### "GLOOMY DEAN" IS GRAVELY CONCERNED OVER BRITAIN'S POPULATION PROBLEM: "BRILLIANT FROM THE WORST STOCK"

Expresses Fear That Many of "Best Families" Will Disappear From the Face of the Earth and That the "Sluggish Dwellers, the Untaxed Dole-Receiver" Will be the Father of the Next Generation in England.

London.—Few ecclesiastics of the present day show more independence of thought than Dean Inge, Dean of St. Paul's. There is considerable justification for the current description of him as "The Modern Jeremiah"—because of his readiness to tell his countrymen truths which are calculated to make them wince. However angry he may make his opponents there is no merit about his writings, and his utterances—they compel people to think. Perhaps no writer has caught the ear of intellectual England more attentively during the last twelve years.

Dean Inge is gravely concerned over the population problem of Britain. For years past he has condemned error of breeding from the worst stock, while our best are being squeezed out of existence. "I do not see a crumb of comfort for my own class," he declares, "and I am afraid that many of our best families will inevitably disappear from the face of the earth."

In one of his latest pronouncements the Dean declares it will be the slum dweller, the untaxed dole-receiver who will be the father of the next generation, and he is not afraid to declare that the state assists in perpetuating that class of the community whose disappearance would help the progress of the social machine.

The orgy of wastefulness at present cripples the national resources is the natural result of a system under which one class levies the taxes and another pays them. There would be, he thought, a reaction against it when labor discovered that it was saddled with the maintenance of millions of incapable and of many others who, though not incapable, ought not to be where they were because there was and could be no work for them. Dean Inge was appointed to St. Paul's some twelve years ago. Soon after his arrival he delivered a striking

### BEAR RIVER

Bear River.—The Etta Rebekahs held their regular fortnightly meeting Monday evening in Oddfellows' Hall. After the session and transmission of business the District Deputy Noble Grand installed officers. Refreshments were served. Mr. and Mrs. Willard P. Brinton left on Tuesday for Boston, where Mr. Brinton has secured a position. Miss Lillian Henry, Vice Principal of Oakdene Academy, who has been spending the Christmas holidays with her parents in Musquodoboit, returned home Tuesday of last week.

Mrs. James Pollock, of Salem, Mass., who has been visiting her mother, Mrs. Stewart Harris, left for home Wednesday via St. John. Guy Harris, of Flint, Mich., who was called home on account of the death of his father, Stewart Harris, left for home Wednesday. Wilfred Harris, who has been spending a few months at his home, left Tuesday for New York, where he will be in the printing business with his uncle.

The course of lectures on "The Church and the Age," in which he unbundled himself of his fears concerning the future progress of the nation. One of the most prominent of the London papers headed the report of the first lecture "A Gloomy Dean." The description was perhaps not very polite—but it stuck. A few days later a reply came from the Dean who was no doubt nettled at the manner in which the off-handed description—penned in all innocence no doubt by a tired news editor in an unguarded moment—has been bandied about.

"It is not worth while to be angry with over-worked drudges of journalism. As Nietzsche said of his critics: 'They bite to live, not to hurt. They want our blood, not our pain.' And if it answers the purpose of the managers of the half-penny press to misrepresent me as a morose pessimist or a selfish conservative, they are welcome to whatever increase in their sales they may reap from such a caricature of my opinions." Since those days Dean Inge has occupied himself considerably with writing for the daily press. The payments made for this, it is understood, are devoted to the education of his rather large family.

### TOURIST TRAFFIC

George E. Graham left for Portland, Maine, and other New England centres, in connection with the development of tourist traffic to Nova Scotia in 1924.

With the restoration of the "Blue-nose" train, and the placing of a third boat on the Yarmouth route, the transportation interests will be in a position to provide a service far in advance of present day requirements. They feel, however, in view of the importance of the tourist traffic to Nova Scotia, as a whole, that the Government, through a Tourist Association or some such organization, will shortly realize the possibilities in this connection and indicate a real interest in the matter. No section of the country is so well equipped as regards location, climate, scenery attractions, etc., as Nova Scotia, but, outside of the propaganda broadcasted by the transportation companies, little or nothing has been done to advertise the Province.

Over seventy-five thousand persons will pass through the Yarmouth gateway during 1924, and, with concerted action on the part of all concerned, the figures can easily be doubled, the greater number coming in our direction.

The State of Maine, with no greater attractions than those possessed by Nova Scotia, has in a few years increased her annual revenue from the tourist traffic from three to forty million dollars.

This is a non-partisan issue; every citizen should appreciate his or her responsibility.

Preparations are under way for the holding of a meeting of all interested bodies in Halifax early in the New Year at which men prominently identified with work of this nature will present facts and figures, and out of which it is earnestly hoped will be evolved a strong, permanent organization for the development of the tourist traffic to Nova Scotia.—(Kentville Advertiser).

