MR. KELLY'S TOUR G. Kelly, the well known local tenor, left this morning for Maine, where he has been engaged to sing the leading role in Mikado in various cit-ies in that state, during this week. Mr. Kelly's engagement is the result of the splendid impression he made on two former occasions when employed in a similar capacity in Calais and other points in that vicinity. Mr. Kelly returns in time to fill his engagement of eight weeks in the Clary concert tour of lower Canada, Maine and Newfoundland.

A GREAT PIANIST COMING.

Will Be Heard with Madame Clary in

A pleasing announcement to all mus-ical people will be the fact that a planist of remarkable ability has been engaged as soloist at the approaching Clary concerts April 27th and 28th. No less a personage in fact than Miss Laura Newman, who has just returned from Germany after completing five

No less a personage in fact than Miss Laura Newman, who has just returned from Germany after completing five years of faithful study with Leschitisky, Paderewski's teacher. Miss Newman is a step-daughter of Dr. Botsford, of Moncton. She graduated from the plano department at Mount Allison five years ago and was then conceded the most brilliant planist that ever left the institution. Her career in Germany has been one that gives every indication that Miss Newman will become one of the greatest players before the musical world. Her technique is described as nothing short of marvellous, and all the requirements that go to make up the great artist are at Miss Newman's command.

Mr. Spencer has been negotiating with the young artist ever since her return from Germany, three months ago, but the difficulty which made an appearance here impracticable was the fact that Miss Newman would not consent to use any other instrument than a Steinway Concert Grand. Nordhiemer & Co., of Toronto, after having the matter represented to them, and becoming acquainted with the reputation Miss Newman has made for herself in Europe and her brilliant prospects in this country, consented to supply a fine Steinway and send it all the way from Toronto for the concerts. Mr. Spencer has every reason to believe that he is presenting to the public on the above date the finest planist that has ever been heard in this city, and she will have an advantage over any previous artist in having a better instrument on which to show her abilities.

and Mrs. Issish Wallace, who been spending the winter in stock, N. B., have returned to home in Wolfyille, mas Leonard, of Kings Co., N. to is a member of the Acadia Columbra Chas, has been obliged on to fill-health, to discontinue his s.

A GREAT RAILWAY. The Central to Again to the Public

More than a million and a half of logs have broken from Cole's Island boom and have plied up against the Cody bridge on the Central Railway to a height of about seven feet. The track has shifted as a result of there is danger of the strain damaging the bridge. The lumber is owned by P. Hetherington, A. W. West and C. Parker.

On Friday evening last the train on the Central Railway while en route from Chipman to Norton was derailed about six miles from Norton and the roadbed was badly cut up. The engine and four cars left the rails. There had a four cars left the rails. There had had the roadbed was badly cut up. The engine and four cars left the rails. There had had the roadbed was badly cut up. The engine had four cars left the rails. There had had the road the train. A number walked to Norton while others found lodgings at some of Buther the farmhouses in the vicinity.

s from Chipman to Norton was derailed about six miles from Norton and the roadbed was badly cut up. The engine and four cars left the rails. There were about twenty-five passengers on the train. A number walked to Norton while others found lodgings at some of the farmhouses in the vicinity.

WOULD LIKE TO COME BACK.

W. F. Cooper, bandmaster of the 5th Royal Regt, band, at Halifax, is interested in the summer carnival to be held in St. John this year and is ended and competition and a concert by the Todai and Iren 8th. scheme. Mr. Cooper proposes a band competition and a concert by the massed bands. He thinks the affair could be arranged without difficulty and would prove a drawing card. Mr. Cooper reports that his band, which was so much appreciated here, is now in fine condition. His suggestion is prompted by the fact that during last autumn's carnival the management extremessed a wish to have the 5th Royals band here again.

CELESTIAL SIGHTS. CELESTIAL SIGHTS.

Interesting celestial objects at present visible are two members of our system, the planets Venus and Mars. These two are the earth's nearest neighbors, the former next between us and the sun, around which it revolves in 224 days, at a mean distance of 67,000,000 of miles. She may be seen in the western sky just after sunset, and forms the most conspicuous object in that region. She is gradually getting brighter and remaining longer in view. As she revolves between the earth and the sun her disc presents phases similar to those of the moon, and they require a telescope for their observation.

GRAND MASTER OF THE BALLET

Signor Aurelio Coccia has been specially engaged by Chas. N. Yale to libustrate and direct several new ballets that will be made special features in the twenty-first annual tour of the "Everlasting Devil's Auction." They will include among others an European novelty and also a royal sextette of lady dancers direct from the Alhambra Theatre, London, England.

WILL BE REPEATED. The Easter service held in Portlar Methodist church yesterday afternowas a great success. The schoolhous was crowded to the doors. Over or hundred persons took part, and special request the programme will trepeated on Thursday evening.

