**Take a Lesson From the Hotel Man.**

The best lighted room in a hotel is the lobby, not only because it is a general meeting place for the guests, but because it is the first room they enter on their arrival and the one from which they get their initial impression.

For the same reason care should be taken in lighting the first hall of your home.

Electric Light and Ho'ophane Reflectors will add much to the visitor's impression of your home.

The Telephone is usually in the hall and an Electric Light placed near the instrument will save many steps.

Why not let our representative talk to you about the economical lighting of your house.
