GOSSIP.

This suggestion to owners of cribbing or wind-sucking horses appeared in the Live-stock World: Nail a rough sheepskin about eight inches wide the length of the manger, with the rough, woolly side out, and sprinkle it thoroughly with cayenne pepper, renewing it occasionally. It wouldn't cost much to try anyway.

"Can you tell me," said the seeker after knowledge to the showman, "what the hump on the camel's back is for?" "What's it for?" "Yes. Of what value is it?" "Well, it's lots of value. The camel would be no good without it." "Why not?" "Why not? Yer don't suppose people 'ud pay sixpence to see a camel without a hump, do yer?"

Here is an explanation of the old horseshoe superstition: "St. Dunstan was a skilled farrier. One day while at work in his forge, the devil entered in disguise and requested Duncan to shoe his 'single hoof.' The saint, although he recognized his malign customer, acceded, but caused him so much pain during the operation that Satan begged him to desist. This St. Dunstan did, but only after he had made the evil one promise that neither he nor any of the lesser evil spirits, his servants, would ever molest the inmates of a house where the horseshoe was displayed."

The Canadian horse, Sidney, sire of the fast new pacer, Gertie Hunter, 2.18 1/4, was owned for several years near Seaforth, Ont. He was sired by a horse called Doctor, a son of Field's Royal George, so says Mr. E. M. Stewart, of Guelph. There are several good sons and daughters of Sidney racing in the Dominion this year. A quarter of a century ago the Royal George horses were quite popular, but nowadays we hear but little of them. Indeed this Canadian horse, Sidney, is the only grandson known that is producing speed at the present time.

That there is a steady demand for wool is shown in the cabled announcement from London about wool sales, in which it is stated that wool reshipped from Boston was sold at an advance, which indicates that wool is needed by the manufacturers very much just now, especially by the English manufacturers who are now making a large amount of blankets and woollen clothing for the Japanese for use in Manchuria. "It is a sort of distribution," said Senator Power, of Montana. "These people shipped the wool to Boston in anticipation of selling it, and then as the London market opened and the demand became evident reshipped it to England at a good profit. It is a sort of a distribution of wool supply that means wool is in no little demand."

BILL NYE AS A DAIRYMAN. When I was young and used to roam around over the country, gathering watermelons by the light of the moon, I used to think I could milk anybody's cow; but I don't think so now. I do not milk the cow unless the sign is right, and it hasn't been right for a good many years. The last cow I tried to milk was a common cow, born in obscurity—kind of self-made cow. I remember her brow was low, but she wore her tail high; and she was haughty, oh, so haughty! I made a commonplace remark to her, one that is used in the very best society; one that need not give offense. I said "So"—and she "Soed." Then I told her to "Hist," and she "Histed." But I thought she overdid it. She put too much expression to it. Just then I heard something

MEN, IT'S FREE. SEND FOR IT NOW.

ASK ME TO SEND YOU, SEALED, FREE, a book just completed which will inspire any man to be bigger, stronger, younger (if he is old), and more vigorous than he ever felt. I am a buldler of men.

I can take any weak, puny man and make him feel like a Sandow. Of course I can't make a Hercules of a man who was never intended by Nature to be strong and husky. I don't mean that.

But I can take a man who started with a fair constitution and before it got fully developed began tearing it down. That fellow is weak-nerved, slow, poky, lacking in vim, ambition and self-confidence. I can make a man of him in three months, so that his own friends won't know him.

Every man who is weak and "going back" knows that there ought to be something which will restore that old "steam" to his physical body. He has tried the usual drug method and found

that a fizzle, and yet he knows there must be something. I know it, too, and I've got it. It's Electricity. You can't name anything more likely to have that force which a weak man lacks. It's a natural power. I can pump it into a weak man while he sleeps and make him feel like a Sandow in no time. It's the spice of life. So get the book if you want to be stronger.

"I am very much pleased with your Belt, and think it is a grand remedy. I feel well in every way and shall always recommend it."—CHRISTOPHER WILLIAMS, Cranbrook, B.C.

"The Belt I purchased from you in 1901 has given me lasting benefits, and I have never felt better in all my life than I have since wearing your Belt."—HENRY HOFFMAN, Berlin, Ont.

I don't ask you to take any chances. I am willing to do that, because I know my Belt will cure any case I undertake if given a fair chance. All I ask is that you secure me while you are using it. Remember,
