

Haims and Ox Yokes ; Stump Machine ; collection of Manufactures ; 2 Carriages ; Stone Picker ; specimens Ottomans and Chairs ; Crayon Paintings ; specimens of Calhoun, Imperial, and Empress Eugene ; Rhubarb ; specimens of Alsike Clover, 4½ feet long, and two Fleeces ; out of this collection forty-five premiums were awarded to us at the Provincial Exhibition at Sussex. [See list of prizes in appendix.]

There will appear, by the Treasurer's account, a falling off in the receipts at the gate, which is to be accounted for in the increased number of members, whose tickets admits themselves and families, and many of these tickets were transferred, thereby depriving us of the admission fee. This is very improper and should not be done. A change is suggested.

The limited number of Ploughs offered prevented the Ploughing Match. It is to be hoped that this important branch of Husbandry will be better represented another year, by both *imported* and *native* ploughmen.

They were occupied Friday and Saturday collecting, packing and cooping animals, &c., for transmission to Sussex, via Rothsay.— After midnight, on Sunday night, they commenced shipping the animals and articles enumerated on board the steamer Tobique, all being on board by 7 o'clock, a. m., they proceeded to Rothsay, where they arrived without any accident at 2.30 p. m. It was expected the cars would be on the wharf, but such was not the case, they had over 80 rods to cart some of the articles, and half a mile the residue. The press of work prevented their leaving the station until midnight, and they reached Sussex only at 3 o'clock, a. m., on Tuesday. Much inconvenience and imposition was imposed on them during their time at Sussex.

The Provincial Exhibition being closed on Friday evening, they commenced packing after 9 o'clock, p. m., (having to cart the stuff 1½ miles to station) and had all on board cars shortly after 3 o'clock, a. m., Saturday, reaching Rothsay by 7 o'clock, a. m., they were occupied till 10.30 getting animals and articles on board Tobique, when they steamed to Fredericton, where they arrived at 6 p. m., thus completing the route with Stock, &c., in 6 days.

They are of opinion that this trip to Sussex has been of great importance to the character and standing of York County. Many expected that the Northern Counties would be out in great force, and that they had superior facilities for raising Grain and Pulse over York. It was also expected that Albert and Westmorland, with their extensive dykes, would produce far superior cattle and vegetables, and Kings would come to their aid in cattle and horses. Nothing of the kind happened. York carried more prizes than any other Agricultural County in the Province. They carried two sweepstake prizes, viz: for Best Bull, and Best Long Woolled Ram, on exhibition. The sweepstake for the best Stallion over four years old of any breed was awarded to Dr. Dow's "Morgan Hawk," by the Judges of Thursday
