

The Bishop of Montreal desires to acknowledge an anonymous remittance of £5, most kindly made from Montreal, to aid in a case of particular interest arising out of the existing calamitous visitation from the hand of God.—Mercury.

The Sale for the benefit of POINTE LEVI CHURCH last week has brought in, we are informed, the sum of one hundred and thirty Pounds, after paying expenses.

PAYMENT RECEIVED.—Rev. R. G. Plees, No. 105 to 208.

To CORRESPONDENTS.—Received W. B.;—C. B.;—T. A. S.; came to hand on FRIDAY morning, instead of Thursday;—J. E. F. S., enclosing remittance.

Local and Political Intelligence.

LIVERPOOL.—MORTALITY.—The mortality returns for Liverpool, for the quarter ending 30th June, have just been issued. The number of deaths registered was 51,585, being 6745 above the average of the season, allowing for the increase of the population. A considerable number of medical men, some Clergymen and relieving officers, and eight Roman Catholic priests have been amongst the victims of typhus fever.

CAPTURE OF A SLAVER.—A correspondent at St. Helena, in a letter dated June 16, states that Captain Birch of the Waterwitch, of 10 guns, had captured a fine brigantine, with 510 slaves on board; she was apparently an American-built vessel, but had, when captured, neither papers nor colours on board.

SHAKSPEARE'S BIRTH-PLACE.—Prince Albert has contributed the sum of £250, the Queen Dowager has also added £100, and the Corporation of Stratford another £100, towards purchasing the birth-place of the Bard of Avon, with a view to the preservation of this relic.

ISTHMIAN PANAMA.—M. Klein, who was sent to Bogota to treat with the Government of New Grenada, for the establishment of a railway across the Isthmus of Panama, has returned to France. He has completely succeeded in his mission, having obtained most advantageous conditions for the company he represented. The works will shortly be commenced.

MEXICO.—The Telegraphic report at Montreal speaks of skirmishes between the American army and the Mexicans in the immediate vicinity of the capital, which resulted in the retreat of the Mexicans, and an application for a cessation of hostilities, in order to afford time for a consideration of Mr. Trist, the American Envoy's, propositions of peace.—More recent yet: General Scott has entered the city of Mexico, and been elected President.

NEW BRUNSWICK.—Her Majesty in Council, it appears by the last Royal Gazette, has given her assent to an "Act to facilitate the making of a railway across the Isthmus which connects the Provinces of New Brunswick and Nova Scotia, to open the communication between the waters of the Gulf of St. Lawrence, and the Bay of Fundy," passed at the last meeting of the Legislature of New Brunswick.—Halifax Post.

Measures in progress against immigration of paupers.—After mentioning the arrival of 1000 destitute Emigrants, and expectation of another vessel, bringing 500 of the same class, all from Sir R. G. Booth's estate near Sligo, the most spirited remonstrance against this infliction of paupers has been made by the Emigration Officer of this port, and measures have been taken to bring a bill before the Assembly next winter, with provisions similar to the English Poor Removal Act. This will enable the Commissioners of the Poor to send back to Ireland all paupers who are permanently chargeable here, to be supported by the parish in which they were born, as provided by the Irish Poor Law.

THE TORONTO GRAND JURY, in their presentment made to the Mayor's Court on the 1st inst., entered largely upon the state of Immigrants, and received the thanks of His Worship the Mayor for the pains they had taken in investigating the matter. They state that nearly 30,000 Immigrants had already passed the port of Toronto this year; that 1,100 patients were at that time in the Toronto Hospitals; and that about 200 widows and orphans were in an asylum humanely provided for them:—that a sum falling considerably short of £200, had been collected towards the support of that asylum, which is far short of what will be required to carry the institution through the winter;—that they could not countenance a proposal to tax the inhabitants of the city for the purpose of supporting pauper immigrants, who ought to have been maintained by their own parishes, in the mother-country;—and that the necessary funds ought legitimately to be supplied by the Home Government.—Honourable testimony is borne by the Grand Jury to the activity and energy of the Board of Health, and to the very efficient manner in which the duties devolving upon them have been discharged.

