- 51,835 Type-cutting machine, Thos. T.
Heath, Loveland, O.

RICH DISCOVERIES OF GOLD

At Cripple Creek, Colo., and elsewhere,
are being made daily, and the production for
1896 will be the largest ever known, estimated
at Two Hundred Million Dollars. Cripple
Creek alone is producing over One Million
Dollars a month, and steadily increasing.
Mining Stocks are advancing in price more
rapidly than any other Stocks, and many pay
dividends of 35 to 50 per cent. They offer
the best opportunity to make a large profit
on a small investment.

JOHN I. TALLMAN & CO., 45 Broadway,
New York, are financial agents for the Pru-
dential Gold Mining Co., and others in the
famous Cripple Creek district. They will
send you free, interesting particulars of the
Mining Companies they represent, also their
book on speculation in Stocks, Grain and
Cotton, containing many new and important
features.

Send for these books at once if you are in-
terested in any form of speculation or in-
vestments. They may prove profitable to
you.