### TAX ON FRUIT CONTAINERS

A telegram received by F. W. Bishop of the United Fruit Company, from the Canadian Horticultural Council, of which he is Vice-President, announces the success of the Council in having the sales tax removed from all fruit containers. This removal became effective January 1st, 1924.

Commenting on this step, Mr. Bishop stated that the removal of the tax will mean a saving to the fruit growers of the Annapolis Valley of from \$30,000 to \$50,000 per year. The Horticultural Council, Mr. Fisher pointed out, has only been in existence two years, but it had already demonstrated its great value to the horticultural interests standing, as I do, between these interests and the government.

## ROYAL YEAST CAKES

Good home-made bread is the finest food on earth—the one food that everybody eats—and that agrees with everybody.

MADE IN CANADA

MORE MONEY IN APPLES THAN IN GRAIN, SAYS "G. D."

The editor has just received a brief letter from Mr. G. D. Chute of South Berwick, who is spending the Winter in Alberta. Mr. Chute says:

"I wish you would be so kind as to mail the 'Register' to me at this address, as I find that life is not worth living without it. We are having wonderful weather here; there has not been enough moisture fallen in three months to get through a cotton crop. The apples are little cold, and the grain is healthy. The wheat is not getting enough for it to make expenses. Growing apples, even if prices are low, has grain growing best to a standstill."—Berwick Register.

## Vicks Wins Most Enthusiastic Praise

### Nova Scotia Mothers Like Vicks VapoRub

#### A CASE IN HALIFAX

Mrs. G. S. Launwhite of 22 Starr St., Halifax, N. S., writes: "Before sending for Vicks I was discouraged with all other cough and cold remedies which I had tried for my son. I got such good results from Vicks that I have been using it ever since."

#### REPORT FROM STELLARTON

Mrs. Laura Casimo, Box 162, Stellarton, N. S., says: "I have used Vicks VapoRub and have found it useful for all kinds of colds. I had a very bad cold in the head and tried many remedies. Vicks VapoRub proved better than all the others."

#### NEW GLASGOW SENDS FOLLOWING

Mrs. G. W. Reddick of Vale Road, New Glasgow, N. S., writes: "I used Vicks VapoRub for my oldest boy who had a heavy cold and was quite sick. It helped him greatly and the next day he was out. I always keep Vicks in the house."

Never let a Cold get a start

Skeptical at first about external treatment for cold troubles, Nova Scotia people have been completely won over by the remarkably quick action of Vicks VapoRub.

For Vicks medication takes effect immediately it is applied, in two distinct ways. First, it is absorbed through and stimulates the skin like a liniment, poultice or plaster. Second, its ingredients are released by the body heat as vapors and are inhaled with each breath directly into the nose, throat and lungs. It is an obstinate cold that can resist this direct double action.

Vicks is composed of Camphor, Menthol, Eucalyptus, Thyme, Turpentine and other of the world's best remedies for congestion and inflammation—whether in the air passages, such as croup, colds, catarrh or bronchitis, or on the surface, like cuts, bruises, burns, sores and stings.

Vicks is a family standby in the States. Over 17 million jars are used yearly. Since its introduction into Nova Scotia last year, a great many letters have been received from people who have tried Vicks and are delighted with the results. Alongside are reports from some of these people who have kindly consented that their experiences be published.

**VICKS VAPORUB**  
OVER 17 MILLION JARS USED YEARLY

### Some Reports From Nova Scotia Families

#### PEMBROKE "EXCELLENT REMEDY"

Miss Agnes J. Foote of Rural Route No. 3, Pembroke, N. S., says: "I used Vicks VapoRub one night for sore throat and in the morning my throat was well. Now whenever I feel my throat getting sore, I use Vicks VapoRub. It is an excellent remedy."

#### TWO RIVERS "HAS NO EQUAL"

Mrs. M. Shirley of Two Rivers, N. S., writes: "I used Vicks VapoRub for a very bad cold in the head and do not hesitate to say that it has no equal. I want to keep Vicks always on hand."

#### PORT MEDWAY "WONDERFUL RESULTS"

Mrs. Everett L. Smith, of Port Medway, N. S., says: "Last March we were all stricken with influenza and began to choke and cough terribly. I got some Vicks VapoRub and used it on all the family with wonderful results. It was really magical to see how quickly the vapors relieved our coughs. There is nothing to equal Vicks VapoRub."

#### 50c. A JAR AT DRUG STORES.

If you prefer to test Vicks before purchasing, clip this coupon, mail it to the Vicks Chemical Co., 344 St. Paul St., W. Montreal, P. Q., and a free test size package will be sent you promptly.

### AUTO FOR EVERY 29 PERSONS IN THIS PROVINCE

Total of 18,000 Motor Vehicles Registered During 1923—20,000 This Year.

