ALREADY SUFFERING FROM FROST BITES

Appeal For Warmer Clothing For Italian Troops Fighting in the Snow-clad Alps

Rome, Aug. 19.—Even at this season of the year there are many of the Italian soldiers suffering from frost bites, and the gangrene which follows. These cases are among the men serving as outposts on mountain summits, some of them 12,000 feet above sea level. Where they stand practically motionless for hours at a time. The danger of freezing will increase with the approaching winter, and appeals have been made to all classes besides factories to hasten the preparation of warmer garments of every description, for these exposed territories. By private initiative 5,000 warm garments are being made daily.

ANOTHER DEATH IN 26TH

W. F. Peacock, of the 26th battalion, gives an interesting account of camp life in a letter to his mother in Little River. He referred also to the inspection of the Canadians by Premier Borden and General Sam Hughes.

"There are many deaths in camp here," he said. "One was killed by lightning while on the march, another dropped out of the line for a rest, and fifteen minutes after he went back, he dropped dead."

New Allies For Enemy?

It is rumored in Montreal that Sweden and Switzerland may soon enter the war on the side of Germany and Austria.

AN ADDRESS TO THE HYPHENS

An American Protest Against German Threats

IS U. S. TO BE KAISERED?

For Those Who Have Become American Citizens and yet Have Not Dropped Allegiance to Native Land

The following is a letter to the New York Sun printed from that paper of August 15th:

Sir—We are threatened with the "German vote." It is being thundered at us from the rostrum and from various German-American publications. From these sources Americans are deluged with adverse criticism and presumptuous advice.

If I were permitted to address a few remarks to the ardent advocates of German militarism who are conducting the anti-American movement they would be somewhat as follows:

To the anti-American Germans: Do you remember your first German? It was to escape a narrow, restricted existence under the domineering, swabbing rule of an oppressive military aristocracy.

You were tired of being clowned off the sidewalks by superior young beings in uniform and upturned moustaches. You were so unhappy that neither your position for German kilt nor the tie of blood could keep you there.

You swore allegiance to our flag and institutions. You were warmly welcomed. You shared in our government. Your new freedom was glorious. You loved it, you lived in it, and you prospered in it.

And now you are preparing to smite the hand that succored you and free the land that you were starting for freedom and a fair chance in life. Now you have nothing but ridicule and contempt for Uncle Sam.

Your heart is no longer in America. It is over the sea in the land of blood and iron—especially blood.

The ladies and his military advisers declared that the blood of millions should be shed rather than that Austria should be allowed to remain an independent state.

At the word of your master, then, millions of innocent non-combatant civilians were reduced to poverty, and the work of your beloved emperor is not yet finished. He has shed the blood of millions more and he has his hands if he has his imperial war.

You have not been American citizens long enough to breed out this spirit of revenge which is the curse of your race. You cannot resist the call of military glory. You are a slave to the military in Europe to the feet of the German Emperor.

You demand that Americans applaud every barbarous, murderous act committed by Germany in this fight against her. Your Fatherland has violated our rights, destroyed our property, killed our innocent non-combatant citizens. It ignores our protests and denies our separation. These acts Germany approves when they are committed.

Your abhorred nation is to be used as an American national defense that Germany may not be hampered "when the time comes" in her attack on us. Your proposals do not to America with ballots what she is trying to do to Europe.

Our government is to be Kaiserized. Your success in intimidating a few big newspaper men and cities where the German element is large has befogged your judgment. Germany's entrance into the politics of this country is an example of the "German spirit" that is to dominate the world. It is the same domineering, brutal and barbaric spirit that prompted the rape of Belgium and that induced the leaders of your movement to enter the Peace pavilion at the Panama Pacific Exposition a few days ago with a companion of their friends and was German flag.

There are millions of disenchanted in this country of Germany's enemies, the Allies. Are they demanding that America go to war to help them? Are they organizing to oppose you Germans who are undertaking to dictate the American foreign policy? Unlike you, they are going about their business as American citizens, and unlike you, they will vote as American citizens.

