

QUEBEC.

We beg to acknowledge the first No. of the 3rd vol. of the Canadian Ecclesiastical Gazette, from which we make the following extracts:—

"The Bishop had twice during the summer, attended a meeting of the Corporation of Bishop's College at Lennoxville. The former meeting was held on the 1st of July, upon which occasion his Lordship was charged with the gratifying announcement from the Society for the Propagation of the Gospel, of a grant to the College of £4000 sterling, for the endowment of scholarships, from the Jubilee Fund.

"During the first visit of the Bishop of Quebec to the College, the annual examination of the Students took place, and the annual celebration which has been established by the Alumni who have left it, and which is observed in the following manner. A sermon is preached in the morning by one of their number, and a public address is delivered by another, who must be of a lay profession, in the College Hall, in the afternoon. On the present occasion the Rev. J. Kemp, Missionary of Bury, was the preacher, and the address was delivered by Joel Baker, Esq., Advocate, of Montreal. A dinner in the Hall forms part of the observance.

"These Alumni have also successfully exerted themselves to establish an exhibition for the benefit of theological students, and they hope not to stop with the establishment of one. There are now in the two Dioceses of Quebec and Montreal, twenty-five Clergymen who went through their course of preparation for Holy Orders, in whole, or in part, at Bishop's College; and the fruits of the Institution thus far afford warrant for the hope that if placed upon a fair footing of equal privilege with other Collegiate Institutions in these Provinces, (according to endeavours which are now in train,) it will become an advantageous nursery for different learned professions in the country.

"The character of the Diocese of Quebec is peculiar, and the episcopal ministrations are in some instances carried round to feeble and straggling flocks, separated by vast distances from each other. This peculiarity has been remarkably exemplified, (as may be observed from a survey of particulars in the foregoing account,) in that portion of the Diocese which has been visited during the present summer, with reference to the Confirmation. It is matter for thankfulness, that a mere handful of Church members here, and a handful there, in the midst of a large population of another faith, should enjoy the means at all of having Churches built, upon however humble a scale, and Ministers to serve them. The Society for Promoting Christian Knowledge has assisted extensively in providing the former, and the Society for the Propagation of the Gospel, acting in concert with the Bishop, has established missions in the Diocese of Quebec, scattered about from the Frontier Townships in the District of St. Francis, to the Magdalena Islands, in the Gulf."

NOTICE OF ORDINATION.—The Lord Bishop purposes (D. V.) to hold his next Ordination at Halifax, on Sunday, December 19. Persons intending to offer themselves as candidates for Holy Orders upon that occasion, are desired to notify their intention to His Lordship without delay.

The Council met yesterday for the appointment of officers for the ensuing year. All the officers of the last year were re-appointed. Mr. Steele was appointed as constable, vice Mulligan, resigned; four new constables were added to the force.—*Colonist.*

NEWS OF THE WEEK.

R. M. S. AMERICA FROM LIVERPOOL.

The R. M. Steamship *America*, arrived on Tuesday last. The papers are still filled with reminiscences of the late Duke of Wellington. We have copied some of them, and other matters having reference to the last tribute of respect which has yet to be paid to the departed hero.

The foreign news is chiefly important as it refers to the consummation of the ambitious designs of the French President. A conspiracy against his life has been detected in Marseilles, and an infernal machine discovered and seized. A number of arrests of suspected individuals, chiefly Socialists, had been made.

R. M. S. CANADA FROM BOSTON.

The news by this arrival is rather of an important nature, and may be precursor of intelligence of a more active sympathy in Cuban affairs on the part of the American people. It is evident that the American government, in spite of all its protestations of neutrality, is only waiting a plausible pretext to attempt the possession of the Island; and if the great European powers are determined to frustrate such an attempt, it is not a whit too soon for them to make a more formidable demonstration in behalf of its integrity than that they have already done.

A pleasing feature of intelligence is the proceedings in New York, in honour of the memory of the great Duke of Wellington.

