HOW TO BOTTLE FRUIT: Take cherries, strawberries, gooseberries, plums, or apricots before they are dead ripe, put in large-mouthed olive bottles, and fill them very full, then cork tightly, place in a large pan or kettle of cold water with hay between the bottles, and let the water come up to their necks. When the water boils take the kettle from the fire, and let the bottles stand in it until cool. Then mix two-thirds bees-wax with one-third tallow; heat together, and dip the corks into the boiling mass. Keep in a cool cellar.

CHOLERA IS COMING!

The countries where Cholera prevails, as in India, China and Africa, Pain-Killer is considered the surest and safest of all known remedies, and the natives place the most perfect reliance in it.

Read the following extract from the letter of a missionary in China:

DEAR SIRS—I ought to have acknowledged long ago the box of Pain-Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The Cholera appeared here soon after we received it. We resorted at once to the PAIN-KILLER, using as directed for Cholera. A list was kept of all those to whom the Pain-Killer was given, and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered.

Believe me, dear sirs, gratefully and faithfully yours. J. M. JOHNSON, Missionary to Swatow, China.
