NEW-YORK TRIBUNE.

P. O. Box, 1533.

1873.

Now, as heretofore, THE TRIBUNE strives to be first of all and preeminently a news paper.

Now, as heretofore, The Thinkur strives to be first of all and preeminently a newspaper.

France a Republic—England and Germany gradually permeated with Republican ideas—Spain swaying in the nerveless grasp of a ruler too good for is King and too weak for a Republican, who is unable to govern the great island that blocks the entrance to our Guif of Mexico, and equally unable to give it up—the German-speaking peoples agitated by a new Protestantism, separating from the See of Rome on the dogma of Papai Infall-ability and assiming to recognize the "Old Catholics"—the whole Continent pervaded by the intellectual ferment that comes of the conflict between old ideas, philosophical, theological, material, and the advance of physical Science—Russia and Great Britain rusning a race for the linal gains that shall determine Asiatio corpernacy—Chiasa seeming ready to abandon her advances and reclose her half opened gates—Japan abolishing feudalism and inviting Western civilization to irradiate Western commerce to enrich her long-hidden empire—such are phases of the news from abroad which the mails over all Continents and the wires under all Seas are daily bearing to us. With able and trusted correspondents in the leading capitals, and wherever great changes are in progress, The Trisurs aims, at whatever cost, to lay befure its realers the most prompt, complete, and popular presentment of these diverse and conflicting novements, through all of which, as it fondly trust, the toiling masses are overywhere struggling up toward larger recognition and a brighter tuture.

At home the struggle for freedom seems over. The

larger recognition and a brighter future.

At home the struggle for freedom seems over. The last slave has long been a citizen, the last opposition to emancipation, enfranchisement, equal civil rights, has formally been abandoned. No party, North or South, longer desputes the result of the War for the Union; all declare that these results must never be undone; and, with a whole people thus united on the grand platform of All Rights for All, whereto our bloody struggle, and the prolonged civil contests that followed, have led us, the Republic closes the records of the bitter, hateful Past, and turns peacefully, hopefully, to the less alarming because less tital problems of the Future. To whatever may elucidate the general discussion or action on these, The Tribune gives amplest space and most finantial record. Whatever parties may propose, whatever political leaders may say, whatever officers may do, is fairly set down in its columns, whether this news helps or hinders its own views. Its readers have the right to an honest statement of the facts; and this they always get.

THE WEEKLY TRIBUNE, now more than thirty years old, has endeavored to keep up with the progress of the age in improvement and enterprise. It devotes alarge share of its columns to Agriculture as the most essential and general of human pursuits. It employs the ablest and most successful cultivators to set forth in brief, clear essays their practical views of the Farner's work It reports public disscussions which elucidate that work; gathers from every source agricultural news, the reports of the latest experiments, the stories of the latest experiments, the stories of the latest experiments, the stories of the intest successes and failures, and whatever may tend at once to better Agriculture, and to commend it as the first and most important of progressive Art, based on natura science.

most important of progressive Art, based on natura science.

The Weekl Tahunk appeals also to Teachers Students, and persons of inquiring minds, by the character of its literary contents, which include reviewe of all the works proceeding from the master minds of the old to of the New World, with literal extracts from those of especial interest. Imaginative Literature also claim strenton; but in a subordinate legree. "Home Interests" are discussed weekly by a lady specially qualified cats "are discussed weekly by a lady specially qualified in instruct and interest her own sex, and the younger portion of the other. HASTY CONSUMPTION CURED BY FELLOWS HYPOPHOSPHITES.

CARDONEAR, REWFOUNDLAND, Van. 3, 1871.

MR. JAMES I. FELLOWS.

DEAR SIR: I came to this country in May, 1809. I found a countryman of mine laboring andor some affection of the lungs. I recommended your Syrup, tried at the Drugsiets in Harbor Grace, but they thought I was inventing the name at their expense. However, in April, 1870. Mr. Edgar Joyce rapidly wasted away with every symptom of quick consumption, so that he was unable to walk across the room, having no appetite, pains in the left side, nervous system unstrung, dry, hacking cough, &c. Fortunately I learned that your Syrup could be obtained at Mr. Dearins, in St. John's, and immediately procured some (showed one to W. H. Thompson, who ordered a supply from you at once) This was Thessay sitemaon; at night he took the prescribed dose, and in the morning he described the very results notified on the wrapper. He appetite soon began to return, and a voracious not it was, too; the dry, hacking cough changed into loose but violent attacks, finally disappearing altogether, pains loft his side, his hand assumed its usual steadiness, and before he finished ten bottles his health was quite restored, and to-day not a more healthy person is to be found on our streets; and it is the opinion of all, had he not been fortunate in getting your valuable Syrup of Hypophosphitos, he would now be in his grave.

He happened to be in W. H. Thompson's the day year first shipment arrived, and took at once four bottles to the Labrador, which he was very anxious to do, but had no occasion to use them himself. No other medicine will be ever preserbe, recommend, or give, but yours.

GOOD THINGS

GOOD THINGS will address itself to the young of all ages, from the little beginner, who can just read a picture, to the big boy as and girls who study at the dock for shout in the playground; and so onwards up to the veterans who, after all their leauning, turn to the children for a fresher wisdom, and after all their work, sit in the shady corner and play the old games over again in their heads, "GOOD THINGS" hopes, as a periodical, to have its margins well thumbed and dog-carvel; and when the binder has rimmed show and made it after the library, the volume all try for a fixed place there in good company. The avers of a multitude of asserted "goodless" cannot be usually a prospectus; but it will be prospectus; but the WILL SPEAR FOR ITSELP.
