

## We Don't Know Everything!

How can we? Why should we? We feel no loss of self-respect when we find ourselves unable to cope with another man's theme. But when the battle is carried into our own business, we'll give challenge and take the consequences. We feel that we are a match for anyone in the matter of knowledge in buying and selecting merchandise in the best interests of our customers. Therefore, we say again, if you are interested in goods that are right in styles, patterns and those which will give you 100 cents in value for every dollar you spend for them, you will patronize this store.

We specialize in Men's Tailor-made Suits of Vickerman's Serges and Worsteds. We also carry the newest, that can be bought in Men's Ready-to-put-on Tailored Suits.

Our Men's Hats, Caps and Furnishings are right up to the latest word in those goods.

Ladies, it will pay you to buy your Linoleum and Curtains at this store.

OUR BIG CLAIM is value in Linoleum, Men's Clothing, Hats and Toggery.

**SLEEPLESSNESS.**—When the nerves are unstrung and the whole body given up to wretchedness, when the mind is filled with gloom and dismal forebodings, the result of derangement of the digestive organs, sleeplessness comes to the distress. If only the subject could sleep, there would be oblivion for a while and temporary relief. Paralee's Vegetable Pills will not only induce sleep, but will act so beneficially that the subject will wake refreshed and restored to happiness.

## OWES HER LIFE TO "FRUIT-A-TIVES"

### Cured Both Stomach Trouble and Headaches

PALMERSTON, ONT., June 20th, 1913.  
"I really believe that I owe my life to 'Fruit-a-tives'. Ever since childhood, I have been under the care of physicians and have been paying doctor's bills. I was so sick and worn out that people on the street often asked me if I thought I could get along without help. The same old Stomach Trouble and distressing Headaches nearly drove me wild. Sometime ago, I got a box of 'Fruit-a-tives' and the first box did me good. My husband was delighted and advised a continuation of their use.

Today, I am feeling fine, and a physician meeting me on the street, noticed my improved appearance and asked the reason. I replied, 'I am taking Fruit-a-tives'. He said, 'Well, if Fruit-a-tives are making you look so well, go ahead and take them. They are doing more for you than I can'.

Mrs. H. S. WILLIAMS.  
'Fruit-a-tives' are sold by all dealers at 50c. a box, 25c. a box, and size 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Rev. B. Snell will conduct anniversary services for the Methodist Sunday School at Middlemiss on Sunday, April 25th, morning, afternoon and evening. On Monday evening a concert will be held in the Middlemiss Hall.

If an automobile owner places his car in a public garage, and while it is being used by someone without the knowledge of the owner it becomes involved in an accident, the owner is responsible and liable for damages his car may do.

The tenth anniversary of the pastorate of the Rev. James Wilson was celebrated at the Dovercourt Road Presbyterian church, Toronto, Mr. Wilson has received a call to a vacant church, but has decided to remain in Toronto.

The weather on Monday was surprisingly warm for this time of the year, the thermometer here showing 82 degrees, the highest point reached here this season. April so far has been considerably warmer than last year, but the 'April showers' have not been much in evidence.

Some men make money in farming. An Essex farmer got \$1,300 for his eighteen acres of beans and \$1,100 for his five acres of tobacco. It is news like this that encourages a city man to go out behind the house and dig a place where he can put in a dozen tomato plants. —Toronto Star.

The Strathroy Dispatch says:—Mrs. F. W. Avery, sister of Mrs. D. W. Johnston, whose death occurred in Ottawa on April 3, and who was buried in Glencoe the following Tuesday, returned to Ottawa with Mr. Johnston, and is assisting in looking after the motherless children.

A new time table on the Grand Trunk Railway will come into operation on May 16th. Besides important changes on the western division of this road, it is understood that the Wabash will put on additional passenger trains, including a local westbound train in the evening. Several changes are expected to be made in the arrival and departure of trains at Glencoe on both roads.

A correspondent writes:—Messrs. Brant and Roberts, of Flint, are leaving Glencoe after a week of training. They also furnished much sport in Bothwell and Thamesville in the vandeville line show.

Envelopes advertising the Presbyterian semi-jubilee may be had at Scott's drug store at 10 cents a bunch of 25. Buy them and use them in your correspondence and help to make the celebration a success.

Neighbors of Mr. and Mrs. James Mote, who are moving from Mount Brydges to Glen Oak, met a few evenings ago and presented them with a complimentary address and a dinner set and table linen.

Fourteen people were killed, and thirty more injured, when a Detroit street car was struck by a freight train last week.

#### MODERN WARFARE.

##### Manning the Trenches and Locating the Enemy by Dust Clouds.

A column of infantry, marching four abreast—the regular marching formation—will pass a given point at the rate of 175 a minute. At that rate it will take a division, which contains about 10,000 men, about an hour to pass.

