

447th Day of the War TO-DAY'S Messages.

11.30 A.M.

A CAVELLE DAY.

LONDON, To-day. The National Liberal Club is initiating a movement for the setting aside of a day to be known as "Cavalle Day," on which the nation collectively would pay homage to the memory of Miss Edith Cavelle, the English nurse, executed in Belgium.

NO CAVELLE CASE POSSIBLE IN ENGLAND.

LONDON, To-day. Sir John Simon, British Home Secretary and former Attorney General, in the course of an interview to-day declared the fate of Miss Edith Cavelle, executed by the German authorities at Brussels, had and could have no parallel in the records of Britain's treatment of persons accused of military offenses. Even in cases clearly proven of espionage, Britain, according to the Home Secretary, would not sentence to death a woman. No woman, said he, who had been tried for any military offence in this country, had suffered the death penalty since the war began or has ever been sentenced to death in this country; a woman, whatever her nationality, is always tried by a civil court. The Secretary explained that the difference which existed in the conditions of Belgium and conditions in England; in occupied territory like Belgium, the administration law is expected to be slightly different, but he continued, the Cavelle case was not some sudden discovery, calling for drum-head court martial on the field of battle. This was at Brussels where the Germans claim to have established an orderly government, comparable with their government at home, and have appointed their civil governor. Questioned regarding the methods of dealing with military accusations against women in England, he replied: "In the first place the accused person is brought before a tribunal which holds a preliminary enquiry, taking summary evidence. The accused is always assisted by a lawyer and a complete record of the evidence is given to the accused, who is then allowed an interval to prepare for defence. If the accused is a woman the trial always takes place before a civil court instead of a court martial. If he is a British subject at the trial whether military or civil, lawyers for the defence have the same opportunity given to the accused in the ordinary course of peace time."

FRENCH TROOPS JOINED SERBIANS.
PARIS, To-day. The debarkation of French troops at Saloniki continue regularly and under the best conditions. The French troops who crossed the Greek frontier have formed a junction with Serbian troops.

TURKS DEFENDING BULGARIAN COAST.
LONDON, To-day. The Bulgarian forces on the Aegean shore have left for the northern Serbian front, says a message to the Exchange Telegraph Co. from Athens. These troops have been replaced by five Turkish divisions, which now is charged with the defence of the Bulgarian coast. Reliable information from the despatch adds, places the strength of the Bulgarian forces on the Serbian front at seven divisions of which four are operating in the region of Pirrot and Kladzevac.

DENIES GREECE HAS UNDERSTANDING WITH BULGARIA.
PARIS, To-day. An authorized statement was made at Athens to-day says the Havas News Agency it denies the report current in Balkan capitals that an understanding exists between Greece and Bulgaria.

THE LOST CRUISER.
PETROGARD, To-day. The Prinz Albert is an armoured cruiser, 393 feet in length, and a displacement of 8,858 tons, she carries a complement of 557.

JOUBERT TO JOIN ENGLISH FORCES.
BERNE, To-day. General Joubert, of Boer War fame, arrived here on his way to Saloniki where he proposes joining the English forces. The British minister to-day presented him to President Motta.

CONSULS LEFT FOR INTERIOR.
LONDON, To-day. A despatch to Reuters Telegram Co. from Athens says that the Bulgarian authorities, the foreign consuls have left Dedagatch for the interior.

1,000 BULGARIAN SOLDIERS KILLED AT DEDEAGATCH.
LONDON, To-day. The bombardment of Dedagatch caused the death of ten civilians and over a thousand soldiers. There were large numbers of soldiers wounded, says a despatch to the Exchange Telegraph Co. from Athens. A large portion of the military casualties, the correspondent adds, were in barracks which housed the 40th Bulgarian regiment. The barracks was crowded with soldiers, who were preparing for a meal when the bombardment opened at one o'clock with accurately aimed shells which demolished the barracks, burying the occupants in ruins.

Dr. Geisel at Greenspond

Special to Evening Telegram.

GREENSPOND, To-day. The steamer Strathcona arrived here yesterday afternoon with Dr. Geisel, after a rough sail from King's Cove. When the doctor had been comfortably settled in one of our best homes, Mr. Crowe started out to make arrangements for a mass meeting, for unavoidably no arrangements had been made. After meeting the clergy and leading citizens of our town it was not long before an active organization were at work, and to show the enthusiasm of our people all arrangements were completed in four hours, including the carrying of hundreds of chairs to St. James' Hall where an audience of over eight hundred greeted Dr. Geisel at 8.30 last night, presided over by Dr. Jamieson. All children had to be excluded to make room for adults. The magnetic lecturer went right into the subject of prohibition and held the large audience for about two hours with such attention that a pin could almost be heard to drop and the people came away wishing it had been as long again. Dr. Geisel warmed up to the occasion, and answered in most convincing manner local as well as outside objections that has been raised by the few against prohibition, and clearly showed what an asset a sound man was to the nation, and how alcohol impaired health and usefulness to the country. Rev. E. C. French proposed and S. W. Hoddinot seconded a vote of thanks. This community will give a good account of themselves on Nov. 4th by recording an overwhelming majority in favour of prohibition. St. James Hall is again packed this morning while Dr. Geisel is addressing them on the subject of health. Of this we will have more to say later. The party leaves at noon to-day for Wesleyville, where the doctor will address a meeting this afternoon and to-night at 8 o'clock she will address a large meeting at Newtown.

