**FREE A BEAUTIFUL "CHEVROLET" TOURING CAR**

**This Splendid Motor Car will be Awarded as First Prize in The Advocate's Second Big Voting Campaign which is just beginning**

The "Chevrolet" (pronounced "Shervoy") motor car has been aptly called the "wonder car." It deserves such a designation. The price of the car delivered at Newcastle, by The Lounsbury Co., Ltd., the New Brunswick distributors, is \$710. Never before has such a complete car been made to sell at such a price.

The "Chevrolet" (pronounced "Shervoy") motor car which will be awarded as first prize in The Advocate Voting Campaign, is known as model "Four-Ninety"—a five passenger touring car carrying full automobile equipment. It has a mohair tailored top; envelope for the top and side curtains; electric horn, clear vision ventilating wind shield; speedometer; electrical starting and lighting system; ammeter and license brackets.

**The "Chevrolet" is a Complete Car**

The "Chevrolet," as the above description shows, possesses many features found only in high priced cars.

The "Chevrolet" has the following exclusive features and differs in many respects from all other automobiles, irrespective of price.

The "Chevrolet" has shock absorbing, duplex front springs and is the easiest riding car for its size in the world.

The "Chevrolet" has a self-lubricating clutch collar, eliminating clutch collar troubles, such as friction, heating and wear.

The "Chevrolet" has the rear wheel bearing carried on the wheel hub, just the reverse of the ordinary construction, the bearing being three times the size used in ordinary axles. This extra large bearing carried in the axle housing takes the load—the axle shaft carries no load.

The "Chevrolet" has a compound steering gear, composed of spur gears and sector, attached to body, simplest and safest ever invented. It is adjustable for wear.

The "Chevrolet" has a unit power plant carrying transmission on open brackets which gives accessibility to clutch and allows removal of transmission, if necessary, in twenty minutes.

The "Chevrolet" has a special brake arrangement, which insures powerful, quick acting and smooth brakes. Emergency brake internal contracting.

The "Chevrolet" does not have a single hinge joint to squeak or a spring shackle to rattle and only six grease cups will be found on the entire car.

The "Chevrolet" is powerful and light running. The "Chevrolet" is made in graceful lines and is a beautiful motor car.
