HOPKINS'
DOUBLE-ACTING

ANTI-FREEZING — FORCE — PUMP

Simple in Construction. Durable not Liable
to get out of order, and will not Freeze.

All these requirements are fully met
in this Pump.

No Trouble or Annoyance, Winter or Summer!

GEO. MANDERLINE, Esq.,

MAYOR'S OFFICE, Chatham, Ont., July 27, 1880.

DEAR SIR,—Having had one of Hopkins' Anti-Freezing Force Pumps in use for the past six months, I have much pleasure in certifying to you as to its efficiency. It is easy to work, does not get out of order, and for lawn or garden sprinkling it is invaluable. As a protection against fire, with 50 to 100 feet of hose it would be of great use, as water can be thrown 40 to 50 ft. with ease.—I remain, yours,

WM. NORTHWOOD, Mayor.

Thousands of these Pumps are already in general use in different parts of the United States and Canada, and they give unequalled satisfaction.

Made only by the undersigned in the County of Kent.

Shop—William Street,

G. A. MANDERLINE, Box 1138,
CHATHAM.
