M. P. TEMPERANCE ALLIANCE MEETS
A meeting of the M. P. Temperance Alliance is being held today in the Y. M. C. A. Rooms, Fredericton. Many important matters for discussion and decision will be brought up at the meeting.

ECZEMA
You are not alone in your struggle with this skin disease. Dr. Chase's Ointment is the only remedy that will cure you. It is the only ointment that will cure you. It is the only ointment that will cure you. It is the only ointment that will cure you.

Ocean Freights Coming Down

"Prices are coming down in almost all commodities," said Robert Dollar, president of the Robert Dollar Steamship Company of the Pacific Coast. This statement was made from his knowledge of the carrying trade of the oceans of the world.

"At the present time," he said, "ships can be obtained twice as cheap on the Clyde as they can be built in the United States or in Canada. I am not as familiar with Canadian prices as I am with the United States ones, but there is no question as to facts. Cargo boats can be bought on the Clyde and brought over here with a great saving over having them built here.

"Ordinary cargo boats today are selling on the Clyde at twenty pounds or one hundred dollars a ton. When the money is sent from the United States and the difference in the money of the two countries is taken into account because of the exchange situation this means just about \$70 per ton in United States money. The same ships in the United States cost \$160 a ton to build. I expect the Canadian prices are not far off this figure."

"Ocean freights are coming down materially. At the present time

You will like Lantic fine!

For BAKING. For pound, tea and sponge cakes, coffee cakes, angel cake, layer cakes, fruit cakes, coconut cakes, pork cakes, nut cakes, short cakes, macarons and biscuits, crackers, rolls, buns—ALL cakes—Lantic creams quicker with the butter—because it's FINE.

FINE in granulation—finer than all other sweeteners in actual use—finest in results obtained. "Fine" has many meanings to the Lantic user! In snowy glistening crystals of pure cane sugar—all sugar and nothing else—Lantic brings you concentrated sweetening. And because each crystal is fine and even, Lantic dissolves at once—it instantly delivers its great sweetening power without hesitation. Of course it goes farther. Of course it costs less. Of course you will like it fine.

For PRESERVING. For peaches, pears, plums and grapes—if you use Lantic you can smile at the old caution "Let it simmer until all the sugar is dissolved." While yet the fruit retains its beautiful color and attractive form, the preserving is done—because it's FINE.

For CANDY-MAKING. For fudge, taffy, butterscotch, caramels and fudge, Lantic makes the best candy because it's FINE.

In PRESERVING late fruits such as pears, plums and peaches, it eliminates the danger of over-cooking, which robs fruit of its natural color and shape, and some of its flavor.

In BAKING, Lantic creams quickly with the butter—which makes the cake light and dainty. Creaming need not be tedious.

In CANDY-MAKING fine granulation gives candy a soft velvety quality. Most of the highest grade chocolates and finer candies are made with Lantic. The exquisite "velour" of the best chocolate creams comes from Lantic fineness.

In TEA or COFFEE, in fact in all beverages (hot or cold), every Lantic crystal dissolves at once, yielding readily the full sweetening of the purest cane.

ATLANTIC SUGAR REFINERIES, LIMITED MONTREAL

charters are being made from the lower provinces in Canada to the United Kingdom at 100 shillings. A year and a half ago, the rate was 300 shillings.

Hon. Dr. Smith To Resign From Foster Govt?

Fredericton, Sept. 1.—Hon. Dr. E. A. Smith, Minister of Lands and Mines, is said by the Gleaner today to be about to retire from the provincial government.

In political circles this morning it was declared that Dr. Smith had already tendered his resignation to the lieutenant-governor, but this was officially denied, although it is unofficially admitted by his colleagues in the cabinet that the retirement of the minister of lands and mines is expected.

Incidentally Dr. Smith is not here for the meeting of the government and told the Gleaner over the long distance telephone today that he would not be here. While denying that he had tendered his resignation to the lieutenant-governor Dr. Smith declined to discuss his intentions and would not say whether or not he was preparing to resign. Private business engagements, he said, prevented him from attending the meeting of the government here, and pressure of private business is being given as the reason for his impending retirement by his colleagues in the cabinet.

The Gleaner says, however, that rates of stumpage for lumber cut upon the Crown Lands and matters connected with the location of New Brunswick's first game preserve are the questions over which the differences have occurred causing the first resignation that has taken place in the Foster cabinet.

One of the government caucuses last evening was the occasion when the row over the game preserve was staged, says the Gleaner. "The location which had been approved by Dr. Smith as Minister of Lands and Mines, for the sanctuary interfered with hunting grounds and other interests in Victoria county, and Hon. J. F. Tweedale, Minister of Agriculture, after the matter had been often discussed at cabinet meetings, took the question to the caucus as a court of last resort. The result was a stinging row before all the government supporters, which caused a lot of talk about the liberties but never reached the public print. When the stumpage question came up it is said Dr. Smith personally favored a rate not less than \$7 a thousand and it is even declared that, supported by his deputy minister, he thus recommended to the government as Minister of Lands and Mines. The government's decision was a 15 rate and Dr. Smith's impending retirement is said to be the direct result.

When Premier Foster was asked this morning if Hon. Dr. Smith had resigned, he declined to either confirm or deny the report and said he had nothing to say on the matter at this time.

JURISDICTION EXTENDED
The jurisdiction of H. H. Mahon, of the C. E. P., recently passed on to the C. E. P. of the province of New Brunswick, and the Grand Jury of the C. E. P. of the province of New Brunswick.

JOYFUL EATING
Unless your food is digested without the aftermath of painful acidity, the joy is taken out of both eating and living.
KI-MOIDS
are wonderful in their help to the stomach, overloaded with over-acidity. Pleasant to take—relief prompt and definite.
