

EJE TRANS-LITE INC.

10 Battery Road
St. John's, Newfoundland
A1A 1A4
Canada

Tel: (709) 722-3772

Fax: (709) 722-3442

EJE Trans-lite is primarily a design and distribution company offering its own products to the marine and defense industry. EJE Trans-Lite Inc. was incorporated in 1988 to complete Research and Development on a Portable Helicopter Landing Lighting System and marine safety lights to be manufactured in house. For economic reasons, the company has changed its policy to manufacture in house and now utilizes the expertise of Newtech Instruments Ltd. in St. John's.

EJE Trans-lite's mandate is to introduce and market a diversified product range of emergency lighting products to the marine, aviation and military sectors of industry. The company will utilize its technology in other non-specific products as they evolve.

The company has an active R & D Program that is presently working in unison with the Engineering and Scientific community both provincially and nationally. Most recently the company has been working with Boeing Missile Systems in Winnipeg, Manitoba to provide a visual means of tracking rocket propelled Target Drones used by the military.

To date the company has provided products to the Canadian Navy, Canadian Coast Guard, U.S. Military Air Sea Lift Commands, a variety of international Cruise Lines and the commercial shipping industry.

Mr. Paul Edison
