The Kentville Exhibition.

The fruit, flower and poultry show held at kentville this week has been quite a successfull affair. The number of exhibitis was fairly large and of excellent as increased and fairly. The poultry exhibit is said to have been the best ever shown in the Maritime Provinces. The display of flowers and plants is said to have been exceptionally fine. There was also a cereditable display of vegetables. In fruit the apple display of vegetables. In fruit the apple display was of course the most extensive, but there was also a condition to the show of pears, plums and grapes. In addition to the show of pears, plums and of the Skoda Discovery Co. was a good one and was much admired by all.

The exhibition was formally opene on Tuesday morning by His Honor the Lieut.-Governor in an admirable add Addresses were also given by D. C. Fra-ser, M. P.; Admiral Sir John Hopkins; C.H. Cahan, M. P. P. and J. W. Bigelow We are glad to see that, although th

In Belleville, Ont., a by-law is in force to prevent children being abroad after a certain hous. We think the rising generation would be benefitted were such a law in force here and well carried out. It is a wonder that there are parents so blind to the evil results of children of a tender age being allowed to wander about the strests at night, not knowing where they are or what company they keep. Numbers of children who should be in their beds by 8 p. m., are seen on the strests long after that hour, picking up an education which cannot but have an influence upon their future lives. What that influence is, and what its results, are sailly determined. It is the night education on the strests of towns and cities, which trains two many for the gool and penitentiary—ruining many a lad and girl too, who would, with better training, have become better citizens. What the parents are thinking of is a quary. "Are all the children in 1" ought to be the question of all questions when the sun has gone to rest..

Very large crops of apples are expected both in England and on the Continent, but as this fruit is largely consumed in this country, and very many of our own varieties and also of the continental imports are of early kinds, doubtless towards the end of November and probably even earlier, there will be a good outlet and demand with us for Nova Scotian and Canadian apples, and in the spring as usual we look for a fair market in England for Nonpareils and other good Russetts. The Groder Dyspepsia Cure Co.

GENTLEMEN.—I am 71 years of aga.
Have been afflicted, with sick headache most all my life, which developed into Dyspepsis of a mild type about twenty years ago, and has continued to grow worse until during the past seven or eight years I have not been able to take a drink of cold water or milk, as they would produce severe pains and sometimes yomiting. I have been subject to severe pains in the cheet, with dizziness, which have been more frequent during the past three or four years. My month was furred up in the mornings, accompanied with bad breath. My case was yearly growing worse.

During this long period I have tried many popular medicines, as well as prescriptions from the regular medical practitioners, but without producing any improvement. The Groder Dyspepsia Cure Co.

titioners, but without producing any improvement.

In the fall of '92 I concluded to try a bottle or two of your medicine and such were its effects that I continued it until now I can drink cold water or milk without any inconvenience. Those dizzy pains are all gone and my mouth is as sweet as a baby's. In short your medicine has cured me and I am sure that all Dyspeptics can be cured by its use.
