Talks With Screen-Struck Girls

By Beatriz Michelena

(Copyrighted 1916, by Beatriz Michelena)

By Beatriz Michelena. (Copyrighted June, 1916, by B. Michelena.)

"Please," says the girl who writes me from Boise, Idaho, "do not think me foolish because I want to be a motion picture actress."

A good many other girls have addressed me with practically the same plea, and so I am taking this opportunity of assuring them all that I think none of them foolish—in fact that I think no one foolish for having a laudable ambition.

Of course behind this desire to become a motion picture actress there may be foolish or unworthy motives. It may all come from the delusion that there is much money to be made in the profession at little expenditure in honest work; or it may be a false glamor that makes appeal. I am sure that some girls wish to become screen actresses merely to satisfy a silly vanity. They are the sort that dote on being noticed and are forever dressing and flouncing and strutting in a manner most apt to make them conspicuous.

Worse still, there are some girls who have looked to pictures as an open gateway to bright lights and a so-called gaiety of life that is not altogether to be safely scrutinized.

These girls, however, are not seriously ambitious to become motion picture actresses. They may think they are, but as a matter of fact they merely regard the profession as a means to a less worthy end. Although they are foolish, this is quite apart from any desire to become a screen actress.

The truly ambitious girl is the one that regards picture acting as a calling well worth her best endeavors. With her it is not the means to something else, but the end, and of itself, toward which her best efforts are directed.

She sees that pictures embody a great art and is willing to labor and sacrifice that she may make some contribution to it, and it is this contribution and not its reward that counts first with her. At the casual glance of a too unappreciative world she may have failed. Her sacrifices may seem to have been for naught and her contributions misdirected. However, in so far as her ambition was laudable and she true to her ideal, she was not foolish. It does not always take fame nor recognized success to prove wisdom.
