**To-Day's Messages.****STRICKEN OUT.**

WASHINGTON, May 13. The provisions in the Republican peace resolution, requesting the President to open negotiations with Germany for a separate treaty, was stricken out to-day, on motion of Senator Lodge of Massachusetts, Republican leader. The status of peace for the United States must be obtained in some other way, if it cannot be secured by ratification of the Treaty and the League of Nations. Senator Kellogg of Minnesota, one of the original mild reservation Republicans in the treaty fight, declared to-day in the Senate, supporting the Republican peace resolution.

On the reverse side of one of many bank notes found upon her, was written, "good-bye. Am another victim of the Bolsheviks." It was signed "Countess W." Efforts are being made by the police to establish the identity of this, the sixth Russian noblewoman, to commit suicide by drowning in Lake Geneva.

Editor Evening Telegram  
Dear Sir,—It was a great pleasure to learn from a correspondent in your paper yesterday that there is one harbor in the city who refused to enter into a combine to extract from the pockets of the wage earner, exorbitant prices for shaves and hair cuts. Hats off, I say, to a honest Michael Murphy and his faithful capable staff of co-barbers and assistants. Their neatly conducted parlors opposite the General Post Office have long been spoken of as staffed by a genial, courteous and competent manager and by equally sociable and obliging officials, so that we may doubly congratulate them now, for refusing to demand outrageous prices for their daily labors.

Yours truly,  
CLOSE SHAVE.

Employers' Accept 'Longshoremen's Offer.—Steamer-Workers' Pay to be 65 Cents per Hour by Day and 80 Cents for Overtime.

The striking steamer-workers of the L.S.P.U. went back to work at 10 o'clock this morning, their compromise offer having been accepted by the employers. Yesterday at 5 p.m., Delegates Flavin and Coady interviewed the interested ship agents, submitting to them the men's offer of 65 cents by day and 80 cents by night, per hour. The employers refused this offer yesterday, offering as an alternative 62 cents and 75 cents. This offer was reported back to the men and was refused. The employers were informed and thereupon submitted. The men resumed their interrupted work at 10 o'clock this morning. The delay caused the owners of the Rosalind a loss of \$3,000. It is hoped to have the Sackem ready by noon to-morrow; she will take very little outward freight.

MINARD'S LINIMENT CURES BURNS, Etc.

**Notes From Brigus.**

On Sunday last we were favored with a visit from our popular member Sir John C. Crosbie, who motored around the Bay. He returned again the same evening.

Mr. John Pinkstone, blacksmith, left by Tuesday morning's train for Port au Port, where he intends to engage in work during the coming summer.

A deep gloom was cast over the town on Saturday the 8th inst., when news was received that an accident had occurred at Bell Island, in which ex-Pte. James Breaker lost his leg and foot. The young chap had spent some years with the Canadian Expeditionary Force in France and had come through on the safe side.

Since the season opened Mr. Richard Walker has been making frequent trips to Bell Island in his large motor boat, taking passengers and freight.

Captain Harold Bartlett left yesterday in his schooner, "Ella M. Morrissey," for Sydney to bring back a load of black diamonds.

Yesterday and to-day carpenters have been engaged removing the old shingle roofing of the Methodist Academy and are replacing it with some rubber-felt roofing.

To-day—being Ascension Thursday—was suitably observed by our Roman Catholic brethren and service was held in their church at 10.30 a.m.

Captain Moses Bartlett left for the city by this morning's train.

Mr. Richard Whelan, Jr., is expected in town to-day from the States, to see his father who is very ill at present.

This has been a season of prophets. Those know-all apostles first predicted big returns from the sealfishery. Their predictions turned out to be worth no more than the breath which it took to utter them. Next came the encouraging news that we were to be favoured with an early spring and wonderfully productive season. The first part of the latter has fallen flat under the weighty opposition of "North Easter's" and the absence of old "Sol." It remains for the future to tell what amount of truth the latter contains.

Mr. C. A. Jerritt's schooner, "Clarence B." left for Grace for Sydney during the week to return with a cargo of coal.

NEMO.

**WILLIAM FREW, Water St.****High Finance.**

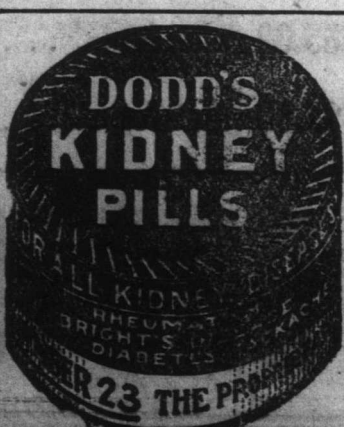

A Jewish rabbi was once visiting the various members of his church. When it was about the dinner hour he called at the house of a member who had fifteen children, and was naturally asked to dine with the family. As his host was in poor circumstances the minister, when about to leave, quietly offered him two shillings and sixpence to cover the cost of his meal. The Jew refused it, saying that he could not think of taking such high payment from his own minister, but if the latter really wished to leave a trifle, he could give each of the children a shilling.

**Shorthanded.**

Two Irishmen died and (because of the lives they led) one went to heaven and the other in the opposite direction. About three days after their departure, Mike, worried as to the condition his friend might be in, called down: "What are ye doing, Pat?" "I'm shovelin' coal." "Do ye worruk hard?" "Not very. We have shifts. I worruk only about three hours every day. What are ye doin'?" "Faith an' I'm sweeping off the golden stairs." "Do you worruk hard?" "Yis, very hard. About eighteen hours a day. We're very shorthanded here."

**Not Equal to a Barrel of Potatoes.**

Commercially speaking, the human body is worth about \$8, and the calculation is not difficult. The human body, it is figured, including skin, bones, flesh, nerves, blood, fat, and cartilage, is reducible by analysis to iron, salt, sugar, lime, phosphorus, magnesia, albumen, fatty substance, and residue that can be used. If this body weighs 150 pounds, an average weight, there would be enough by-products to make an ordinary iron nail, enough salt to fill a table salt-cellar, enough sugar to fill a small sugar-bowl, enough lime to whitewash a chicken coop, enough phosphorus to make a dozen matches, enough magnesia to afford one dose of medicine, and letters of sympathy. A hundred eggs, and there would be enough fat to fill a ten-pound pot, eight dollars, then, is man's real worth to commerce, and there are many undersized and ill-sorted persons who would fall far short of the mark.
