Compendium theologiae moralis. Auctore Augustino Lehmkühl S. J. *Editio tertia ab auctore recognita.* Cum approbatione Rev. Archiep. Friburg. et Super. Ordinis. In-8. (XXIV et 602 p.)
Prix \$2.25

"Le succès merveilleux obtenu par le premier de ces livres (*Theologia Moralis*) et (*Compendium*) ne fera pas non plus défaut au dernier, qui nous paraît devoir bientôt devenir d'un usage général comme manuel dans les séminaires." (*Revue Littéraire de l'Univers*. Paris 1886. Juillet.)

"It is a marvel of clearness, conciseness, and precision. So much information, so well put, and compressed into 600 octavo pages, we have not yet met with. The young theological student, as well as the hard-worked Missionary Priest will find it a veritable treasure. And one of its special advantages to our priests is that in the treatise, "*De justitia et jure*," the author quotes from Dr. Croll's great work those points on which theological decisions are affected by English law. Several theological compendiums have from time to time fallen into our hands, but we have no hesitation in saying that Father Lehmkühl's *is the best we have yet seen*." (*The Irish Ecclesiastical Record*. Dublin 1887. September.)

Theologia moralis auctore Augustino Lehmkühl S. J. *Editio sexta ab auctore recognita.* Cum approbatione Rev. Archiep. Friburg. et Super. Ordinis. 2 volumes in-5 (XXXVI et 1184 p.)
Prix \$6.00

"Nous l'affirmons, sans crainte d'être démentis : l'ouvrage du P. Lehmkühl ne demande qu'à être *connu* pour avoir droit de cité dans les Grands-Séminaires ainsi que dans les presbytères."

(*Le Moniteur de Rome*. 1884. No 48.)

"There have come to us from Italy and Spain, from Germany and Austria, from Ireland and Holland, the weightiest and most flattering testimonies to the thoroughness, soundness and practical usefulness of this new text-book, *all agreeing with our main contention that Father Lehmkühl was running a winning race with all other competitors*. Several of our esteemed foreign contemporaries have been content with echoing the Key-notes of our humble utterances, and two at least have done us the honour of quoting the words in which we said *the book would mark an epoch in Moral Theology*....." (*The Month*. London 1884. Aug.)
