BOSTON TUNNEL PLAN MAY BE HELD UP

BOSTON, Mass., March 11.—Unless some way can be found to adjust the situation the proposition for the construction of a tunnel between the North and South stations by the New York, New Haven and Hartford Railroad cannot be accepted by the city of Boston, one account of an adverse supreme court decision.

The statement was made today to a legislative committee by City Solicitor Babson, but Attorney Wm. H. Conliffe of the Boston and Maine Railroad jumped into the breach with a statement that before the next hearing there would be a new bill submitted which would meet the difficulty.

The supreme court decided last week that the city could not build a street which was for the partial use of private parties.

A case of "Looking before you leap"

BEFORE you select any Commercial School you owe it to your future to investigate the equipment of the school not only as regards the instructors but in the matter of office appliances. No matter how efficient the instructors, they lose much of their value if the equipment is not up-to-date and efficient.

This school is proud of its teachers, and it is justly proud too, of its equipment. A special effort has been made to provide the best office appliances possible to obtain. For instance we have installed a Burroughs Adding and Listing Machine, and our pupils are taught to use it. About one school in ten has a Burroughs. Bookkeepers (over 65,000 of them) are coming to realize what a great help the Burroughs is, and it is extremely doubtful if a commercial school graduate could get a position now, away where a knowledge of the Burroughs, and its application will not help him to a better salary. We will be glad to talk over with you.

CROUP

THERE IS NOTHING that strikes terror to the hearts of parents more than to be awakened in the night by the ringing cough which accompanies an attack of croup. The child may retire with nothing but a slight cold and a few hours later the family be aroused by the ominous symptoms. Every home where there are small children should be prepared for these sudden attacks, as prompt treatment is necessary. Do not experiment with remedies of doubtful value, but get

CHAMBERLAIN'S COUGH REMEDY

that has been in use for nearly forty years and never known to fail.

Mr. Homer Krohn, of Lisbon, Iowa, in a letter to the manufacturer of Chamberlain's Cough Remedy, writes: "Out of the many bottles sold last winter not one was returned. We recommend it especially for children with croup." Chamberlain's Cough Remedy is famous for its prompt cures of coughs, colds and croup. When given as soon as the child becomes hoarse an attack of croup may be averted. This medicine is entirely free from narcotics or injurious substances of any kind and may be given to the little ones with absolute safety.

Attacks of croup are most likely to occur during the early winter months, and every family with young children should be prepared for it. Keep a bottle of CHAMBERLAIN'S COUGH REMEDY in your home. It only costs a quarter, large size 50 cents. Your druggist sells it.