SIX NEW BOATS

When the Kennebeccasis Yacht Club Begins Its Season.

develop considerable speed. The hull is completed and the beat almost ready for launching.

The third power boat is the gasoline launch, the first on the river, which Mr. Logan is now completing for Frank N. Jordan. This boat will be something of a novelty, but not the only one, for Capt. Ellis of Andre Cushing & Co., is having a new-fashioned sail boat built by Eljah Ross, of the West Side. This one, designed by Captain Ellis, while of the cigar shape, is different from the Duggan designed Cibou, the freak which won the Coronation Cup. The new one will carry a sort of lateen rig and it is believed that she will be very speedy. These are the only new boats which are being built here for the Yacht Club, but two of the Yarmouth, has bought the schooner yacht Columbia and will be here for the annual R. K. Y. C. cruise. The Columbia is a very pretty boat, 61 feet in length, 12 ft. 6in. beam and 8 ft. depth. She is registered at twenty-two tons and was built at Boston in 1895.

The other Yarmouth yacht is the sloop Hermes, owned by Irvine A. Lovitt and this one will take part in several of this season's races on the river. The Hernes is 36 ft. 6 in, over all and 11 ft. beam.

Work is being rapidly pushed at the Millidgeville club house and many of the boats will be ready by the first of May. Everything points to a pleasant yachting season.

HAD A SKATD ON.

The humorist of the Halifax Echo prints a cartoon showing two gondoliers on a waterway labeled King street, and makes these facetious comments on certain large propositions recently set forth in the St. John press: "St. John is to be a modern Venice. Owing to a lack of water in the harbor they propose to intersect the city with canals, and where now is heard the husky curse of the St. John truckman as they collide with one another in the fog, there will be the melodious cry of the gondolier as he pushes his romantic craft up King street."

THE DISGRACEFUL FERRY.

The filthy condition of the ferry boat and ferry floats was realized by some thousands of people yesterday, many of whom do not often cross the harbor. There was loud complaint, and much surprise expressed that such matters as ordinary cleanliness should be apparently overlooked entirely by the authorities.

On week days the blockade of team tramo at Water street on the arrival and departure of the boat is a standing evidence of the need of a more frequent service.

NEW AUCTION ROOMS.

NEW AUCTION ROOMS.

Having leased the large store No. 86
Germain street from May the first, it is my intention to carry on a general auction sales room where goods of all kinds will be received and sold. Having for the past few years given attention to the study of the auction business both in Canada and the Unitad States, I now feel that I am in a position to give the public of St. John a genuine place where all kinds of goods can be sent and sold at public auction to the highest bidder. Now to the public who from time to time attend these sale I will say whatever I advertise to sell I will sell. As it is my intention to take no goods for sale that have an upset price placed upon them, but to conduct a place where all goods sent must be sold, the first sale will take place early in May 2, for which I am now ready to book orders from those having anything for sale. Orders left at office, 80 Prince William street. Box 298. Telephone 978.

Respectfully yours,

Respectfully yours,
FRANK L. POTTS,
Auctions

FAST I. C. R. SERVICE, The prospects at present are that the I. C. R. will put on a very fast train between Halifax and Montreal this summer, says the Echo, and two officials of the road from Halifax and Moneton have gone to Upper Canada to examine the latest designs of sleeping cars with a view to selecting seven for the fast service. If these cars cannot be had in time the opening of the service will be delayed, but if the cars are available the service will begin with the change of time table to the summer schedule in June. It is thought the new train will give a twenty-one and one-half hour service between Halifax and Montreal, and will leave here at 8.30 o'clock in the morning arriving at Montreal at 7 the next morning. Dining cars will be taken from this ond as far as Campbellton and two sleepers will be attached to each train. There will be first and second class cars and a baggage car.

The 32-inch prints, regular 14c, quality, now being sold at F. A. Dykeman & Co.'s store at Sc. per Dykeman & 00.5 store at 8c. per yard offers an opportunity for ladies to procure wrappers and house dresses at but little more than half their regular cost.

THAT SMALLPOX CASE.

The Board of Health Want the Patient

John E. Sweet, the commercial trayeller, who by bringing smallpox here put the board of health to an expenditure of over five hundred dollars, has not yet paid the bill of sixty-seven dollars, which was presented to him by the board.

More than this, he has asked that he be paid for a suit of clothes which was burned by order of the medical officer. Needless to say this has not been paid. The board of health feel rather annoyed over the matter and think it a very small piece of business on the part of Mr. Sweet. His illness cost over five hundred dollars, and he is being asked to pay only at the rate of \$2.50 per day for twenty-seven days.

At the last meeting of the board, held on Wednesday, it was resolved that the bill would be collected.

SPRING CLEANING

The board of health today issued notices calling upon all landlords, agents, owners or occupiers of houses and places of business to have their premises thoroughly cleaned at once. The health officer will begin his inspection in a day or two and all violations of the law will be rigorously prosecut-