Wool.—Some day last week, we saw Mr. John Batters, merchant, Galt, proceeding to Cobourg, in charge of a large shipment of Wool, which he purchased from the farmers around Galt, and a few days thereafter, we saw him returning, having disposed of his wool to Mr. McKee, of Cobourg. We were glad to find that the cultivation of wool, in Dumfries and Waterloo, is becoming more general than formerly, and that Mr. Batters appeared satisfied with the price he got for his shipment. It would be to the advantage of the country if our farmers paid more attention than they do to the growth of wool, to supply our infant manufacturing establishments in all directions.—Colonist.

THE STEAMER MAGNET.—Capt. Sutherland's new Steamer visited Toronto on Tuesday last, making the trip from Niagara to Toronto in a little less than two hours and a half. The Magnet returned in the afternoon. The machinery of the boat is to undergo some slight alteration with the view of imparting still greater speed to her progress, when her regular trips will be commenced.—Kingston News.

THE CROPS.—From the "Newcastle Farmer," published at the Cobourg Star office.—The harvest in this district is fast approaching its close, and on the whole has been a favourable and certainly an early season. Our belief as far as relates to the wheat crop, is that it will be found much below an average when it comes to the scale; a great breadth of land which had been sown in the fall, was broken up again for spring grain, and many of the crops left to mature, will scarcely more than return their seed after paying for harvesting; the very best crops cannot (except in solitary instances) be called heavy, and the remainder are decidedly light, and the spring wheat will not be more than an average.

Barley and Oats seem to have done better than ordinary, and of the former a fair average may be expected; the latter, except in very unfavourable situations, a full crop.

Peas also seem to have done well, and are not infested so much with the grub as in some seasons, and the haulm has escaped the mildew.—The Potato will no doubt be found much freer from the disease than during the past two years, and from what we can learn such is the expectation formed in the British Isles, indeed throughout Europe generally.

STIPENDIARY MAGISTRATE.—The office of Stipendiary Magistrate for the city, created by the amended Act of Incorporation, has been filled by appointment of Dr. Robinson—a selection which meets with very general approval.—Kingston News. HURRICANE.—On Sunday, the 5th instant, the town of Cornwall, Upper Canada, was visited with so severe a storm as resembled one of those awful visitations which from time to time afflict the West Indies. Three houses were destroyed, 8 unroofed, 9 more or less injured, 11 outhouses were thrown down, 13 unroofed and many others injured.—A similar calamity, and on the same day, seems to have befallen the village of La Pigeonnière, at St. Edward; 57 buildings of various kinds are said to have been destroyed.—One girl was drowned by being blown into the canal at Cornwall; no loss of life was sustained at St. Edward.

MONTREAL, EMIGRANT HOSPITAL, POINT ST. CHARLES.—Number remaining last Saturday, 1006. Ledoijen's Disinfecting Fluid.—Having perused several interesting Parliamentary documents in relation to this fluid, any person at all conversant with chemistry may easily detect its composition, which would appear to be a solution of nitrate of lead. It may be easily prepared by decomposing a solution of acetate of lead by nitric acid, thus setting free acetic acid, the use of which as a disinfectant, so called, has been long known. It strikes us, however, that the name is a misnomer. A solution of nitrate of lead, one can readily imagine, can purify an apartment, &c., by decomposing the sulphuretted hydrogen, or hydro-sulphuret of ammonia existing in it; but it cannot be, with propriety, termed a disinfectant, unless it be shown, that infectious miasmata consist essentially of sulphuretted hydrogen, or its combination with ammonia, facts not yet demonstrated. The application of the nitrate of lead, however, to purifying purposes, is, we believe, original on the part of Mr. Ledoijen, and is really as deserving of attention, as it seems to be well calculated to ensure success in this particular.—Br. Am. Journal of Med. Science.

