TO AID PURE MILK SUPPLY. Milk or cream offered at cut rates may not be so cheap as appears. Realizing that no public facilities exist here for such work, which has a high educational value and should accordingly be of value to themselves as well as to those served, Pacific Dairies, Limited, will test for quality, free of all charges, any samples of milk or cream brought to them at their modern plant, 678 Main street, in plain containers by interested users of such products. A wingless full taken from a well-shaken can or bottle is an ample quantity. Parties bringing samples are invited to remain and observe the work of testing and are assured that no advance information is sought for or desired. A phone call to 2484 Main 2924 or 8468 will arrange an appointment, thus possibly saving time. T.F.

DO YOUR HENS PAY? A convenient and simple form (to help tell whether the flock is paying or not), has been worked out by the Poultry Division, Experimental Farm, Ottawa. This form, which may be hung up in the poultry house or the kitchen, provides space for marking down each day the number of eggs laid. It also indicates space for recording the number of eggs and poultry sold or eaten, and space to note whether bought or taken from the farm, and columns for entering cash receipts, expenditures and balances.

The form is a convenient place to keep your poultry account each month, and may be had on application to the Poultry Division, Experimental Farm, Ottawa. Free of cost, providing a duplicate copy is sent to the Poultry Division each month.

WAR MEDALS. May Introduce Bills in U. S. Congress for New Decorations. American Field Headquarters, France, Nov. 28—One result of the recent visit of American congressmen to the front may be legislation granting a new medal to American soldiers for deeds of bravery.

It was reported today that several of the representatives had announced their intention to introduce bills at the December session of congress providing for two new military decorations.

There was no intention on their part to displace the present congressional medal of honor as the highest of all awards for gallantry in action or of conspicuous services in time of war.

But the congressmen who favor the additional awards believe, and show by two new medals for recognition of expeditionary army heroes—medals which could be awarded on the field, and the British Distinguished Service Medal and the Military Cross.

As it stands at present, American soldiers' bravery can be recognized only by award of a departmental medal, or after passage of a special act of congress, by the medal of honor.

Legislation creating medals of equal value to the British, French, Italian and other Allied government awards would still further serve to put the American soldier in the comradeship of the men he is to be fighting with henceforth.

BORDER TOWNS DRY. Calais, Nov. 24—Co-operation on the part of Maine and New Brunswick which went into effect a few weeks ago has resulted in a really, truly drought along the borders of the St. Croix. In former years when St. Stephen went on the water wagon it was always possible for the thirsty to find relief in Calais, and whenever the Maine officials determined to dry things on this side of the line, usually for political effect, there was always something to be had across the New Brunswick border. But now, alas, all this has been changed. The drastic prohibition law of New Brunswick which went into effect a few weeks ago has resulted in the closing of all the bars across the line and the town is dry indeed. There is nothing ferocious in the enforcement over there and the man on the job, Inspector Moore, is and has always been a consistent foe to king alcohol. The new law became effective on Oct. 20, and not a single article for intoxication has been since that date.

KALEDINES SAID TO BE THE MASTER OF THE SITUATION. London Post's Petrograd Correspondent Hints at Old Friends of Allies Emerging on Top. London, Nov. 27.—The Russian revolutionists have made a "ghastly failure" of their attempt at administration, according to the Petrograd correspondent of the Morning Post, writing under date of Saturday. He adds: "But behind or beyond all this apparently hopeless chaos, the forces which made Russia an empire are not idle and those who know Russian history understand perfectly well how matters will end."

AT BIBLE STUDENTS' HALL. Last Sunday afternoon the speaker at Bible Students' hall delivered a sermon with "The Mills of God," for his subject. He traced the ceaseless operations of the law of cause and effect, in physical, in national and in individual affairs. The unseen yet mighty, tireless, resistless currents of Nemesis or retribution move on beneath the surface and spring into open view revealed power often when least expected. This was graphically illustrated by the legend of "Bishop Hatto and the Rats."
