

Next October the new building will be ready for occupation and the following departments will be in full operation:

1. Civil Engineering (including mining engineering).
2. Mechanical Engineering (including electrical engineering).
3. Architecture.
4. Analytical and Applied Chemistry.
5. Assaying and Mining Geology.

The staff will consist of:

J. Galbraith, M.A., Assoc. M. Inst. C.E., professor of engineering and principal.
W. H. Ellis, M.A., M.B., professor of applied chemistry.
L. B. Stewart, P.L.S., D.T.S., lecturer in surveying and secretary.
C. H. C. Wright, Grad. S.P.S., lecturer in architecture.
T. R. Rosebrugh, B.A. and Grad. S.P.S., demonstrator in engineering laboratory.
C. J. Morani, Grad. S.P.S., fellow in engineering.
W. Ross, B.A., fellow in applied chemistry.

The school is affiliated to the University of Toronto, and the students in the above-mentioned departments are obliged to attend the classes of the following members of the Faculty of the University:

E. J. Chapman, Ph. D., LL.D., professor of mineralogy and Geology.
James Loudon, M.A., professor of physics.
R. Ramsay Wright, M.A., B.Sc., professor of biology.
W. H. Pike, M.A., Ph. D., professor of chemistry.
Alfred Baker, M.A., professor of mathematics.
W. J. Loudon, B.A., demonstrator in physics.
A. B. McCallum, B.A., M.B., Ph. D., lecturer in physiology.
J. McGowan, B.A., fellow in mathematics.
J. G. Witton, B.A., fellow in physics.
F. G. Wait, B.A., fellow in mineralogy and geology.
J. J. McKenzie, B.A., fellow in biology.

A New Secret Irish Society.

[From The Buffalo News.]

Exile McBride has arrived home from Toronto, where he spent Saturday and Sunday. The exile was successful in his mission. He attended a meeting on Saturday night where there were 200 rousing Irishmen present. There was a new society formed. The good work will be spread all over the Dominion of Canada. There are no informers admitted into the society and all are respectable Irish citizens. Before May 1 there will be 50,000 members in Canada. There were some of the most prominent Irishmen in Toronto, Ottawa, Quebec and Kington present. Their names, however, cannot be published.

"Lucky" Baldwin's Racers Coming.

CHICAGO, April 23.—"Lucky" Baldwin's string of race horses reached here from San Francisco Sunday night in charge of Trainer Robert E. Campbell. They are resting and will be shipped in a day or two to Brooklyn, where the Santa Anita stable opens the season. Campbell started from home with 13 racers, but Ensenada B., by Gano or Rutherford-Aritta was taken sick at Albuquerque and left there. The others that will carry the black with Maltese cross this year are: Los Angeles, Ganymede, Honduras, Sinaloa, Santiago, Amigo, Esperanza, Cleopatra, Silverado, Ogarita, El Carmen and Ocelita.

Los Angeles is expected to do more wonderful things than ever this season. She is in fine condition. The 3-year-olds are the best at Santa Anita, having been selected for the campaign from a score or more. The 2-year-olds are small for horses raised in California, but Campbell says they are as fine a lot as ever started out from the famous ranch.

Noted Racers Dead.

LEXINGTON, Ky., April 23.—Mr. A. J. Alexander, of Woodburn Farm, lost yesterday from the effects of foaling the noted thoroughbred brood mare Mollie Wood, by Lexington, dam Hymenia, by imported Yorkshire. She was the dam of Golden Gate, a winner in England; Falcon, winner of the St. Louis Derby and Chicago Finality Stakes, and Sagamore, Mollie Brown, Obelisk, Woodlark and Altaine, all winners and good performers.

Mr. W. H. Chepper, of Meadowthorpe Farm, has lost by death the thoroughbred brood mare Kate Mattingly, by John Morgan, dam Betsy Hunter, by Oliver. She died in foal to Volturno. Among her numerous produce were Creosote, winner of the Distillers' Stakes at Lexington, and Herbert, Long Girl and Matinee—all creditable racers. At the Association course S. Lucas' chestnut colt Fontenoy, 2 years, by Fonso, dam Sleepy Kate, by Chickahominy, while being worked fell dead from heart disease. He was quite promising.

Gossip of the Turf.

Several bets at 4 to 1 against Rose Maybud were made yesterday.

Pericles, who is entered for the Carslake handicap, will leave New York Saturday for her training quarters in Toronto.

