The decorations are not peculiar to any one street. The Bowery showed a profusion of flags and banners, and all the great avenues vied with each other in the display. In the resident districts, from Fifth avenue to Cherry-street, there were flags and flags. It was a lesson in patriotism to walk through the streets of New York city today.

Amid a discord of shricking whistles which has never before been equalled here and with the great acclamations of the and with the great acciamations of the multitude along the Battery wall, the flagship New York passed the Battery at 10.45 o'clock. It seemed as if every possible contrivance for the making of noise had started up at once in one tremendous volume of sound. Whistles tooted, men howled themselves hoarse, fog horns, bells and every conceivable kind of an ear-splitting instrument joined in. There was no salute by the forts, but when the New York passed Governor's Island the same guns that belched forth at Santiago sounded again. Then the Brooklyn, the flagship of Rear Admiral Schley, saluted. And the multitude cheered and cheered. Each warship, as she passed Governor's Island, gave the salute, but in the din that ensued it

Ex-Premier Turner has given to The Victoria Colonist, for publication, a statement as to a communication which passed beas to a communication which passed between him, as Premier, and the Lieut.-Governor. The News-Advertiser says: "It is a matter of regret that Mr. Turner should have been led to commit such a piece of folly, and to have violated that absolute secrecy which is imposed on him as to intercourse between the representative of the Crown and his chief official adviser. The new Government will give the fullest details to the Legislature when it meets."

The New Pincer Mines.

The new Provincial Government has not wasted any time in taking steps to obtain definite information with regard to the exact situation of the new placer gold fields on Pike River. Most people think and hope that this new gold district is in British Columbia, but men who have lately returned from the North say that the new eldorado is in the Northwest Territories and that Inspector Strickland is issuing licenses in accordance with that theory.

Deputations Already.

Already the new Government has had its experience of deputations. A deputation appointed by the Vistoria Board of Trade waited upon Hon. Mr. Semiin, the Premier, and urged upon him the importance of appointing a British Columbia representative at the Quebec Conference. The subjects affecting the interests of this province, included sealing, fisheries, lead mining, etc., and the deputation was assured by the Premier that the Government had the subject under consideration, but he was not yet prepared to give any definite answer to the request that a representative should be appared to give any definite answer to the request that a representative should be appared to give any definite answer to the request that a representative should be appared to give any definite answer to the request that a representative should be appared to give any definite answer to the request that a representative should be appared to give any definite answer to the request that a representative should be appared to give any definite answer to the replanation. The story further goods that inspector Hughes practically controlled the commissioners; that the hotelkeepers of the town, combining against the North American, got up this purse—and, "a man from St. Catharines" was found to approach the inspector.

This is a sample of tales that are heard on every side.
