

the gospel of God's grace, by showing men the chief use of these forces, how God intends that these gifts, brains, labour, natural wealth and capital, are all to be used in a devout and thoughtful spirit, and while enabling through these means men and women to live useful lives, will, at the same time lead to that development of character that best fits for entrance into the Kingdom of God. The day will come when the elements of this world will melt with fervent heat, all material wealth will pass away like the fabric of a dream into thin air, the only thing that will stand on that great day will be character. That character is being hammered out now in the fierce fires of the battle of life, with these world forces which God has given, and whose bearing upon the world's business has been to produce a gradually improving civilization, which will continue until the time comes when the lion shall lie down with the lamb, when horrid war shall cease, and the Lord Jesus Christ will be the world's accepted King.

That in view of the very useful paper read by Mr. Caldecott, this meeting desires to request him to take such steps as he may judge best to bring his paper to the knowledge of a far wider circle of people, to whom, this meeting is of the opinion, it would be of very great benefit.