Allie Gates' La Blanche is training with the greatest of satisfaction to her owner. There are many who are willing to bet that she will win the plate.

It is reported that Mr. Gorman's Ida Girl, who was brought from Kentucky specially to run for the Carslake handicap, has broken down and must be declared out of her engagements. The filly has been in the city 10 days and it was only yesterday that her trainer discovered her true condition. Ida Girl had been heavily backed.

The Two O'Connors—Song and Dance.

At the reception of our own Billy O'Connor in Sydney in March, a namesake, the Hon. Dan. O'Connor, took a prominent part and did all in his power in giving the young Canadian a hearty welcome. A Sydney poet therefore got off this song on the two O'Connors:

I'm the only Dan O'Connor, and beside me here you see
Me kinsman Bill, the dandy lad just come from Canadee;
He's crossed the rolling waters to give the boys a chance,
And when he wins his first big race we'll do our song and dance.

Chorus—
We'll dance and sing, and sing and dance in costumes clean and neat,
And while each warbles with his voice make music with our feet;
For we'll sing do-ra and dance rum time, and every way get honors,
So while he stays come every night and see the "Two O'Connors."

I'm great at balls and banquets, he's handy wid the oars,
And quite as much at home in eights as double sculls or fours.
Our name he'll not discredit, so love him for your Dan,
And trust me, boys, you'll find him all you're fond of in a man.
Chorus—

A Yalesian's Big Jump.

NEW HAVEN, Conn., April 23.—Thomas G. Shearman, Yale, '89, made himself famous Feb. 24, 1888, by a high jump of 5 feet 8 inches, thereby establishing a college record that has not yet been broken outside of college circles. Mr. Shearman is not now in training, and he has not paid particular attention to athletic development in several months. A few evenings since he attended an exhibition of the athletic club and was induced to jump. He surprised himself and everybody else by clearing 5 feet 10.5 inches, thus breaking his own record. He thinks he could clear 5 feet 11 inches or possibly 6 feet if he were in training.

TORONTO'S TEAM COMPLETE

When Outfielder Coleman Comes to Terms To-day.

Toronto has now 11 players under contract, viz.: Serad, Atkisson and Titcombe pitchers, Grim and Newman catchers, Wood 1b., McLaughlin 2b., Ike s.s., Rickley 3b., Connors l.f., Bottenus c.f. The management have about concluded negotiations with Frank Coleman, who played a few games with the Philadelphia Athletics last season, to play right field and complete the team. This will undoubtedly be a strong aggregation and able to uphold Toronto's honors against all Internationals. If Saturday should be a fine day there will, no doubt, be a big crowd visit the Don grounds to welcome the players and give the new and popular manager, Charlie Maddock, a rousing reception.

The Orioles Are Out for the Season.

Sporting Editor: The Oriole B.B.C. desire the readers of The World to take no notice of the many contemptible reports handed to the press concerning the club. Some ill-minded person, evidently wishing to disband the team, reported the resignation of four or five of our players, but this we can firmly deny, and when the season opens the public will find the Orioles playing good ball and giving a good account of themselves. Trusting the above person will take a drop.

THE SECRETARY ORIOLE B.B.C.
Toronto, April 23.

Dust from the Diamond.

The rain yesterday prevented the Torontos practise.

Shortstop Ike will arrive in the city this evening.

Only 150 persons saw the National League game in Pittsburg yesterday.

Sixteen hundred people saw the League game at Cincinnati yesterday.

The New Yorks were unable to hit Vickery's deceptive curves yesterday.

Donovan played a star field game for the Boston Leaguers yesterday, as also did Brodie, another old International man.

M. J. McLaughlin, Charles Collins and Wesley Curry have been officially announced as the International League umpires for the season.

Harry Senkler wired from Brockville yesterday that he would be unable to join the 'Varsity Club until the beginning of their trip May 22.

Pete Wood was yesterday asked by Manager Maddock to take the captaincy of the Toronto Club. Peter has not given a decided answer yet, but would prefer some of the older men to take the position.

Spots of Sport.

Steve Brodie left for England yesterday to win fresh laurels.

Jake Schaefer and "Napoleon" Ives are in Indiana giving exhibitions of billiards.

Arrangements have been completed in New Orleans for a glove fight between Tommy Miller of Indianapolis and Tommy Morgan of Chicago, to fight in the Audubon Club in that city May 5.

Billy Mahon has issued a challenge to fight any man in America at 133 or 137 pounds, for a purse of $1200 to be given by any club in America. His backer will back him for $1000 to $2500.