CONVEYANCE OF THE ENGLISH MAIL.—It is stated, upon the strength of a letter received from Montreal, that the English Mail, on the expiration of the present arrangement for its conveyance through the United States—that is next November—will be transmitted by land from Halifax to this Province—and by a steamer from Pictou as formerly, we may suppose, when the navigation opens. The project of a Halifax and Quebec Railroad will necessarily acquire an incalculable increase of importance by the state of things which has interrupted the late arrangement with the United States Post-Office.

ELEVATION OF GENERAL WOLFE.—The well known statue of this hero, which had of necessity disappeared from its accustomed place, during the erection of a very handsome cut-stone building upon the site of the old house at the corner of Palace Street, has assumed a more commanding position, one story higher than it used to stand formerly. We believe it to be an expensive piece in the deeds of the property that the General maintains his conspicuous position, and the citizens of Quebec, no doubt, gladly see him enjoy his honours in the new coat of scarlet which has been given to the old-fashioned uniform worn by him.

MEALS FOR CANADIAN MILITIA-MEN AND INDIAN WARRIORS.—By a General Order issued from the Adjutant General's Office, it is notified that it is Her Majesty's intention that the Medal struck in order to commemorate the success of the British Arms during the Wars commencing in 1793 and ending in 1814 should be conferred on the Loyal Canadian Militia and upon the Indian Warriors who co-operated with the British troops at Detroit, Chateaugay, and Chrysler's Farm. Applications are to be made through the Adjutant General's Office, and a Board of Officers will investigate the facts stated in them and make out lists of those entitled to the decoration.

A young man, of the name of James Wilson, seaman on board the Albion of Greenock, in this harbour, nephew of Mr. Wilson, King's Arms Inn, Montreal, lost his life on Friday last by the giving way of a staging on which he, with others, were engaged landing the cargo. One of the bales of goods fell upon him and, though medical aid was promptly procured, he died in a couple of hours.

GROSSE ISLE.—Number remaining in Hospital last Saturday, 1383.

Yesterday's Morning Chronicle enumerates 6 vessels at the Quarantine Station, bringing 2,069 passengers: deaths 56, sick 95.

The following is from Saturday's Mercury:—Our latest advices from Grosse Isle are up to yesterday. All the tents were struck some days since. On Tuesday last the churches were emptied of their sick, have been thoroughly cleansed and fumigated, and now revert to their original purposes. On Wednesday the old Passengers' Sheds were vacated (they had been converted into hospitals about the end of May); and the number of sick reduced to 1327; of whom 150 were convalescents, who have been sent to the east end of the island, where there have been established male and female convalescent wards. All the sick are now in hospital. The medical and hospital staff have been reduced. The services of Drs. McGrath, Sauvé and Jameson have been dispensed with, and Dr. Wallace will likewise be extended to the orderlies and nurses.

WEEKLY RETURN Of sick in the Marine and Emigrant Hospital, Quebec, from the 5th Sept., to the 11th Sept., 1847, inclusive.

Table with columns: Description, Remain, Since To, Dis- charged, Died, Re- maining. Rows for Men, Women, Children.

753 122 875 142 62 671 (Signed) JOHN B. SELLEY, Acting House-Surgeon.

THE COUNTY OF MEGANTIC Autumn Show for Cattle, Dairy Produce, and Farming Implements will be held in the Township of Leeds on the 6th and 7th of next month—at which time there will be a Ploughing Match. The Winter Show for Grain and other Produce, Agricultural and Domestic Manufactures will be held at Leeds, on the 19th of

January next. A long list of Premiums is advertised, together with the By-Laws of the Megantic Agricultural Society.

THE BOARD OF HEALTH, at their meeting on Wednesday last week, as we find it reported in the Mercury once more passed a Resolution, urging upon the City Authorities the necessity of establishing a Fever Hospital.—The City Council, at their meeting on the Friday following, passed the following Resolution with reference to the communication from the Board of Health then laid before them:—"That the necessity for a Board of Health having disappeared in consequence of the diminution of Typhus fever, this Council, in thanking the gentlemen composing the said Board, for the zeal and good-will displayed by them in the execution of their several duties, annuls and withdraws the authority conferred upon the Board of Health, which is by these presents abolished and dissolved, this Council paying the expenses incurred by the said Board of Health," [which expenses amount to £306 10. 7., of which £56 10. 7. remained to be paid by the City Council.] The Board of Health, having received this communication at their meeting last Monday, passed the following Resolutions:

