The Secret of 15 years of Popularity

For years people have speculated as to just why Parfumerie Rigaud has out-lived so many other perfumes in its continued popularity. Now the secret is out.

"The reason is a simple one," said the aged creator of Rigaud odours. "In formulating Parfumerie Rigaud, we deliberately set for ourselves the task of achieving an odour that would be so seductive, so fascinating, so bewitching that it would be utterly irresistible to men."

"To create this kind of a perfume we distilled nearly 100 new odours and secured dozens of women to give

Not Only Moth-proof but Strongly Built, as Well

ONE of the biggest advances ever made in the upholstered furniture art, was, unquestionably, the introduction of Snyder's "Sani-bilt", guaranteed, moth-proof Furniture. Other so-called "moth-proof" furniture must take secondary place to "Sani-bilt". Our process is absolutely colorless, odorless and non-poisonous. In addition, the fillings are as thoroughly treated as the cover.

We take the prospective buyer closely into our confidence by laying bare the constructional secrets of "Sani-bilt" Furniture and back this up by a positive and absolute guarantee of replacement, in the event of the Furniture not being found as represented.

The Frames Are Solidly Built

The frame on which upholstered furniture is built must be strong, if the furniture is to give the service it should. The frames on which Snyder's "Sani-bilt" pieces are built are of exceptional strength and solidity. Some people say our frames are unnecessarily strong and solid. The answer to that is that Snyder's "Sani-bilt" Furniture is still in use years after other furniture, with weaker frames, has broken down and been discarded.

Snyder frames are made of well kiln-dried Canadian hard-

wood, properly planed and dressed. All frames are made with corner blocks which are glued and screwed.

Solidly Built from Cover to Frames

Regardless of price, large suite or small, sound construction is the keynote of "Sani-bilt" Furniture. The japanned, oil-tempered springs, at the precisely correct tension, are securely interlaced to prevent displacement.

The high-grade, non-stretching webbing (made specially for ourselves) is closely interwoven and firmly anchored at both ends, to provide a permanent base for the whole construction.

Another point of superiority for Snyder's "Sani-bilt" Furniture is that only new, clean and sanitary materials are used in its manufacture.

The fillings, the covers, the cottons, the webbing, the springs, the twine, the frame—all brand new. This is of great importance to the purchaser, because upholstered furniture made of second-hand materials can prove a menace to the health of every member of the family.

How easy it is to make upholstered furniture that is graceful of line and attractively covered, but which, because of its cheap interior, disappoints its owner soon after its purchase! Only by selecting furniture that carries Snyder's "Sani-bilt" guarantee tag and trade-mark label can you be definitely sure that it is positively mothproof, durable in construction and comfort, and made of new, fresh materials. Insist on seeing the "Sani-bilt" guarantee tag and trade-mark.

All Prices—All Styles

A trade-mark, identifying genuine Snyder's "Sani-bilt" Furniture, will be found under the cushion of every chair and chesterfield. Be sure it is there. Also, conspicuous on every piece of genuine "Sani-bilt", you will find the guarantee tag attached by a cord. Keep it. It is your assurance of satisfaction. "Sani-bilt" living-room furniture is made at all prices. It is not necessarily expensive. It can be had at any price you want to pay. All prices, sizes and styles guaranteed.

SNYDER'S LIMITED
WATERLOO, ONTARIO

The luxurious comfort of Snyder's "Sani-bilt" Furniture is there to stay, thanks to the thorough construction.

A Snyder frame. Note the rigidity of the frame is due to the corner blocks being glued and screwed.