At Milan, Italy, on April 9, Annie Oakley, of Buffalo Bill's Wild West Company, won the first prize of 600 francs and a gold medal in a pigeon shooting match, thirty yards rise. There were 21 competitors.

Jack Hicks, the Toronto light-weight, wants to get on a match with some 120-pound man. There has been talk enough from men in that class during the last few months. Here is a chance for business.—N. Y. News.

The Pelican Club of London has changed its bylaws and constitution. It was decided that the club should not elect more than 2000 members, and if a gentleman proposed is averse to legitimate sport of boxing, turf, etc., he will not be elected.

Jake Schaefer averaged 75 in a 300-point game of 14-inch balk-line billiards with Frank Ives in Cincinnati on Monday night. This equals the record made by Vignaux in the famous triangular tournament, but the Frenchman scored 600 points.

A cable from London states that Bill Baxter, who was recently beaten by Fred Johnston, wants to fight any man in England or America at 118 or 120 pounds for £500 a side. Fred Johnston has also issued a similar challenge to fight at 116 pounds.

Concerning a possible match between Joe McAuliffe and Peter Jackson, "Parson" Davies, who is in Chicago, said yesterday: "No, there can be no such match here. It is impossible, as both men are under the control of the California people. Furthermore, Jackson is overdue now, and they are continually telegraphing him to hurry home."

The Finance Committee of the college having voted a grant for putting the cricket-crease in a good condition for the game, the Cricket Committee have determined to get enough ground sodded at once to enable them to obtain good wickets for this season, hoping to add more ground in the autumn, and arrangements have been made to get the requisite sodding done immediately.—Trinity College Review.

ASLEEP IN GOD'S ACRE.

The Impressive Obsequies of Professor Boys—Touching Tributes to His Honored Memory.

Reverent silence reigned in Trinity College yesterday. The voices of the students as they tiptoed along the corridors were hushed to a whisper and the lecture-rooms, where wise professors are wont to discourse, were still as death. In Convocation Hall lay the body of him whose voice had echoed in the days of old in the hearts of teachers and pupils alike.

At 8 o'clock in the morning the students attended holy communion and at 12 the casket with its lifeless burden was removed to the college chapel. For the next three hours sorrowing friends stole in and out to cast one last glance at the silent sleeper. The coffin was covered with a pall of purple and bore the simple inscription:

ALGERNON BOYS, PRIEST.
BORN JAN. 25, 1847,
DIED APRIL 21, 1890.

No costly floral decorations were there except the cross of pure white lilies presented by the teaching staff and students.

At 3 o'clock Rev. F. G. Plummer, the college organist, took his place at the organ. The sweet sad strains of Chopin's funeral march floated out on the air and filled with plaintive melody alcove, gallery and chancel. Solemnly tolled the chapel bell and through the stained glass windows streamed a flood of soft subdued light, which relieved the shadows thrown by the quaint and richly carved rafters.

The services were impressively simple. The singing of the grand hymn beginning "When Our Hearts are Filled with Woe," followed by Prof. Clark's solemn utterance of the "sentence," "I Am the Resurrection and the Life," and the student choir's intonation of the 90th psalm formed the prelude to Prof. Symonds' reading of an appropriate lesson. Another hymn, a special prayer by Prof. Clark, the benediction by the Bishop of Toronto, and the service was ended. J. G. Smith, D'Arcy Martin, S. F. Houston, H. V. Thompson, H. H. Bedford-Jones and W. M. Loucks, all wearing the ermine of their bachelorhood in arts, were the pall-bearers. To St. James' Cemetery the cortege slowly wended its way, and after services conducted by the dean, Rev. William Jones, the body was laid to rest.

Among those who attended the funeral were: Sir Daniel Wilson and Prof. Hutton of the University; Chief Justice Hagarty, Revs. Canon Dumoulin, E. C. Cayley, J. S. Broughell, J. C. Dunlop, A. C. Miles, J. P. Lewis, A. Williams, A. J. Broughall, A. H. Baldwin, B. Bryan, F. H. DuVernet, H. J. Hamilton, J. G. Lewis, C. E. Thompson, Charles Darling, R. A. Bilkey, A. Hart, W. J. Creighton, H. J. Winterbourne, C. L. Ingles, W. H. Clarke, H. Softley, R. C. Caswell, J. A. Worrell; Prof. Hirschfelder, Mercer Adams, Prof. Roper, William Ince, C. J. Campbell, Walter Strickland, Elmes Henderson, Col. Milligan, Clarkson Jones, G. B. Kirkpatrick, T. S. Smythe, W. O'Connor and Dr. Geikie, dean of Trinity Medical College.