THE FISHERIES.—The Gloucester *Telegraph* of the 9th says:—Schooner *Diligent*, Capt. Bailey, arrived on Tuesday afternoon, and schooner *Martha* and *Susan*, Capt. Somes, arrived yesterday, from the Bay of St. Lawrence. Capt. Bailey left a steamer and two cutters at Port Hood, who would be likely to annoy the Americans considerably this month. Capt. Somes reports that the steamer *Devastation* came out of the bay on 28th ult. The *Cyrena S. Colby* got ashore on Casumpeque Bay, on the 23d ult. She was reported to be full of water; but nothing further has been heard from her. The *Portsmouth Chronicle* of the 9th, says:—Capt. Lawry, of schooner *Ann Eliza*, which arrived here on Thursday, from Prince Edward's Island, with 250 bbls. mackerel, informs us that he could have caught 500 bbls. as easily, and in a shorter time, had it not been for the annoyance and interference of the British armed vessels, some of whose commanders seemed to take pleasure in causing as much vexation as possible. The visit of the American armed vessels he represents as of little utility, partly on account of its being too short—as the British cruisers were much more polite while our armed vessels staid—but began to fire shot across the bows of the fishermen almost as soon as they were out of sight. Our own opinions, are, that the instructions were not sufficiently decisive, and their powers too small, as well as their stay too short. Capt. Lawry states that he lost about one hundred and fifty sail of fisherman there, all of which were, and had been laboring under difficulties similar to his."

The American schooner *Ann* has arrived at Portsmouth, N. H., from Prince Edward's Island, with information that she had been twice fired at by the British steamer *Devastation*, and forbidden to enter Gaspe Bay. Our vessels are excluded from the Bay of Chaleur.

THE FATE OF CUBA APPROACHING.—Our relations with Cuba, on account of the recent outrages to the American flag, are attracting much attention, and causing special inquiry on all hands, and in every State. If the United States government has ordered any vessel to proceed immediately to Cuba, we learn that it is the sloop of war *Cyano*, which sailed in great haste yesterday, for the purpose, probably, of making investigations on the spot. She was towed out of port in the forenoon. The *Mississippi* steamer is not yet ready for sea, on account of the want of seamen; but she, too, will soon be ready, and then it will be supposed she will proceed also to Havana. We have not heard yet what the President or the portion of the cabinet now at Washington have done, or intend doing, but we have reason to believe, from what we hear from Boston, that the recent intelligence from Cuba has reached Mr. Webster at Marshfield, and has produced on his great mind a deep and profound sensation, calculated to rouse the great statesman into the highest activity.—*N. Y. Herald.*

The House of Bishops convened on Thursday at Camden, N. J., for the trial of Bishop Doane, upon the charges preferred against him by the Bishops of Virginia, Maine, and Ohio.

The conciliation meeting of the delegates from the Bible Union and the American and Foreign Bible Society, not only broke up without any reconciliation being effected, but without any prospect of it.

CALIFORNIA.

NEW ORLEANS, Oct. 1852.—The steamship *El Dorado* has arrived at this port from Aspinwall, N. G., bringing dates from San Francisco to the 16th September, brought down to Panama by the steamship *Golden Gate*.

The *Golden Gate* had \$2,000,000 on freight. The mining intelligence continues very favorable, and the papers chronicle the discovery of several large lumps.

There have been some further movements amongst the miners against the Chinese, and a public meeting had been called at Jamestown on the subject.

SANDWICH ISLANDS.

Late dates from the Sandwich Islands report the prevalence of a serious epidemic at Honolulu, which had very materially checked business.

The government of the Sandwich Islands had promulgated a treaty of reciprocity with the United States.

TO CORRESPONDENTS.

Letters received from Rev. C. Elliott. Rev. Dr. Rowland. (thank you for the Subscriber and the promise to try for more. When an octogenarian, in a distant land, is exerting himself for the paper of his Church, surely we may expect efforts from younger men, nearer home.) Rev. T. C. Leaver. Rev. C. Ingles. Rev. G. Townsend.

MARRIED.

On Saturday, the 9th inst., in St. Paul's Church, St. Margaret's Bay, by the Rev. Wm. Robert Cochran, Mr. James Mason, to Miss Matilda Mason, of Lunenburg.

DIED.

On Friday, the 8th inst., after a long and severe illness, DONORRY, wife of Mr. John Willis, in the 45th year of her age.

At Halifax, on the 25th inst., in the 81st year of her age, Mrs. HANNAH MCGUIR, long a respectable inhabitant of Lunenburg.

Shipping List.
