Canadian Horses at New York

Canadians were well to the front in the awards at the recent New York Horse Show. Graham Bros., Clare-mont, Ont., won first and second in class for Clydesdale mares, on They Cresby Gem and Lady Fergus. captured first in Clydesdale stallions with Baron's Fancy and third with Duke of Montrose; Hodgkinson & Tisdale of Beaverton won second on Abbey Blacon. Graham Bros., won first and third in Clydesdale class 28, on Meteor and Conston, respective-ly; Hodgkinson & Tisdale second on General Favorite. Gartley Pride in the aged stallion class took first; Boreland Chief, third, both owred Boreland Chief, third, both owered by Graham Bros., Hodgkinson & Tis-dale took second on Royal Baron. Gartley Pride captured the Vander-bilt Championship Cup for the best Clydesdule stallion, Graham Bros.' Meteor being reserve.

The bay gelding, Sir Edward won a fine victory in the final for mi-dle weight hunters, for his owner, the Hon. Adam Beck of London. The Wasp was highly commended in fourth place. Sir Edward also captured third in the class for hunters to be ridden by amateur owners, members of a rec ognized club. Graham Bros., in ad-dition to their winnings on heavy horses, were also successful with their hackneys. In the corirthian class for hunters and jumpers, Crow and Murray's The Wasp, Confidence and Melba qualified as well as Hon. Adam Beck's sir Edward and Sir Thomas and Mrs. Reck's Sir Frederick.

Ontario Field Crops of 1909

The following statements give the erea and yields of the principal field crops of Ontario for 1909. The areas have been compiled from individual returns of farmers and the yields by a special staff in each township in addition to our regular crop correspondents :

Fall wheat :- 663,375 acrès yielded 15,967,653 hush., or 24.1 per acre, as compared with 16,430,476 and 24.2 in The annual average per acre for 28 years was 20.8.

Spring Wheat:-135,161 acres yield-ed 2,223,567 bush., or 16.5 per acre as compared with 2,197,716 and 15.5

as compared with 2,127,16 and 15.5 in 1908. Annual average 15.9. Barley:--695,262 acres yielded 18,-776,777 tush., or 27.0 per acre, as compared with 20,888,569 and 28.5 in Annual average 27.7

Oats:-2,695,585 acres yielded 90,-235,579 bush.; or 33.5 per acre, as

compared with 96,626,419 and 34.8 in 1908. Annual average 35.6. Rye :--94,661 acres yielded 1,573,921 bush., or 16.6 per acre, as compared with 1,453,616 and 16.5 in 1908. Annual average 16.4.

1908. Annual average 20.0

Peas:-381,609 acres yielded 7,613,-656 bush., or 20.0 per acre, as compar. ed with 7,401,336 and 18.7 in 1908.

pared with 783,757 and 16.9 in 1908. Annual average 17.2. acres vielded

24,645,283 bush., or 145 per acre, as compared with 18,517,642 and 111 in 1908. Annual average 111.

Mangels :---70,488 acres yielded 28, 928,347 bush., or 410 per acre, as compared with 29,870,966 and 440 in 440 in 1908. Annual average 458.

653 Lush., or 286 per acre, as compar. ed with 1,120,145 and 275 in 1908 Annual average 346

1908

Turnips :----113,400 acres yielded 50, 738,940 bush. or 447 per acre, as compared with 41,210,189 and 341 in 1908. Annual average 429.

Mixed grains -- 474,530 acres yield-ed 16,199,434 bush., or 34.1 per acre, as compared with 15,354,350 and 33.7 in 1908

Corn for husking:---322,789 acres yielded 22,619,690 Lush., (in the ear) or 70.1 per acre as compared with 23,601,122 and 78.8 in 1908. Annual average 71.0.

Corn for silo :- 288,346 acres yielded 3,374,655 tons (green) or 11.70 tons per acre, as compared with 2,729,265and 11.68 in 1908. Annual average 11.45

Hay and clover:—3,228,445 acres yielded 3,885,145 tons or 1.20 tons per acre, as compared with 4,635,-287 and 1.42 in 1908. Annual average 1.45.

There are 3,180,780 acres of cleared lands devoted to pasture, 231,707 in Summer Fallow; 300,364 in orchards 24,614 in small fruit, 11,420 in vine-yards, 57,123 in farm gardens, 37,-548 in rape, 11,253 in flax and 4,101 in tobacco (of which 3.20 are in Es sex yielding 4,388,544 lbs.

to he.

This stallion is one of the consignment from George W. Souers & Sons, Hunting-ton, Ind., on sale in Peterboro. The horses are in charge of F. J. Sullivan, at the Commercial Hotel. See his advertisement in Farm and Dairy, Nov. 11.--Advt. Commercial Hotel, See his advertisen

of My Year's Work," by Morley Pet. | W. C. McCalla of St .Catharines, who tit, Provincial Apiarist, Jordan Harbor "Queen Rearing and Honey Production," by Frank P. Adams Brantford; "The Importance of Re-queening," by H. J. Sibbald, Claude; and "The Advantages of a Standard Hive," by J. Alpaugh, Dobbington. The question whether honey should be sold in gross or net weight tins was discussed, but as opinion was divided on the subject a committee was appointed to deal with the matter.

Vegetable Growers Meet

At the convention of the Ontario Vegetable Growers' Association held in Toronto last week, the president, Mr. T. Delworth, of Weston, in his opening address, dwelt on the importance of getting the Lest seed possible and the difficulties in securing same. on. He spoke also of the methods of marketing in vogue in parts of the United States which might be copied to some extent here. On account of too many middlemen our growers are not get-ting the profit that they should.

A report on cabbage and cauliflower growing in the United States was made by Mr. A. McMeans, O.A.C. Guelph. Among the many points mentioned was that large growers over the line reduce expenses by conveniences in storage and shipping. Shrinkage in cabbage stored is as much as 25 per cent. up to April 1st. A report on vegetable growing at the Jordan Experiment Station was made

November 18, 1000.
