THE ACADIAN

WCIFVILIE, N. S., APRIL 30, 188

court house, Kentville, on Tuesday Liberal. All future elections will prove this." Perhaps so; but as there will be an election in this province in and was not able to complete the work in and was not able to be present. We have not been able to get a full report for this issue, but will chronicle any business of importance that was transact d in our next.

**Notes from other provinces are protoundly Liberal. All future elections will brown in this province in this province in this province in the control of the period. There are on record many noted examples of ignition, especially in the sacred text. There are also incendiary conflagrations in the records of profane part of the annual "washee, washee," as Johnnie Chunaman says, was done in the House. You did not know that the M. House. You did not know that the M.

which struck the Oregon that fatal blow and soon after wint down herself with all on board. The Charles els, is a good deal like hunting and went up to the "Gld Women." If they were even good and they would gladly pass this most the collision not heard from. She had on board nine men, was fitted with the best of light and all modern appliances for securing the session. Cameron's bill to allow certain all modern appliances for securing the safety of herself and crew. Capt. Colter, of the Oregon, testified during this examination before the board into the less of his vessel that the straints to testify in their own behalf the safety of herself and circum. The own the safe what the straints to testify in their own behalf the safety of herself and circum. Capt. Colter, of the Oregon, testified during this examination before the board of six miles, that the straints of six miles and straints of six miles and straints of six miles and six the s

We wish to again remind our readers that we do not assume the responsibility of the opinions advanced by our correspondents. The Acadian is always ready to make room in its columns for letters from its friends on either side of politics and is always pleased to receive such, yet we can only be responsibility for the opinions advanced by our correspondents. The Acadian is always ready to make room in its columns for letters from its friends on either side of politics and is always pleased to receive such, yet we can only be responsible for editorial utterances.

day last which resulted in sustaining the good majority. But the good majority. But the good majority. But the one in having gained a great moral victory, and the other in having gained a great moral victory. The political press in sympathy with the winning party is jubilant over the treatment of the Indians. He quot of from blue-books and from letters of missionaries to show that the Indians were cheated, corrupted, and starved by the agents. In the defence the Revs. McDougal (Methodist) and Robinson authentic record of experiments. Our experiments at long at present is plowing. We learn that application has been will be defeated at the next general representations and worse. Charlton the milky way it's not struck sounding made to the Dominion parliament to election, and the party headed by the charged Langevin and Dr Furguson with yet; it don't matter much we can use of emade to the Bominion parliament to election, and the party headed by the subsidize a steamer to ply between great Edward Blake will take charge st. John. N. B., and ports on the Minas Basin, and we also learn that political horoscope is not reliable has been proved over and over again dursuitable boat upon the route providing ing the past ten years, and predictions boat upon the route providing ing the past ten years, and predictions some \$4.000 be grant d for that ser- based upon the same grounds as is the vice. Is Wolfville or Lower Horton present have proved to be entirely in to share in this accomodation?

The regular April session of the Municipal Council was held in the court house. Kentyille, on Tuesday the "Maritime provinces are profoundly grant forms and we should not be surprised if the present prediction should be a little south Range Agricultural Club, and visitors—Prelector, Bro. Algernon Beard, the "Maritime provinces are profoundly right bower in our homologous training;" affords a good opportunity in which to acquire experience in plant life. The practical knowledge gained by our "bush-waskers" through their efforts—by hard knocks and privations—"to make the error and we should not be surprised if court house, Kentville, en Tuesday Liberal. All future elections will Bro. Burrage in the chair:

more they scoured the more the "blood" (dirt) showed. Hackett and White said that all the opposition wanted washing.

Lecture.—A note appeared in our local column a short time ago to the effect that Rev. Mr Hinson of Moncton, N. B., was to lecture in May before the Acadia Athenaeum and friends.

The annual fight qetween some member and reporters also to k place. Drotton struck Thompson of the Globe for saying that he (Orton) was drunk. Orton struck Thompson of the Globe for saying that he (Orton) was drunk. Orton afterward in referring to it advised members to teach reporters not to tell lies(f) about them. Some one remarked that the variety progrations of the organic corresponding changes in the organic of the same days of the same class, grown under distinct conditions—In the ash of all mature plants certain mineral elements are found which are essential to perfect vecetable development. These ash constituents are found which are essential to perfect vecetable and that all the opposition wanted washing. Patterson challenged them to come over with their tubs; and rubbing his hands said, We are clean from land grabs and all other corruption: we challenge you!

The annual fight qetween some member and reporters also took place. Drotton struck Thompson of the Globe for saying that he (Orton) was drunk. Orton struck Thompson of the Globe for saying that he (Orton) was drunk. Orton afterward in referring to it advised members to teach reporters not to tell lies(f) about them. Some one remarked that the variety proportions of the ash constituents of grain, vegetables and fruits were accompanied by certain corresponding changes in the organic corrected that the variety of the same class, gr

Out of this till MAY 1st. ors and leaving those of Montreal and public money for little benefit. One "table-number" of the 64 simple forms Toronto out in the cold. A few days member seemed to think that European are built up animal life and plant life, To onto out in the cold. A few days after his store was found to be on fire at the dinner hour, probably of incendiary origin. It was discovered within half an hour after he (Vose) had left on a floor where no store was used. A bottle with a gill of kerosene in it was found near by: the fire was controlled the count would see the count with all their perplexing and never ending with all their perplexing and being set and the count would see bottle with a gill of kerosene in it was found near by; the fire was controlled before much damage was done. Adding a done partition is the government bonded warehouse in which was a quantity of liquor supplied by Montreal houses. The customs people suspecting that the liquor in the ware-of titles and giving of medium and the solves. Langevin admitted this and said direct food for plants the tillers of the soil have nothing to fear. Three of al houses. The customs people suspecting that the liquor in the warepecting that the liquor in the wareof titles and giving of medals in connectance are the "ground tackle" of plant life, house had been tampered with, began lieved that Gen. Middleton had earned his title on the field but doubted if Caron an investigation brought to fire, which investigation brought to had earned his in the Eastern Block. He fact that an absence of any one of these fact that any one of these fact that any one of the fact that any one of these fact that any one of the fact that any fire, which investigation brought to light the fact that 69 casks supposed to be full were really empty. Vose is now under commitment to the supreme court for forging, but is out on bail.

The fact that an absence of any one of these also doubted if the volunteers would prize the medals in recognition of their killing their own countrymen. Mr Galt thought may be, beyond redemption. The German bave a saying, "No phosphorus, no does a few years are more said of pater. It is now pretty generally believed dors a new years ago more ennued to line, but the same may be medals than the volunteers of '85. Caron sium and nitrogen. The mean compodors a few years ago more entitled to life," but the same may be said of potasthat it was the Charles H. Morse taunted Edgar with wishing to earn a sition of the ash of four varieties of which struck the Oregon that fatal title by ferriting out land-grabbing scan- grain, namely, wheat, barley, corn, and blow and soon after went down herself dies. Exposing scandles here, like every oats, gave of potash 19%, of phospheric

he tried to beach the ship, and that if the bulk-heads had been closed he could have sailed her into New York. Several of her engineers testified that the sinking of the steamer could have been prevented if the bulk-head doors had been constructed to work along verticle, instead of horizontal, groves. Coal nstead of horizontal, groves. Coal But the minister of finance does not raise duce the quantity and nutrative value bad cheked up the horizontal grooves and the doors could not be closed.

The land cheked up the horizontal grooves and the infention now is to tax all U.S. results, to supplement with manurial
