## Wall Street Notes

New York, Aug. 25.—Americans in London irregular, mostly 1-8 to 5-8 higher.

London settlement tomorrow.

Foreign situation as regards money better.

In Berlin the army of unemployed is larger than at any time in the last twenty-five years.

Seven cotton mills that have been shut down fifteen weeks start today, in Fall River.

Washington says that the house will heed the bankers on the currency bill.

## THE BUILDING LAW

To the Editor:—

The Telegraph this morning publishes a letter signed by F. Hyatt, in which he states that it is only natural for carpenters to advocate the building of wooden houses, and that it is for the public to decide whether we will build of wood, stone or brick. By the public, I believe, Mr. Hyatt means particularly the working class of this community. I would ask, Mr. Editor, in the event of these houses being built of stone or brick, under present conditions (the cost of land and the building materials mentioned) what chance the average worker has of occupying one of these proposed two storey houses. Mr. Hyatt also suggests forcing the street railway to extend its lines into the suburbs. Would that help the situation any from the workman's viewpoint? Writers on this subject have compared Brantford, Ont., Amherst, N. S., and other cities in arguing for the enforcing of this law. I would appreciate an answer to the following question from any of these gentlemen: In any of the cities mentioned, do you have to pay from \$800 to \$500 for a piece of land in the suburbs 25 ft. x 50 ft. which means that in order to build a man must purchase two lots as anyone who wants to be reasonable knows you cannot build a dwelling house on a lot 25 ft. x 50 ft. From a workman's viewpoint, I see nothing but a further boost of rents if this law passes.

The self-contained cottage with garden plot, front and back, is no doubt the ideal condition, but, Mr. Editor, under present conditions (the cost of land, building materials, etc.) it is in the writer's opinion a far-off dream.

For the life of me I cannot see where crowding two storey houses on 25 ft. x 50 ft. lots is going to lessen the risk of loss of life by fire, or prevent small conditions arising. We may be told that this condition will not arise. Let me point out, we are told and have been told, something about fire walls, fire escapes, etc., in connection with the present building laws.

In conclusion I would ask every voter of the working class to consider the proposition from this viewpoint: Is it going to be profitable to build for rent, at a price to suit your pocket-book, a two storey house of either wood, stone or brick on land in the city of St. John or suburbs under present conditions?

Yours, etc.,

JAMES L. SUGRUE.

St. John, N. B., Aug. 25.

Editor Times:—

Sir:—I was very much surprised to see the letter in your issue on Saturday from James Sugrue, who claims the three storey tenement is no business of the working men whether it is built or not. If it is of such small consequence, why does Mr. Sugrue rush with his letter to press at almost the last minute and tell the electors to leave well enough alone. The housing conditions in St. John are very bad, and I am very much surprised at Mr. Sugrue, being president of the Trades and Labor Council, and who is supposed to represent the working men, trying to turn the workmen from taking one step towards better housing conditions. In this great country with all the land at our disposal, there is no need for three storey wooden buildings, but every one should be able to have a house to themselves. The Trades and Labor Council passed a resolution endorsing the action of the city council in passing the bye law. Then why should Mr. Sugrue try to call down the secretary for giving their verdict to the public. Rather high-handed action, I think. In conclusion I hope the majority of the votes will be cast against the three-decker, as it is about the best step towards progress, we, as citizens, could take.

Yours truly,

ONE INTERESTED.

## LATE PERSONALS

Mrs. W. G. Dunlop and children will leave St. John on Wednesday evening to join Mr. Dunlop in Calgary where he has established himself in business.

A. G. Turney of Gagetown is at the Victoria today.

Rev. Dr. G. M. Campbell and Mrs. Campbell are at the Royal.

Captain Walsh, master-in-charge of the C. P. R., arrived in the city from Montreal today.

Talk now for senate vote on the tariff 10 by September 10 deferred.

The first drawing for one and one half millions of the steel fines for redemption November 1 at 110, will take place soon. That will gradually be a factor in the price of that issue.

Receptive appointed for Montana Cons. Gold Mining Company, a ten million corporation.

New Haven quarter ended June 30th, dec. \$2,200,000.

DOW JONES &amp; CO.

## IN MEXICO

Washington, Aug. 25.—Besides Great Britain, France and Japan, practically all the central and South American countries are lending their support to the efforts of the United States to bring about a peaceful settlement of the Mexican revolution.

Unless satisfactory overtures are made by the Huerta government before Tuesday President Wilson will deliver a message to both houses of congress, outlining the suggestions of the United States for the elimination of the Huerta government and the establishing of a legally constituted administration.

That the United States is backed by a world-wide sentiment in its peace policy is evidenced in diplomatic circles here. Tangible evidence of the attitude of France came yesterday in news despatches from Paris stating it was practically certain that President Poincare and Foreign Minister Pinchon would not receive Francisco De La Barra, appointed minister to France by Provisional President Huerta, and now en route to his post.

Great Britain's statement recently that the recognition of Huerta has been provisional, pending an election, taken together with expressions from Japan and France, all of which have formally recognized Huerta, are the only public manifestations of sympathy with the policy of the United States in opposition to Huerta, but in the quiet realm of diplomacy a greater pressure is being brought to bear upon the Huerta regime to yield to the American suggestions for peace.

## STREET RAILWAY LOOP TO TAKE IN ONE-MILE HOUSE AND KANE'S CORNER

A petition signed by Joseph A. Lively and about 200 others asking that the common council use its influence with the St. John Railway Company to have the latter's lines extended from Marsh bridge to the One Mile House and thence across to Kane's corner, thus forming a loop with the newly constructed extension, was presented to Mayor Frink this morning and will be dealt with at the meeting of the council this afternoon.

## Fred Amundson of North Brookfield acts as a weather prophet for his neighbors, being able to foretell a storm by the peculiar feeling which comes over him. He inherits the ability from his father, and says he has used it reliably for several years.

## TOO LATE FOR CLASSIFICATION
