

Highest Efficiency is what you look for in your Plant and what you get when you install WESTERN ELECTRIC GENERATORS

HIGHEST efficiency day-in and day-out under heavy loads or light ones.
That's what the Western Electric Generators will give you.
Thirty years of constant working to improve is back of every machine.

\$230,000,000 worth of apparatus put into service in the past five years—that is the Western Electric Company's record—figures that must prove to you, better than anything else we would say, that Western Electric Generators give the highest satisfaction.

Those parts in which heat is developed are so generously and so well ventilated that the heating is kept at a minimum.

Perfect regulation is obtained by so proportioning the parts as to reduce to the lowest possible value the quantities which tend most strongly to prevent good regulation.

You who own a plant should know more about Western Electric Apparatus. Our Bulletin, No. 310, shows you all the details and we will gladly send you a copy. Write for it to-day.
