Mahogany Outside Gold Inside

This golden toned Heintzman is ideal for snug or fully furnished rooms because, while standard size, it is slightly less deep than more carelessly constructed pianos. It bears the same relation to them that a symmetrical watch bears to a bulky one. As a result, it fits into average rooms without crowding them.

It is built on similar principles to Heintzman Grand Pianos, and like them remains beautifully true to tone. It's just as splendidly made as it looks when you see it in our display rooms. \$450, monthly payments if desired—and your present piano or organ taken in exchange.

\$500 Heintzman-- -- \$275

This is one of the very best bargains we have ever been able to offer. It's a very fine Heintzman, rehnished and in the Best of condition \$2.75.