Your absurd propaganda is doing nothing more than to seriously offend loyal Americans. You represent but a small portion of the so-called German-American vote. Get the notion out of your head that American conscience and sense of justice is in your keeping; that you alone possess the wisdom to guide our country in this crisis. Resume your allegiance to the Stars and Stripes and be quiet, for you will not be permitted to influence in the slightest degree the foreign policy of the American government. Otherwise, vamoose.

Amni Wright.

ANOTHER PROTEST

42 Paradise Row, St. John, N. B., Aug. 18, 1915.

To the Editor of the Times:

Sir—In reading your valuable paper this evening I had a protest against the insufferable noise of the cars of the St. John Street Railway.

Writing as a resident of Paradise row, where the "shrieks" from many curves make rest or study almost impossible, I heartily endorse every word of "I Kant Sleep."

I would add that I and other members of my family have made personal appeals to the management of the street railway which have been totally ineffective. Thanking you, I remain,

Very Sincerely Yours,
H. ARCHER COLLINS
Priest-in-Charge,

until September when he will take another course at Halifax previous to joining his regiment at Valcartier. For several years past Lieut. Collier was in newspaper work in Montreal, having been connected with the editorial staff of the Gazette and the Daily Mail.

Now Major Bruce.

Captain Bruce, who left Amherst several months ago to rejoin the Essex forces with which he had formerly been connected, has won promotion and is now a Major. Some time he was on duty in the Orneys and was attached to the Royal Marines. Presumably he is still connected with the same force.

Dr. M. A. McAuley, of Halifax, has been appointed as army surgeon and will be attached to some corps at present at the front. Dr. McAuley, who is one of the ablest physicians and surgeons in Halifax, will likely leave Halifax with the Sydney 5th Battery.

Eager to Enlist

Sydney, Aug. 19.—The interest of the young people of Sydney in the Field Artillery was never demonstrated as keenly as it has been during the last week, when it became known that was the intention of the militia department to accept the 17th Sydney Field Battery for overseas service. Since the announcement that Major W. Crowe had been appointed to the temporary command of this battery upwards of fifty young men have volunteered for the battery and are practically all trained men. The grand record made by the Sydney 5th Battery at the police station until this morning when she was enrolled with the new battery.

Warily Lost His Leg

Writing from Reading, England, where he is in hospital, to his sister, Miss Jennie Andrews, 48 Erin street, Gunner Harry Andrews, who left here with the first contingent, says he is improving after his wounds. When they shipped me to England," he said, "they thought they would have to cut my leg off partly, but now that they have got the pieces of bone put back together, it will be a long time before it will entirely heal. They have cut my leg in four places. One of the spots is healing where they took out the piece of bone that they put in on the other side and ran a rubber tube through. It is going to be some fun when they start to pull it out again, but of course I ought to be thankful for I came pretty near not seeing England or Canada again. I have the piece of shell which struck me and when I get it I shall send it to you as a souvenir."

AFTER TWENTY-THREE YEARS

After an absence of twenty-three years, Nicholas J. Hatchford is visiting in the city, as the guest of his brother, R. P. Hatchford, 48 Peters street. He is being warmly welcomed by old friends with whom he was popular years ago. Mr. Hatchford is accompanied by his daughter, Miss Marguerite. He is now comfortably located in Dorchester, Mass., where he is interested in the carriage making and automobile business, devoting more to the latter, because of the greater vogue. Naturally, after having been away from his home city so long, Mr. Hatchford sees many changes of interest, and has noted many improvements. He has been particularly happy in renewing old acquaintances about the city, by whom he has been well received, especially by former associates in St. Joseph's Y. M. S., of which he was an active member some twenty-five years ago.

A Diamond of Good Color May Have a "Fish Eye"

Why is it that a Diamond of good color and free from flaws may not be so brilliant as a stone with a flaw and not so white in color?

The stone is cut too shallow.

Proper cutting has much to do with Diamond brilliancy, which quality some judges place first in desirability. A "fish eye" results when the outlet is visible through the table.

The advantage of buying Diamonds at Sharpe's is that you are told the exact condition of each stone and have a large assortment to select from, our stock being known as one of the "cleanest" in Canada, "clean" assuring free from poor quality stones.
