

901 Imperial Copyright.

The Imperial Copyright protection is available for Canadians as well as for those living in the United Kingdom. By securing a copyright in Britain, the owner would have protection in all the British Dominions.

A copyright of a work published after the author's death endures for 42 years after its first publication; and if published during the lifetime of its author, the copyright endures during such lifetime and seven years longer. If the author should die before the end of the 42 years from first publication it will still last for the full 42 years.