A division, which is the largest body known in the organization of the American army, will fully man two miles of trenches. The regulation distance in the manning of a trench is a yard to a man. There are three lines, however, needed to fully man such defenses—the firing line, which is down in the trench, a yard between each man; the support, which is back a short distance, and the reserve, which is behind the support. These three parts of the defense are of equal size.

In locating an enemy dust clouds are often excellent indications. A low, thick cloud indicates infantry, a high and thin cloud indicates cavalry, while a broken cloud indicates artillery or wagon trains. An experienced scout can closely estimate the character and strength of an enemy solely by the dust cloud.

An aeroplane to be perfectly safe must keep at an elevation of at least 4,000 feet above the ground.

Although the telephone and telegraph have become generally used in battle for purposes of communication, for distances under half a mile the old-fashioned courier and horse are still exclusively used. These have been found a swifter and surer means of communication for short distances than either telephone or telegraph. —Washington Star.

#### ORIGIN OF STARS.

It May Be That the Nebular Hypothesis is All Wrong.

The nebular hypothesis is that the stars were formed by the cooling and cohering of the gaseous nebulae. These 'dimly veils of luminous gas,' which are visible to the naked eye in the Milky way, are supposed to be star stuff. Many of these clouds have in their centers tiny spots of bright light, the supposed beginnings of new stars and suns.

In 1910 astronomers at Lick observatory discovered that the older a star becomes the faster it travels through space. Then the question arose, can nebulae be stars in formation when their speed is even greater than the oldest stars?

The astronomers began to doubt the old theory. Some years of hard work at Mount Hamilton and at the University observatory in Chile were required. Now the velocities of forty nebulae are accurately known. The incredible speed of these nebulae suggests that they are older, not younger, than the stars. It is possible that they are disintegrated stars and not stars in the making at all.

The director of the Lick observatory says: 'The effect upon our ideas of the connection existing between planetary nebulae and the stars is revolutionary. Apparently the stars have been evolved from planetary nebulae.'

'What, then, are the nebulae if they are not star stuff? That is what the astronomers at Lick have set themselves to determine.' —Exchange.

#### Unique Engineering Feat.

When railroad building was undertaken in Alaska following the discovery of gold a unique engineering feat was performed. At a point eighty miles out of Skagway the survey had been made for the road along the shore of a lake, but it was found to be so irregular and broken by so many coves that the plan was adopted of getting a better line by lowering the level of the lake. This was done by cutting an outlet channel, through which fourteen feet of the lake drained off. But presently the new channel, having been cut through a sandy hill, gave way, and the escaping lake water wore an enormous canyon through the country and reduced the lake level again over seventy feet. A fine, level roadbed was secured over what was formerly the bed of the lake. —Argonaut.

#### When Knights Were Bold.

When knights were clad in complete armor from top to toe it was essential that they should bear some sign by which their followers could distinguish them in battle, and this was the function of their armorial bearings. Knights who omitted to wear their own armor ran considerable risk, and it is related that at the battle of Banockburn the last of the De Clares owed his death to his omission to wear his bearings. He was slain unrecognised, whereas had he been known he would have been held prisoner for the ransom or as a hostage.

#### An Extreme Case.

'They tell me your daughter is very musical,' said the visitor.  
'Yes,' replied Mrs. Pikestaff. 'The fact is she is so very musical that we cannot induce her to practice either her singing or her piano lessons, the amateur quality of the work grates so on her sensitive nerves.' —Judge.

#### Cause for Apprehension.

'I object to that man on the jury,' said the lawyer for the defense.  
'On what grounds?' asked the court.  
'It was instrumental in getting him married.' —Philadelphia Ledger.

#### Self Evident.

'A man has invented a trousers pocket which a wife can't discover.'  
'He wasn't a married man.' —Baltimore American.

Too much rest simply means rust.—Sir Walter Scott.

You want the BEST FENCE at the LOWEST PRICE. The biggest REAL value for your money.

THEN—WHY go to the dealer? He doesn't make fence. He only sells it. You pay him a profit—but he can't add a cent to the WORTH of your fence. He only adds to its cost. WHY help to pay the Organizer \$2500 a year? He WHY—help to pay the Salesman's \$3500 salary? He doesn't make fence. He merely sells it to the Dealer. He merely bosses the Dealer. He gets a fine living—by raising the Organizer—who sells to the Dealer—who finally sells to YOU. You pay him well. 50% to 75% of all the money you pay the Dealer for the Fence—goes to these three men. Yet the three together can't add a single day to the life of your fence. But they can—and do—add many cents per rod to its price.
