

The Boys Brigade has done much toward educating an "anti-cigarette" sentiment among their companions; talks on the subject were given to the young people at the Chestnut St. Mission in connection with the Central.

The Northern Union reports having done good work, Miss Mier, Superintendent has distributed 1,000 pages of literature.

Central, distributed 1,600 pages of literature, gave several talks, approached the Schools Council to get the use of schools for leagues.

Gordon had a Superintendent appointed but did not send in her report.

The other Unions have had no Superintendent.

Parkdale has appointed one now, I hope we will hear good reports from them next year.

Your Superintendent would like to recommend the Dominion Union to order an Anti-Cigarette Button to be made and placed in our Literature Depository for general use. I should like to see a demand created for such a button. We all know the value of the button or badge in any organization, and more especially with boys, it gives them a standing among their fellows. They show their colors and their example is followed by others. I have been asked repeatedly by boys last winter. Will you not get us a button to wear?

JULIA S. MASON,
Superintendent.

WORK AMONG COLORED PEOPLE.

The Central Union reports having visited and distributed literature among the colored people with the purpose of interesting them in W.C.T.U. work, and if possible organizing a Union of colored women. A few of these women express a willingness to become members of our organization, but sufficient interest has not yet been manifested to warrant the forming of a Union. There are a few colored boys in W.C.T.U. Boys Brigade.

S. V. SPENCE,
Superintendent.

FIRE HALLS AND SAILORS.

Literature distributed :

4,100 leaflets.

293 papers.

15 magazines.

MRS. DR. EMORY,
Superintendent.
