MONCTON.

The Gale Was Severe but the Damage Was Trifling.

Cellar of Queen Hotel Visited by Burglars-A Six Year Old Boy Drowned.

Moneton, Oct. 26.—The gale which struck in here Saturday and continued all yesterday reached almost hurricane velocity, but did little damage. The few schooners in port had a rough time and had to be doubly secured. The pitching of one of them swamped the boat at the davits. The rain will have a good effect in the country as the streams were very low, the rainfall of the first part of the month apparently having little effect owing to the prolonged dry spell.

Madame Albani has been secured for a visit to Moncton Nov. 23rd. The cellar of the Queen hotel was risited by burglars last night and considerable stuff in liquid form stolen. The burglary is believed to have been committed by parties familiar with the premises.

Harvest festival services were held in connection with Wesley memorial Sunday school yesterday afternoon. There was a fine programme of reci-tations by the children and vocal and instrumental music. There was also an address by the pastor. In the Presbyterian church last evening the pastor, Rev. Mr. Robinson, delivered the first of a series of lectures on the life and times of Daniel, his subject being

"Keeping a Good Resolution."

Fred Comeau, a lad six years of age, son of Luke Comeau, was fishing tomods from Sumners' wharf today, when he slipped and fell in. Efforts to rescue him were fruitless. The body was recovered about two hours later, when the tide went out. It had floated down stream and was caught on the keel of an apple schooner lying at an djoining wharf. Simon F. Lebianc of the I. FISHING LICENSES.

A Despatch from Gloucester Concerning a Canadian Supreme Court Decision.

Boston, Oct. 25.-A special to the Journal from Gloucester says: News has just been received here of an important decision by the supreme court of Canada, which may result in the re-payment of all license fees paid by American fishermen since the abrogation of the treaty of Washington for licenses issued under the modus vivendi. The action was brought before the court many years ago for the purpose of defining the relative rates and settling rival claims of the Canadian provinces on the one hand and the dominion government on the other, and has resulted in a victory for the former. The claim of the provinces upon every point raised is approved, except that the dominion is declared to be in control of the harbors. In the case of harbors the dominion is declared to have the right of controlling its fisheries, but it has no power to grant a local lease in any pant of the country and in tidal waters, neither the dominion or any province has power to restrict public rights of fishing save by general legislars; therefore the present dominion fishery act, under which license fees are exacted from American fishermen, is illegal and must be withdrawn. These licenses, it is estimated, amount to over \$70,000 a year. TYNAN REACHES NEW YORK.

Arrival of the Alleged No. 1 of the Phonix Park Murders.

New York, Oct. 26.-P. J. Tynan, the alleged "No. 1" of the Phoenix park murderers, was a passenger on the North German Lloyd steamer Saale which arrived this evening from Bremen via Cherbourg. Mr. Tynan was seen at quarantine. He said that he naturally hesitated to talk for publication even in this country, as it was possible any utterance by him might compromise others and perhaps those who had been kind to him. He refused to discuss the purpose of his visit to Europe, but he emphatically stated that his mission was entirely successful. He ridiculed the reported cleverness of the Scotland yard detectives, and said he had been under their noses a number of times without, being suspected. He had also visited Gibraltar. He said it was owing to some carelessness while in a certain city that the de-tectives began to suspect him. He refused to say what city he referred to. His treatment in the French prison was exactly the same as that accorded other prisoners, but he had the privilege of sending to the can-teen for his meals, etc. The sub-perfeet and all the attaches were very much interested in him and warmly espoused his cause. After his release he went to Paris for a short time to recuperate. He will go at once to his home in Audolson Park to see his wife and eight children.

I. C. R. COLLISION.

Two Trains Badly Smashed Up as the Result of an Or en Switch.

Chatham, Oct. 26.-Two trains collided on the Intercolonial at Newcastle this morning. A special freight train from the south was standing on the freight house switch track awaiting the arrival of a freight train from the north, bound for Halifax. About 3 a. m. the train came in at the rate of thirty miles an hour. The switch was not shut and the trains collided. The men on the engines saw the danger in time and jumped. Both engines were shattered completely. The cars of the moving train were piled up on Dr. Agnew's Liver Pills at Ten Cents- the engine. The remainder were more or less shatered. The freight, consisting of fruit and cigars, was scattered all over the track. The damage cannot be estimated. Engineer Taylor was