Dorham, native of Newtown, B.B., and for some time past stationed at Tack's Beach, P.E., was elevated to the priesthood, and Messrs. Edmund Hunt, of Trinity, who was educated at Queen's College, and Rev. Robert Bailey, B.A., of Bonaventure, T.B., who graduated at Bishop's College, Lennoxville, P.Q., were ordained Deacons. The Lord Bishop of Newfoundland was present as well as Rev. Canon W. R. Smith, and G. H. Bolt, Rev. C. H. Barton, Dr. E. Jones, Rev. W. K. Gardner, Rev. A. Clayton, and Rev. W. E. R. Cracknell. Rev. Dr. Jones, Rector of St. Thomas's, preached a powerful and eloquent sermon, appropriate to the occasion, from the text Isaiah 6: 18. The service was fully choral the choir and congregation combined making the service impressive.

Yesterday's Parades.

OUR VOLUNTEERS.
The Volunteers of G. Company under command of Capt. Montgomery and headed by the C. L. B. Band, held a church parade yesterday, attending Divine Service at the C. of E. Cathedral, R. C. Cathedral and George St. Methodist Church and St. Andrew's Presbyterian Church, respectively. Owing to the inclemency of the weather the men returned to headquarters immediately after service instead of parading through the city as was originally intended.

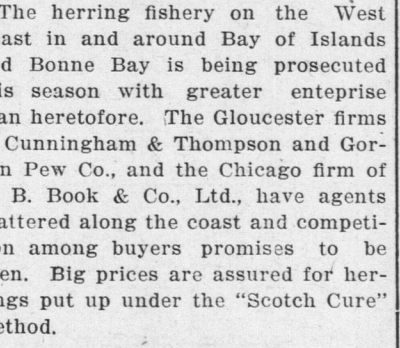

C. C. C.
The weather also interfered with the plans of the C. C. C. who had arranged a parade through the city. The battalion, however, under command of Lieut.-Col. Conroy, paraded to the Cathedral and assisted at Last Mass, which was celebrated by Rev. Dr. Greene. After Mass return was made to the armoury by way of Harvey Road.

HIGHLANDERS.
The Newfoundland Highlanders under command of Colonel Paterson, and headed by the Pipes, paraded to Divine Service at St. Andrew's Church. The Pastor, Rev. J. S. Sutherland, conducted the service and also preached an eloquent and instructive sermon on "The Visions of Youth." Solos were rendered by Miss Strang and Mr. DeWitt Cairns in a very pleasing manner. The volunteers of the congregation were presented with Testaments and a special hymn entitled "For the Men at the Front" was sung by the Choir. After the service the battalion returned to their armoury on King's Road, the parade through the city being postponed owing to the downpour of rain.

Herring Industry.

The herring fishery on the West Coast in and around Bay of Islands and Bonne Bay is being prosecuted this season with greater enterprise than heretofore. The Gloucester firms of Cunningham & Thompson and Gordon Pew Co., and the Chicago firm of R. B. Book & Co., Ltd., have agents scattered along the coast and competition among buyers promises to be keen. Big prices are assured for herrings put up under the "Scotch Cure" method.

In Mlady's Boudoir!

To fill out chest and throat rapidly a long course of lung exercise is needed. They must be taken in the freshest air possible, never in a tightly closed room, and in this manner: Stand by the open window or on the veranda, or in the yard, and inhale slowly through the nostrils, for provision is made there to arrest impurities which, if carried into the lungs, would injure their delicate structure. You have seen the tiny hairs in the nostrils; these constitute the strainer for dust, lint and germs. After taking in the breath, prolong the movement until the whole lungs are filled, the lower as well as the upper parts. Give less time to letting out the breath, and make every other exhalation forcible and accompanied by a definite movement of the diaphragm, which will empty the stagnant cells in the lower part of the lungs.

While doing these exercises try to realize to the full that breath is life, health and beauty, for singular to say, there is some occult connection between the breath, the heart and the mind. The adequate breathing of pure air not only improves human looks, but it is a boost to that devine thing we call the soul. Always breath deeply, as without the assistance of the lungs muscles remain flaccid and torpid. All mechanical exercises which are taken indoors, begin with relaxing movements so as to reduce the body to a condition of perfect flexibility. The order of practice is to begin with the fingers; withdraw the vital force to the muscles; make the fingers feel numb and then shake them. The hand comes next, then the forearm, the whole arm, the head, torso, foot, lower leg, whole leg, eyelids, and lower jaw. All of these points of the body are devitalized as much through the operation of the mind as by the relaxing of the muscles, and such general exercises are a good foundation for the neck and throat exercises which are fully as important.