The Strike.

Yesterday's story of the strike is briefly told: Nine non-unionists—3 bricklayers and 6 stonecutters—were initiated and 15 permits were issued, 5 by the stonemasons, 7 laborers and 3 bricklayers.

The stonecutters attended the funeral of John Fullerton, a deceased member, yesterday. On Friday last Fullerton was doing picket duty, his death being very sudden.

Every emigrant train passing through the city is boarded and building mechanics and laborers induced to continue their journey where possible.

The master builders state that men are fairly pouring into the city and there are more applicants for work than can be accommodated. The strike they claim is virtually over so far as they are concerned.

Out of Sorts.—Symptoms, headache, loss of appetite, furred tongue and general indisposition. These symptoms if neglected develop into acute disease. It is a trite saying that an "ounce of prevention is worth a pound of cure," and a little attention at this point may save months of sickness and large doctor's bills. For this complaint take from two to three of Parmelee's Vegetable Pills on going to bed, and one or two for three nights in succession and a cure will be effected.

The Address to the Emperor.

Editor World: The address to the Emperor William from the congregation of the People's Tabernacle, which appeared in The World, could not but arrest the attention of intelligent readers. Accordingly I read it with some care, and had to read it three times over to assure myself that I had not blundered. The first paragraph is a frightful anacoluthon. In the fourth line is read, "we desire to assure you," and yet through the eighth remaining lines of the paragraph the Emperor is not told what it is they desire to assure him of! The subsidiary clauses of this unfinished paragraph have a construction unknown to either literary or colloquial English. The beginning of the second paragraph is also a bad bungle.

Now, sir, I wish mainly to ask you is this creditable to our public school system, which is so much vaunted? Is it creditable to Toronto, the city of schools and colleges? What reflections does it suggest on that wonderful thing of which mine ear occasionally hears a little, and which is known as "grammatical analysis"? If the people mean well and say what they mean, that is perhaps all that can be reasonably expected; and I am sure his Imperial Majesty will prove a kind critic of all else. But I think he would expect the people of Ontario to write English correctly, and in a formal address to be careful and polite enough to employ his proper title.

JOHN CARRY.

GHOSTS IN TOWN.

Haunted by Spectres—Weird Sights and Strange Sounds Seen and Heard.

"Drink only water, and ghosts will crawl under the sidewalk and die," is oftentimes good advice. But there are times when this is not sufficient to dispel the weird noises, the spectral sights and the uncanny occurrences.

In this very town are men and women who know that to "drink only water" will not drive away the ghosts which haunt them. This spectre, which to some is ever present, is no ordinary white-robed spirit. It is far more terrible. It is called weak nerves. It forces the afflicted person to acknowledge its dreaded presence. "My nerves are not quite as steady as they used to be!" "My memory seems to be failing!" "I have such a tired feeling after working or reading a little while!" Such exclamations tell their own story. They tell us that the nerves are weakened and the brain failing.

These terrible weak nerves afflict us all. There is but one remedy, Paine's Celery Compound. It is a scientific cure for nerve weakness and brain tire. It is the only true nerve strengthener, and the only actual brain repairer. Remember that there is a future before you. It is a future of bodily and nerve strength or of weakness. Which do you choose? With Paine's Celery Compound you can have the former. Without it, your weakened powers will fail slowly but surely.

You cannot afford to trifle with weak nerves. The headache of to-day may be apoplexy to-morrow. The present twitching of your muscles may be paralysis next week. That palpitation of your heart warns you of the near approach of sudden death. All of these nervous symptoms can be removed and cured in but one way, and that is the use of Paine's Celery Compound.

CROMAR CAPTURED.

The New Brunswick Defaulter Run to Earth at Sand Beach, Mich.

HALIFAX, April 23.—On April 14 it was announced that J. McD. Cromar, agent of the People's Bank of Halifax at Edmundston, had skipped with funds estimated as high as $10,000. Detective Power left here a few days afterwards to capture Cromar and to-day the city marshal received a despatch from the detective dated Sand Beach, Mich.: "Cromar under arrest, he is going to return without fight." Power after going to Edmundston followed the trail to Boston, New York, Portland, Me., then to Detroit, thence back to Portland and then to Sand Beach, Mich. Cromar's defalcation is understood to be about $7000.
