POPE YIELDS TO
DOCTORS' ADVICE

Now Consents to Rise "Late"
Between 5.30 and 6 O'Clock

MEALS SLIGHTLY ALTERED

More Nourishment Taken at Breakfast
—His Holiness Remarkably Active
For One Nearly Eighty Years of Age

(Special Cable to the New York Times and Montreal Gazette.)

Rome, Feb. 7.—The frequent reports that the Pope is indisposed have induced your correspondent to make an inquiry as to the real condition and present mode of life of His Holiness. He will be 80 years of age on June 2, 1915, and he is nearly eleven years older than when he was elected Pope. Therefore his intimates and doctors have insisted on his using certain precautions, which are quite justifiable for a man even twenty years younger. He has yielded to their reasonable suggestions, and so he does not now get up at 4.30 in the morning, as

he had always done in summer and winter, but stays in bed until "late" as he calls it, rising from 5.30 to 6.

Contrary to the custom observed with his aged predecessor, he requires no assistance in dressing, and shortly after rising celebrates mass in his private chapel and hears another celebrated by one of his secretaries, generally Mgr. Brassani.

Breakfast follows, not as light as in the past when he used to have nothing but a cup of black coffee, he having consented to add to it the yolk of an egg, beaten up with sugar and a roll.

After this His Holiness leaves his private apartment, and without using the elevator, descends to the library, where he receives first Cardinal Merry del Val, who makes a report on the political affairs of the Holy See, which he is warned by the doctors to make as short as possible. These instructions he finds difficult to follow, as Pius X. only a few shewings were burned.

Merchandise and Service
Everything you buy can be better than you expect, Merchandise and Service.

Don't make the mistake of thinking you are buying just merchandise when you buy a pair of glasses. The service you buy makes your glasses either valuable or valueless. And whether or not you get the worth of your money depends on the service you get.

The essentials to satisfactory eye-glass service are a careful, scientific examination of your eyes, and then a pair of glasses made up to properly correct the defects in your eyes and to fit your face.

We are fully equipped to give you this kind of service. Come in and talk the matter over with us. Have your eyes examined early in the morning to get the best results.

BANK PRESIDENT
TAKES THE BLAME

Large Misappropriation From The Mercantile in Memphis—Auditor Makes Discovery

Memphis, Tenn., Feb. 11.—Ten directors of the Mercantile Bank, one of the most important financial institutions in the city, filed a petition in Chancery Court here charging that the bank was insolvent as the result of the alleged misappropriation of more than \$750,000 by C. Hunter Raine, president of the institution.

In the petition Raine was held solely responsible for the apparent shortage, approximately \$788,804, which it is charged he obtained "by a system of handling its drafts, property, and exchange in such a way as to deceive the directors and to conceal his manipulations," the total amount of which, it was alleged, he lost in speculation.

The petition places the liabilities of the bank at approximately \$2,196,884, with assets of \$1,408,089. In a published statement Jan. 9, liabilities were given as \$2,438,197.

At that time the total deposits were \$1,891,109, of which \$844,282 were savings accounts. The bank is capitalized at \$800,000 and has a surplus of \$100,000.

Resources, loans and discounts at the time of the statement amounted to \$1,590,695, actual cash on hand was \$482,784; sums due from other banks amounted to \$483,165; cash items in transit amounted to \$187,778. These amounts, with other items, balanced the amount given as liabilities.

The alleged discrepancy was discovered by a representative of a New York correspondent of the bank, who was sent to Memphis to audit the books of the Mercantile Bank when loans requested were found to be out of proportion to the amounts usually asked for at this season of the year. His report to the directors, which brought the situation to a climax, was the first intimation that the bank was not in a prosperous condition, according to the directors.

It is stated that President Raine, who is a resident of New York, is a man of considerable wealth and is a member of the New York Stock Exchange.

attended the meeting, absolved all of the officers and directors of the bank of implication in the alleged shortage, and tendered his personal estate, which he valued at \$800,000 to the bank.

The bank's directors include some of the wealthiest men in Memphis.

Mr. Raine entered the bank 30 years ago as a clerk and became president in 1908. At one time he was owner of a large string of trotting horses.

Mr. Raine was appointed receiver for the bank in accordance with a chancery bill filed by attorneys representing the bank's directors. Investigation of the condition of the bank's resources was started immediately.

Free Advice About Your Manly Strength

TO MY READER: Whether or not you lack an abundant vigor, here is a free offer which will surely interest you, and through which you may easily profit from now on to the end of a ripe, healthy, advanced age. I have compiled a little treatise for self help (book form) which I am pleased to send absolutely free by mail in a perfectly plain, sealed envelope to any man anywhere who writes for it. Over a million copies have already been thus distributed to those who write for them from all over the world. There is no obligation whatever involved in this offer, nothing which you are required to buy, nothing which you are required to pay for in any way, either now or in the future. It is just simply an out-and-out free proposal.

I have endeavored to give a straightforward talk to men, young and elderly, single and married, a concise compendium for self-reference, a perfectly plain discourse upon those important, personal matters relating to vital strength, the preservation of vitality, its possible self restoration, its legitimate uses and its wanton abuses. Every man should be in possession of this book. One part describes a little drugless mechanical vitalizer, which I make and distribute, but whether or not you wish to use one of these vitalizers is for you to determine.

However, aside from anything it contains in reference to my vitalizer, the book should be read by all for its own real worth. Therefore, please use free coupon below.

SANDEN, Author. Reading the whole world is today alive to the importance of a better general understanding of sex hygiene. The much discussed science of eugenics is teaching the great mass of people that strong, healthy, rugged parents beget equally sturdy children. Manhood, no matter where or in what condition of life we find it, is the single power that most fascinates both men and women. The one who radiates this manly influence, this result of a vigorous, sturdy nerve force, is the one who forges to the front, while weaker people stand aside.

It is my opinion that any man may hope for a complete restoration of his manhood and vigor if he but make up his mind that he WILL conquer him- 9 to 6.

Let Me Send You This Book FREE
If you live too far to call, or if you cannot call, please fill in the coupon below and send it to me. You will receive free, sealed, by return mail, my 72-page illustrated book, containing 8,000 words, a complete compendium of useful information for men young or elderly, single or married, who want the truth about the subject of vital strength, its preservation, its possible self-restoration and its legitimate uses and wanton abuses. You get it all, free.

self. Of course I do not include the man of extreme old age, or the one who is incurably diseased. Lost vitality is not, according to my theory, an organic disease. It is more a sick condition of the mind and the nerves and a lowered state of the whole body, all combined. My free book tells you just what you may do.

The vitalizer referred to above, which I make and distribute, is a little appliance that men who desire to restore lost vitality are using everywhere today. The book in one part fully describes it. You wear this vitalizer comfortably upon your body all night. It weighs but a few ounces, and pumps a great, gentle stream of FORCE or VITALITY into your blood, your nerves, your muscles and organs, while you sleep.