"That the Board of Health has learnt with unfeigned thankfulness from the Council's resolution, that owing to the abatement of epidemic fever the further services of the Board are no longer required. This indication of more healthful times, the Board hopes will be a subject of congratulation to the sister cities of the Province, and be an encouragement to them also. The Board has indeed to deplore its want of power of being of greater usefulness to the citizens of Quebec, and particularly to its suffering and afflicted fellow countrymen on whom in the wise Providence of God this scourge has been permitted to fall with the heaviest weight. To these latter the Board is anxious to convey the assurance that throughout its administration it has sympathized in all their afflictions."

"That the Board, although it is of itself persuaded that contagious disease is still prevalent, is forced to discontinue its operations in conformity to the Council's resolution, but that it cannot dissolve itself until the By Law under which it has been constituted has been rescinded."

THE CITY COUNCIL have authorised the Road Committee to discontinue the sweeping and scraping, repairing footpaths and sewers in the streets of the city—the funds at their disposal for those works being actually expended.—They have ordered all illegal obstructions in the public streets to be removed.

THE WEATHER here in Quebec has been rainy since Sunday night; a good deal of harvesting remains to be done, and favourable weather is much desired.—This morning promises a return to dry weather.

THE QUEBEC GAS COMPANY are advertising for tenders for erecting the Gas Works on the foundation now building at the Palais;—also for application from parties wishing to have their houses or establishments lighted with Gas:—to be addressed to Mr. Peebles, Superintendent, 30, St. Ursule Street.

POINTE LEVI BAZAAR.—The Ladies under whose management the Bazaar was got up, deserve great praise, & the tasteful manner in which the rooms were decorated with every variety of articles both useful and ornamental, was very creditable to the zeal and industry manifested for the occasion. Through the politeness of Lieut. Colonel SPARK, the excellent Band of the 93rd Regiment were in attendance upon both days. The choice pieces of music selected and performed in a most judicious and agreeable manner, and the soldierly appearance of the corps seemed to elicit universal admiration; and judging from their happy countenances, they seemed to participate in the pleasures by which they were surrounded.—Com.

SHIPPING NEWS.—Arrived among others.

Inquire at Mr. Newton's, Builder, opposite to St. Patrick's Church.

BAZAAR.

IT is proposed by the undermentioned Ladies, a part of whom belong to the Committee of Management of the Male Orphan Asylum, to hold a Bazaar, (D. V.) at the National School House, at ONE o'clock, on WEDNESDAY, the 22nd, and THURSDAY, the 23rd of SEPTEMBER, in aid of the Funds of that Institution; and they hope also, if successful in their endeavours beyond what is requisite for this object, to be enabled to render some measure of assistance to the Parish, in forming an Establishment for the reception of Infirm Widows, together with such unprotected Female Children as, not being strictly Orphans, and thence not admissible into the Female Orphan Asylum, are now chargeable to the Cathedral Poor-fund.

As for other similar objects, they request all their kind friends to assist them in this labour of love, and to remember, that very small exertions on the part of many will enable them to attain their object—and at the season which is here proposed to have their Sales which they trust will be annual, they hope for particular assistance from charitable purchasers among their friends who do not always reside at Quebec, and therefore have not an opportunity of being present at the Annual Bazaar, which is held in the month of April, for the Female Orphan Asylum.

The Ladies who are to hold the Tables, and who request all willing workers to help them, as they have ability to do so, are—

- Mrs. ASHWORTH, Mrs. MACKIE, BURNETT, C. MONTMARTRE, CAMPBELL, MOUNTAIN, CURRY, Miss GEORGE, H. FORSYTH, KERR, J. B. FORSYTH, PIKE. Admission—1s. 3d. Children half price. Sept. 9th, 1847.

PERSONS who are willing to receive and to board Orphans or the destitute children of Immigrants are requested to apply to the Rev. G. MACKIE, D. D., 13, St. Ursule Street.
