Virginia Coal were the outstanding features.

United States Steel fluctuated within fractional limits, closing at a slight net gain. Rails were irregular, coalers, however, showing a firm trend. Shippings lost some of their recent strength, altho United Fruit held its 2-point rise. Sales amounted to 235,000 shares.

General news of the day included the January statement of the United States Steel Corporation, which showed an increase of not quite 100,000 tons in unfilled orders over the preceding month.

A very moderate reduction in actual loans by the banks falled to offset the recent large expansion of that item, but members of the federal reserve made up almost all of last week's loss to that institution and excess reserves increased by about \$27,000,000.

New low records were made by Liberty first 4's at 36.26 and second 4's at 95.10. The general bond list was nesitant on light offerings. Sales, par value, aggregated \$2,925,000.

United States bonds, old issues, were unchanged on call during the week.

Montreal, Feb. 9.—Dealers here were dubious that the placing of cattle on the free list, as decided by the cabinet yesterday, would reduce the price of meat. The duty is 33 1-2 per cent., but the importation of cattle is neglically but the importation of cattle is neglically but the orders on December 31.

#### **NEW YORK BANKS**

New York, N. Y., Feb. 9,—The actual condition of clearing house banks and trust companies for the week shows that they hold \$9,305,230 reserve in excess of legal requirements. This is an increase of \$26,997,980 from last week

last week.

The statement follows: Loans, discounts, etc., decrease \$15,954,000; cash in own vaults, members federal reserve banks, decrease \$619,000; reserve in federal reserve banks of member banks, increase \$23,383,000; reserve in own vaults, state banks and trust commanies increase \$251,000; reserve companies, increase \$251,000; reserve in depositaries, state banks and trust apanies increase \$506,000; net decompanies increase \$506,000; net de-mand deposits, increase \$16,019,000; net time deposits, nerease \$842,000; circulation, increase \$81,000; aggregate reserve, \$582,680,000; excess reserve, \$89,305,280, increase \$26,997,980. Summary of state banks and trust companies in Greater New York not included in clearing house statement: Loans discounts, etc., Increase \$8.

Loans, discounts, etc. Increase \$8,7457.70; specie, increase, \$496,400; legal tenders, decrease \$807,800; total deposits, increase \$16,726,700; banks' cash in vaults, \$12,888,200. Trust

### PORPHYRY MINE'S **VALUES INCREASE**

Results at Three-Hundred-Foot-Level Are Surpassing Expectations.

sults gained at the 170-foot and 300foot levels of the Kirkland Porphyry Gold Mines indicate that the property "has successfully passed the test." He With the exception of Managing

Director Cecil, the results recorded on the 170-foot level were beyond expectations, but even this experienced mining man was surprised when lateral work was in progress on the 300-foot level. After the first round of shots were sent in on this level I received this message from Mr. Cecil: "Orr vein at 300 shows much free gold." About a week has passed since I received this message, and last night over the long distance telephone Mr. Cecil made the following important statement: "Our drillers have already pierced twenty-five feet of a very heavily mineralized ore body, and the face of the workings shows we are not anywhere near the hanging wall of this vein system. The enriched section of this vein, which lies between the mud seams, is eighteen feet wide and fine grained gold showings are easily seen in the ore at the 300-foot level. I am more confident than ever when we reach a depth of 500 K. P. will have the largest high grade ore body in the Kirkland Lake camp." on the 170-foot level were beyond ex-

and between the mud seams the entiched section of the Orr, vein showed a width of about 11 feet. Assays 100 taken from this particular section ranged from \$63.22 to over \$90 to the ton, and a conservative estimate covering the entire width opened up of above \$20 to the ton. As I have previously stated in these columns, even if this vein width and average values were maintained to a depth of 500 feet there would be just reason for classifying K.P. a gold mine beyond question. Instead, however, further underground development has proven that the enriched section of the Orr vein on the Wetthanfer property, being operated by Kirkland Porphyry 100 mas increased about 50 per cent. In 130 feet of sinking, and that findications at the low level are a further widening our may confidently be expected with the reachings of still greater depths.

Careful sampling of this vein systems of are as opened has already been completed under the watchful eye of Manager Ceoil, and assays are now being run. Owing to the fact that the tellurides, as well as free gold the tellurides are much heavier on the 300-foot level than was the case on the 170, I am confident assay returns will show the Orr vein is richer at depth.

GRAIN AT WINNIPEG

GRAIN AT WINNIPEG

The development of the Davidson property has been a notable achievement.

CALGARY GRAIN MARKET. Calgary, Feb. 9.—One car of cattle topped the market at \$10.75 today. Three leads of hogs brought \$18.50; six lambs brought \$16.

COAL SCARCITY IN KINGSTON.

Special to The Toronto World.

Special to The Toronto World.

Kingston, Feb. 10.—Mayor Hughes and Fuel Controller Nickle are conferring with the board of education relative to the closing of the schools to help out the fuel situation. The schools have on hand 40 tons of hard controller has filled 1200 orders for coal in quarter and half tons lots, and the supply is going fast and not likely to last many more days.

The different militia units are using an enormous amount of fuel and have been given strict orders to curtail their supply.

### Davidson Gold Mines

We think that the present is the proper time to buy Davidson Gold Mines stock. The price of the issue is relatively low at the moment, and we are informed that the property will go en a producing basis before the end of this month.

The attractiveness of the Davidson as a speculative investment is exceptional; because of the extensive bodies of good milling ore opened up and ready for the mill, because of the relatively small espitalization of the company, because the company is entirely free of debt and because the mine is efficiently managed. We believe that your profits will be larger if you wire us your order for Davidson stock at once.