During the year 1923 there were registered in Nova Scotia 18,000 auto cars of which 16,000 were passenger and 1,970 commercial vehicles, said Provincial Secretary Cameron at his office, referring to the automobile situation in the Province. He said further that in addition to this there were issued 130 dealers licenses, which represent about 520 cars and the whole meant a car for every twenty-nine people in Nova Scotia.

In 1924, said Mr. Cameron, there will be at least 20,000 cars registered and operating on our highways, about twice the number registered five years ago. In 1923 there were about 3,380 tourist cars operating in the Province; so that it is a safe estimate to say that at least 25,000 cars will be using our roads during the year 1924.

The revenue produced in the Motor Vehicle Department totalled in 1923 about \$400,000, and is expected to exceed half a million dollars in 1924. All of this is by Statute, paid over to the Provincial Highway Board, for the purpose of meeting the interest and sinking fund on the capital expenditures being made for the highways and for their maintenance. The Motor Vehicle rates are the same for 1924 as they were in 1923 with the exception of the rates for the Ford and Chevrolet Sedans, and Star Sedan and Coupe cars, the fees for which will be the same as for the touring and roadster cars of the same makes. All other sedan and Coupe cars pay the same rates as the touring and roadster cars for their respective makes.

As already reported in the Evening Echo the motor vehicle plates for the 1924 are now being issued by the Motor Vehicle Department, the colors being lemon on black, while the chauffeurs badge for the year is black and gold.—Chronicle.

### MIDDLETON

Middleton.—A proposition was brot up at the Council Meeting Monday evening by the Town Solicitor to straighten school street from the school property southward, thus making it conjoin Main Street at the head of Bridge Street. This would remove a dangerous corner. A committee was appointed to investigate and report as early as possible.

Mrs. A. M. Reid was called to Riverport by the death of her mother, Mrs. M. Smith.

O. W. Chesley, who has been ill for a week is slightly improved. J. H. McDonald is also better, although confined to his house.

Mrs. C. A. Young entertained at a social tea Wednesday afternoon in honor of Mrs. W. A. Baker and Mrs. D. R. Hunter.

### WILL GO AHEAD

United Farmers of Manitoba Decide to Proceed to Handle Wheat Crop.

Winnipeg.—With three hands raised in protest out of about 400 registered delegates the United Farmers of Manitoba decided at their annual convention to proceed forthwith with the organization of a voluntary contract wheat pool to handle the 1924 crop. Delegates to the convention of the United Farm Women's meeting separately at the time, passed the resolution unanimously.

The contract which Manitoba farmers will be asked to sign provides for proceeding with the pool when forty per cent. of acreage is signed up, instead of providing for fifty per cent. as in Alberta. Otherwise the form is the same as is being used in the Western Provinces. Contracts are for five years and penalties are provided for non-compliance with their terms.

An effort is to be made to have the three Western Provinces agree on a common form of contract. Such a uniformity, it was felt, would make easier the formation of a common selling agency for the three pools.

### STILL HAS HOPES

New Brunswick Minister Says Agriculture Grant May Be Continued.

Fredericton.—The Federal Government has not definitely rejected proposals for continuance of a grant to the Provinces for agricultural instruction, according to Hon. D. W. Mersereau, New Brunswick Minister of Agriculture, who has returned from Ottawa, where he attended the recent conference.

"While the matter apparently had been about decided," said Mr. Mersereau, "the representatives of the Province succeeded in having the Federal Government promise to take the matter up again, and we hope that there will be a renewal of the grant, although it is quite likely that there will be some reduction in the amount."

### OLD SOLDIER DIES

Corporal, Thought to be Last Survivor of Crimean War, Passes On.

Quebec.—Believed to have been the last surviving veteran of the Crimean War, Corporal James Heil, aged 87, years, died at Lake Beauport on Friday. He was the last of his section to survive.

### ASSAULT STUDENTS

President of Virginia College Gives Severe Indictment in Address.

New York.—An army of "hard drinking, cigarette puffing, licentious amazons," such as the world never has known before, has invaded the college campus of today, Dr. Charles J. Smith, President of Roanoke College, Va., declared at the opening of the National Lutheran Educational Conference.

Drinking, dancing and social impurity, Dr. Smith charged, had disrupted college social life, and even had extended to theological seminaries.

"What can we do," he asked, "when daughters of the so-called best people come out attired scantily in clothing, but abundantly in paint; carry a bottle of liquor, dance as voluptuously as possible, call for frequent intermissions to smoke cigarettes, quench their thirst, and engage in violent 'petting' parties."

Battle there was fought, in 1854. This engagement was witnessed by Corporal Heil from behind. He had just returned from the Crimean War, and was the only one of his section to survive.
