BISHOPRIC WALL BOARD

makes remodelling your home easy, quick and inexpensive

Are the Walls and Ceiling of your Bathroom in bad shape?

Is the plaster discolored, cracked or falling? Replace it, or cover it up, with the material that never cracks or falls, Bishopric Wall Board.

This Board is made, as you can see from the illustration below, of kiln-dried dressed lath imbedded under heavy pressure in a layer of Asphalt-Mastic, which is coated on the other side with heavy sized cardboard. This Asphalt-Mastic is absolutely damp-proof, making clean, sanitary walls and ceiling that will not warp, crack or pull away from the studding.

Do you need an extra room or two?

Then finish off the Attic with Bishopric Wall Board. It comes in sheets 4 feet square, packed 16 sheets in a crate, ready to be carried up to the attic and nailed right on to the studding.

You can put it on yourself if you like—and there won't be any of the muss and disorder through the house that you can't avoid if you use lath and plaster.

Bishopric Wall Board costs so little, too—only \$2.50 per 100 square feet. Compare that with the cost of lath and plaster.

If you are remodelling your house in any way, or building a new one, by all means use Bishopric Wall Board. It will save you time and money and give you a dryer, warmer house.

Mail to us in Ottawa this coupon, asking for fully descriptive Booklet and Sample of Bishopric Wall Board, which we will send you promptly free.

Questions and Answers. Miscellaneous.

Stamps.

Can you tell me just what each denomination of jubilee issue of Canadian postage stamps is worth, and where I can dispose of same? G. A. C.

Ans.—We are not in touch with any stamp vendors, who would be the only authority on the real value of your stamps. A small advertisement in the columns of this paper would bring you the desired quotations.

Milking Ration.

I recently purchased a pure-bred Jersey heifer three years old. She has been milking since last February, and will not freshen again till next May. Would you kindly suggest a diet that will produce the most milk during the fall and winter months? (Leave out silage, as it cannot be obtained.) W. J. B.

Ans.—To get best results, some succulent food is necessary, and in the absence of silage would recommend the following ration: Thirty lbs. mangels; 8 to 10 lbs. clover hay; 4 lbs. bran; 2 lbs. ground oats, and 1 lb. oil-cake meal. This would not be enough for a large, high-producing cow, but will probably be sufficient for a heifer during the latter part of her lactation period.

Gossip.

The average yield of 9,349 cows, tested in dairy-record centers maintained by the Dairy Division, Ottawa, in Ontario, Quebec, and the Maritime Provinces, in August, was 622 pounds of milk, 3.6 test, 22.6 pounds of fat, almost identical with the average yields in August of 1912 and 1911. Concealed beneath the comforting blanket of such a general average are widely different yields in various provinces, counties, and herds. For instance, at St. Joseph, N. B., the average yield was 458 pounds of milk; at St. Prosper, Que., 611 pounds; at Woodstock, Ont., 809 pounds. Similarly the yield of fat varied from 17 to 27 pounds per cow. But comparing districts not so widely apart; the total yield of 446 cows at Farmers' Union, Ont., was 10,472 pounds of fat, but with 19 fewer cows at Frankford, Ont., the yield of fat was 889 pounds more. In the St. Hyacinthe, Que., district, a more startling comparison than this is the fact that one herd of 14 cows produced actually 4,940 pounds of milk more than another herd of 14. Similar comparisons might be made for herds at the several centers; but what is of infinitely more concern to the average patron is the comparative yield of each individual cow composing his herd. The wise and far-seeing dairyman, knows from his records, so easily kept, just what each cow gives, not only for an odd month, but for the whole year. Then he strides towards intelligent improvement, not wanting the 458-pounds-per-month kind, but the type that yields six or seven or more thousand pounds per year.—C. F. W.

Lady to Man at Bookstall: I want an entertaining novel to read in the train. I would like the style to be somewhat pathetic.

Bookseller: Will the "Last Days of Pompeii" do?

Lady: I never heard of him. What did he die of?

Bookseller: I'm not sure, but I think it was some kind of an eruption.

NEED OF SPEED.

Doctor—"Mrs. Brown has sent for me to go and see her boy, and I must go at once."

His Wife—"What is the matter with the boy?"

Doctor—"I don't know, but Mrs. Brown has a book on 'What to do Before the Doctor Comes,' and I must hurry up before she does it."

"How many of these sheep got out of here?" asked the angry farmer. "I don't know," replied the new hired man, rubbing his eyes. "After I had watched five or six of 'em jump over the fence, I seemed to lose the count, for that always puts me to sleep."
