Senator Robertson To Investigate

THE COST OF NECESSITIES

OTTAWA, May 16.—That there is a shortage of food in the world, that Canadian prices are regulated by demand abroad, that there is no great surplus of food supply in Canada, that the duty of Canada is food production for the benefit of itself and the world, that the Government may present a programme to regulate the cost of living, and that industrial unrest can be traced to the cost of living, were stated to the Senate to-day by the Hon. Mr. Robertson, Minister of Labor.

Hon. Mr. Robertson said that there appeared to be a great deal of misunderstanding in Canada, as indicated by press comments and resolutions, calling for inquiry to reduce the cost of living, and charging present high prices of food to hoarding for profit. Mr. Robertson said the people of Canada should know that there is no surplus of food in Canada, and unless production is increased there was little hope for such reduction of food prices.

As to food in cold storage, if at once released, little would be done to relieve the situation. If all the butter in storage on May 1st were divided, it would give each Canadian 1.7 ounces; a division of oleomargarine would give each Canadian a quarter of an ounce; a division of the cheese would give each person less than a quarter of a pound. The quantity of butter in cold storage was 858,243 pounds; oleomargarine, 313,764; cheese, 1,064,318 pounds; eggs, a little over 3,000,000, or a third of a dozen per head; pork, two and a half, and beef three and a half pounds per person. What portion had been sold for overseas consumption he could not say. He gave the figures to show the incorrectness of the idea that the present high price of butter, for instance, was due to there being large quantities in storage, held for the profit of the owners. This was the season of egg production, when, usually, they are collected for storing; but to-day eggs were not forthcoming, and therefore only small stocks are being laid away. Unless production increases, there was the prospect of an egg famine within a year.

He made the statement for two reasons: First, that it was proper the facts should be known; second, because it was the duty of Canadians to realize the need for greater production from the soil. Canada was an agricultural country, with 37 per cent. of the people in farming. Men lacking employment in their trades, the markets for whose products had disappeared, continued to live in cities in the hope that new markets would be created, that prices would decrease, and that they could continue to work at their callings. It was but right that these men should be warned that they should not immediately expect the relief they were looking for.

He also stated that the government is investigating high cost of living and would soon report.

George Weissman was refused a job as a Chicago policeman because he was too small. A sergeant saw him kick two big huskies in a fight. Weissman is now a policeman.

Allies have summoned the Austrian delegates to be at Versailles on May 15th.

Kidney Weakness Produced by Spanish "Flu"

One great lesson we can all learn from the Influenza Epidemic is the value of prevention—the vital necessity of remedying all diseases the minute the symptoms appear.

As the result of being attacked by Spanish Influenza many persons have been left with weakened or inactive kidneys. This high fever which prevails during the period of sickness is no doubt responsible for this weakened condition, and in order to restore the kidneys to their former state of health a healing tonic is necessary.

Gin Pills are the acknowledged remedy for all Kidney or Bladder Troubles, and Gin Pills taken during convalescence have proved themselves to be the great remedy for rectifying the Kidney weaknesses left by Spanish "Flu."

From all parts of Canada letters are coming in to us stating that Gin Pills have relieved the sufferers from the annoyance and worry caused by weak kidneys. People are daily finding that the quickest and surest way to remedy the detrimental effects left in the kidneys by Spanish "Flu"—is to use Gin Pills. Gin Pills act as a healing tonic to those inflamed, emaciated vital organs.

Every "Flu" victim should take a course of Gin Pills not only to remedy immediate Kidney troubles, but to ward off danger of more serious consequences. Gin Pills—Sold Everywhere at 50 cents a box.

Comb Sage Tea in Faded or Gray Hair

If Mixed with Sulphur it Darkens
so Naturally Nobody
Can Tell

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

MINARD'S "KING OF PAIN" LINIMENT

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

Best Liniment Made

Mr. A. E. LAUNDY, EDMONTON, writes:—"I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best liniment made."

Minard's Liniment always gives satisfaction. For any ache or pain, it gives instant relief.
