The Country is now, and has been for years cursed with a bad system of Education; a better system was expected from the late #d-ministration but nothing was done, indeed it

is a difficult subject to grapple with, but let us hope that the next change will be for the better, worse it cannot be. The time given for this Election is so short, I regret that I cannot call on all the Electors personally, the will, however make the most use of my time. I have been unexpectedly called to St. John, and cannot commence my canvass until the next week, look out for me, I am coming!—

Did space permit, we could give usany hundred such manes, from all parts whate the Pills have, been theel, but evidence even more convincing than the cerkficates of these evaluest public men is shown by their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science, can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remodies, extracted by chemical process, in a state of parity and combined together in such a manner as to finsure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Fills both, to produce a more efficient remedy than has hitherto been obtained by any process. The reason is perfectly obtained by the old mode of composition, error, medicine is outsigned with none of less of acre-

mysteries. The composition of any preparations is laid open to all raten, and all who are competent to judge on the subject, freely achieved their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many entant Physicians have declared the same thing of my Pills, understance confidently and are will, for to certify that their anticinctions were more

one Pills and area more confidently, and are willog to certify that their anti-pations were more than reshred by their effects upon trial.
They operate by their powerful influence on the
internal viscera to purify the blood and stimulate it
into healthy action—remove the obstructions of
the stomach, bowels, liver, and other organs of the
body, restoring their irregular action to health, and
by correcting wherever they exist such derangements as are the first origin of disease.

Being squar wrapped they are pleasant to take,
and being purely vegetable, no harm can arise from
their tase in afty quantity.
