

# COBALT

THE CANADIAN MAGAZINE  
for June will contain an extremely interesting article by Mr. Frederic Robson, entitled "Cobalt: A Fallen Idol." The article will be well illustrated. No writer has had better opportunities for making a correct appreciation of this novel mining camp. Read his article in the June number.

**"The Psychology of Gossip"**  
is an odd title for an article, and yet J. D. Logan, Ph.D., has given us something really original under that caption. In this article Dr. Logan makes some very interesting deductions.

The June number will contain many other excellent contributions, and among the short stories will be one by Virna Sheard.
