What is

You should be a subscriber to the MONTREAL PHILATELIST Because it is the only Canadian stamp journal that treats philately scientifically. Because it is edited by a staff of philatelic experts, all trained journalists

Because its contributors do not write articles for the sake of seeing their names in print, or for advertising space.

Because they do write solely for the good of stamp collectors and their love of scientific philately. More reasons next month. 25c a year, with Advocate 30c. Agents Wanted.
